COMMONWEALTH OF AUSTRALIA DEPARTMENT OF HEALTH

MEDICAL BENEFITS SCHEDULE BOOK ARRANGEMENTS TO APPLY FROM 1 SEPTEMBER 1979

As announced by the Government on 24 May 1979 the following medical benefits arrangements will apply from 1 September 1979.

Commonwealth Medical Benefit (\$20 Maximum gap)

2. From 1 September 1979, benefits representing 40% of the Schedule fee will cease to be payable but where the Schedule fee for a service exceeds \$20, benefit will continue to be paid by the Commonwealth for the amount by which the Schedule fee exceeds \$20, i.e. the \$20 maximum gap will be retained. However, special arrangements will still apply in respect of persons covered by Pensioner Health Benefit Cards and uninsured persons identified as disadvantaged by medical practitioners (see below).

Basic Fund Benefit (\$10 Maximum gap)

3. As a condition of registration, private health insurance organisations will be required to offer a basic medical benefit table which, together with the Commonwealth benefit, will cover at least 75% of the Schedule fee for each medical service with a maximum patient payment of \$10 for any one service where the Schedule fee is charged. This means that any person who is currently privately insured for basic medical benefits will be able to retain his or her present medical benefits cover.

Pensioner Health Benefit Card Holders (85%/ \$5)

4. Pensioners with Pensioner Health Benefit entitlements and the dependants of such pensioners will continue to be eligible to receive medical benefits from the Government at 85% of the Schedule fee for each medical service with a maximum patient payment of \$5 for any one service where the Schedule fee is charged. The benefit will be paid as a Commonwealth benefit.

5. The existing bulk-billing facility for these persons will continue to be available provided the patient is not privately insured.

Bulk-Billing for Disadvantaged Persons (75% flat)

6. Bulk-billing arrangements will also continue in respect of persons identified by medical practitioners as disadvantaged (provided the patient is not privately insured).

7. Medical practitioners will continue to bulk-bill the Commonwealth for all services rendered to such persons and will receive 75% of the Schedule fee for each service rendered. However, the medical practitioner must accept the 75% benefit as full payment for the service and will not be permitted to recover any further amount from such patients.

Ready Reckoner

8. A ready reckoner has been prepared showing the level of medical benefits payable from 1 September 1979 under the new medical benefits arrangements.

9. The Ready Reckoner, copy of which is attached, covers the fee and benefit levels for each professional service set out in the Medical Benefits Schedule Book.

1 SEPTEMBER 1979

Medical Benefits Schedule — Transitional Period

10. Where an item refers to a service (rendered since 1 November 1978) in which treatment continues over a period of time in excess of one day and the treatment commenced before 1 September 1979 and continues beyond that date, the general rule is that the 1 November 1978 level of benefits would be payable.

11. However, as with previous fee increases in the case of relevant obstetric items a special rule will apply in that the rate of benefit will depend on the date of the actual confinement. If the confinement takes place before 1 September 1979, medical benefits will be paid at the 1 November 1978 benefit level. If the confinement takes place on or after 1 September 1979 medical benefits will be payable at the new (1 September 1979) level.

Health Insurance Act 1973

Amendments to Medical Benefits Schedule - 1 June 1979

This Circular advises the changes to be made to the Medical Benefits Schedule arising from the Health Insurance (Variation of Fees and Medical Services)(No. 13) Regulations which will come into operation on 1 June 1979.

2. The Regulations provide for the introduction of a new item for venepuncture when performed under certain conditions as recommended by the Pathology Services Working Party.

3. This new item which will be included in "Part 6 - Miscellaneous Services" and will read as follows:

"Item No. 955 Venepuncture and the collection of blood for the performance by an approved pathology practitioner of a pathology service - one or more such procedures during the one attendance.

Schedule Fee - All States	\$2.00
Commonwealth Benefit at 40%/\$20 gap	80¢
Basic Fund Benefit	70¢
Combined Benefit at 75%/\$10 gap	\$1.50
Commonwealth Benefit at 85%/\$5 gap	\$1.70
Commonwealth Benefit at 75% flat	\$1.50

4. Medical benefits will be payable once only under this item irrespective of the number of blood samples collected during any one attendance and provided that:-

- (a) the collection is done for forwarding to an approved pathology practitioner outside the requesting practitioner's partnership or group practice; and

- (b) the collection is not associated with the performance of pathology test(s) for the same patient episode by any member including an approved pathology practitioner within the requesting practitioner's partnership or group practice.

5. Medical benefits will NOT be payable for this item in the following circumstances:-

- (a) when the service is rendered in conjunction with any of the items in Division 9 of Part 7 nor with procedural services in Division 2 (Procedural Services) of Part 7 of the Schedule;
- (b) when the service is in respect of inpatients or outpatients of private or recognised hospitals;
- (c) when the collection is done on private or recognised hospital premises (excepting rooms privately rented from the hospital which are defined as not being hospital premises);
- (d) when the collection is done by Governmental or non-profit instrumentalities or institutions (including university departments).

6. Apart from the introduction of the above new item the Regulations provide for a number of other changes to the Schedule as follows:

- (a) Part 6, Division 10:

The Schedule fee for the following item has been changed:-

Item 994 - Multiphasic health screening service involving the performance of 10 or more medical services specified in items in Parts 6, 7 and 8 (including any associated consultation)

Schedule fee	N.S.W.	\$110.00
	VIC.	\$ 97.00
	QLD.	\$ 97.00
	S.A.	\$ 97.00
	W.A.	\$ 97.00
	TAS.	\$ 97.00

NOTE: This item covers multiphasic screening services rendered only by the Mediceck Referral Centre in Sydney and the Shepherd Foundation in Melbourne. Claims for medical benefits in respect of screening services rendered by other than the above two organisations will be rejected.

(b) Part 6, Division 10:

Item 998 has been deleted. As from 1 June 1979 the normal Schedule fees will apply for each service provided by the Medichcek Breast Clinic and the normal medical benefits will be attracted for each service rendered.

(c) Part 9A - Computerised Axial Tomography:

The Schedule fees of the following items have been changed:

7. It will be noted that there are two levels of fees in respect of computerised axial tomography, i.e. "HR" and "OR".

8. The "HR" Schedule fee applies to specified items in Part 9A where the service is rendered using any computerised axial tomography equipment of a recognised hospital or a radiology unit included in a prescribed class of radiology units.

9. The "OR" Schedule fee applies to specified items in Part 9A in other circumstances, i.e. where the service is rendered without using any computerised axial tomography equipment of a recognised hospital or a radiology unit included in a prescribed class of radiology units.

10. Each of the following classes of radiology units is a prescribed class of radiology units:

- (a) radiology units operated by the Commonwealth;
- (b) radiology units operated by a State or an authority of a State;
- (c) radiology units operated by the Northern Territory of Australia;
- (d) radiology units operated by the Australian Capital Territory Health Commission; and
- (e) radiology units operated by an Australian University.

Health Insurance Act 1973

Amendments to Medical Benefits Scheme - 15 March 1979

This Circular advises the changes to be made to the Medical Benefits Schedule arising from an increase in fees for pathology services, for the purposes of medical benefits, contained in a Determination handed down by Mr Justice J.T. Ludeke following a reconvening of the 1977 Enquiry on Medical Fees for Medical Benefits Purposes.

2. The changes which provide for an increase in fees for all services contained in Part 7 - Pathology Services of the Medical Benefits Schedule introduce uniform fees for pathology services throughout Australia.
3. Regulations under the Health Insurance Act are to be promulgated to effect these changes which will apply, for medical benefit purposes, in respect of pathology services rendered on and after 15 March 1979.
4. Replacement pages for the Medical Benefits Schedule Book will be printed and distributed as soon as practicable.
5. The attached "Table A" sets out the new Schedule Fees for the items contained in "Part 7 - Pathology Services" together with the various levels of medical benefits payable.
6. In accordance with a recommendation of the Pathology Services Working Party it is proposed to introduce a new item for venepuncture when performed under certain conditions.
7. It may not be possible to draft the necessary legislation for this item in time to introduce it with effect from 15 March 1979. If this is the case the item will be introduced as soon as possible after that date.
8. This new item which will be included in "Part 6 - Miscellaneous Services" and will read as follows:-

"Item No. 955 Venepuncture and collection of blood for forwarding to an approved pathology practitioner for pathology testing."

Schedule Fee - All States	\$ 2.00
Commonwealth Benefit at 40%/\$20 gap	80¢
Basic Fund Benefit	70¢
Combined Benefit at 75%/\$10 gap	\$ 1.50
Commonwealth Benefit at 85%/\$5 gap	\$ 1.70
Commonwealth Benefit at 75% flat	\$ 1.50

9. Medical benefits will be payable once only under this item irrespective of the number of blood samples collected during any one attendance and provided that:-

- (a) the collection is done for forwarding to an approved pathology practitioner outside the requesting practitioner's partnership or group practice; and
- (b) the collection is not associated with the performance of pathology test(s) for the same patient episode by any member including an approved pathology practitioner within the requesting practitioner's partnership or group practice.

10. Medical benefits will NOT be payable for this item in the following circumstances:-

- (a) when the service is rendered in conjunction with any of the items in Division 9 of Part 7 nor with procedural services in Division 2 (Procedural Services) of Part 7 of the Schedule;
- (b) when the service is in respect of inpatients or outpatients of private or recognised hospitals;
- (c) when the collection is done on private or recognised hospital premises (excepting rooms privately rented from the hospital which are defined as not being hospital premises);
- (d) when the collection is done by Governmental or non-profit instrumentalities or institutions (including university departments).

11. Advice concerning the date of effect of the venepuncture item will be given as soon as possible.

DEPARTMENT OF HEALTH

MEDICAL BENEFITS SCHEDULE BOOK REPLACEMENT PAGES — 1 FEBRUARY 1979

As a result of recommendations made by the Schedule Revision Committee and following consultation with the Australian Medical Association, the Medical Benefits Schedules are being amended as from 1 February 1979. The amendments will apply to services rendered on and after that date.

2. Attached is a set of replacement pages incorporating the amendments, for insertion into Section 2 "Medical Benefits Schedule" of the Medical Benefits Book. The replacement pages are printed on white paper and are further identified by the date 1/2/79 appearing at the bottom left hand corner of each page.

3. New and amended services are identified in the Schedule in Part 2 by the following symbols in the margin —

- | | |
|--|---|
| (a) New services | † |
| (b) Description of service amended | ‡ |
| (c) Item transferred (Item number changed) | * |
| (d) Fees amended | + |

4. The fees and benefits shown in the replacement pages incorporating 1 February 1979 amendments to the Schedule are expressed in 1 January 1978 values with the exception of pages 72/73 and 78/79 (Part 7 — Pathology) which are shown in 1 August 1977 fees. This enables the existing level of benefits to be readily ascertained by referring to the Ready Reckoner dated 1 November 1978.

5. While the majority of the amendments are self explanatory, some items require clarification. Accordingly the following notes have been prepared for the guidance of medical practitioners.

Items 3219-3226 — Tumour, cyst, ulcer or scar, removal of

6. The description of these items has been amended to indicate that benefits are attracted when the lesions are removed by cryosurgery using liquid nitrogen or by surgical excision with suture. Where lesions are excised surgically but without closure by suturing, Items 3330-3346 apply.

Item 3349 — Cutaneous neoplastic lesions, treatment of, etc.

7. This item provides for the treatment of cutaneous neoplasms by means other than surgical excision and suture. As distinct from Item 3330, benefits are allowable for a consultation as well as for the service.

Item 3532 — Cystic hygroma — excision of

8. As indicated in the description, this item applies only to the excision of massive lesions.

9. The excision of small lesions is covered by items 3219-3237 and the excision of medium sized lesions by item 3281.

Items 4611/4617 Pilonidal sinus or cyst or sacral sinus or cyst, excision of

10. These items refer to the procedure carried out on a person ten years of age or over.

11. The excision of lesions in a child under ten years of age is covered by items 4552/4557.

Electrolysis epilation

12. Former Item 8456 which covered epilation by electrolysis has been deleted

from the Medical Benefits Schedule as it is not considered to be a medical service. When performed for trichiasis, benefits are now attracted under Item 6767.

Local Skin Flap – Definition

13. A local skin flap is an area of skin and subcutaneous tissue designed to be elevated from the skin adjoining a defect needing closure. The flap remains partially attached by its pedicle and is moved into the defect by rotation, advancement or transposition, or a combination of these manoeuvres. A secondary defect will be created which may be closed by direct suture, skin grafting or sometimes a further local skin flap. This latter procedure will also attract benefit if closed by graft or flap repair but not when closed by direct suture.

14. By definition, direct wound closure (e.g. by suture) does not constitute skin flap repair. Similarly angled, curved or trapdoor incisions which are used for exposure and which are sutured back in the same position relative to the adjacent tissues are not skin flap repairs. Undermining of the edges of a wound prior to suturing is considered a normal part of wound closure and is not considered a skin flap repair.

15. A "Z" plasty is a particular type of transposition flap repair. Although 2 flaps are created, rebate will be paid on the basis of Item 4880 or 8484 once only.

16. Common Items where local skin flap repair is payable include:

3041	3276	7815	8470
3219/3220	3295	7817	8472
3221/3222	3301	7821	8474
3233/3237	3314	7823	8522
3247/3253	3320	8298	8524
3261/3265	3477	8462	8588
3271	6044	8466	

Note: This list is not all-inclusive and there are circumstances where other services might involve flap repair.

17. Items where a local flap repair should not be payable in addition are:

3046-3101	3223-3226	8530	8594-8600
3104	3309-3311	8532	8608
3173-3183	3603	8542	8612
3194-3217	8528	8550	8622-8652

Pre-Operative Visit by Surgeon

18. In the case of elective surgery, an attendance by the surgeon on the day of or on the day preceding surgery would not normally attract benefits.

19. That is, a pre-operative attendance for the purposes of confirming the status of the patient, completing hospital records, instituting pre-operative treatment, planning the operation, marking skin over varicose veins, etc., is covered by the Schedule fee and benefit for the operation. However, in event of an unexpected complication necessitating a special attendance, a benefit would be attracted.

**COMMONWEALTH OF AUSTRALIA
DEPARTMENT OF HEALTH**

**Medical Benefits Schedule Book
Arrangements To Apply From 1 November 1978**

1. As announced in the Budget Speech on 15 August 1978, the Government intends that the following medical benefits arrangements will apply from 1 November 1978.

Commonwealth Medical Benefit (40% / \$20 rate)

2. The Commonwealth Government will pay a new universal Commonwealth medical benefit from Consolidated Revenue. This Commonwealth benefit will cover 40% of the Schedule fee for each medical service with a maximum patient moiety of \$20 for any one service where the Schedule fee is charged. The Commonwealth benefit will be payable to all Australian residents whether privately insured or uninsured, except persons covered by Pensioner Health Benefit Cards and uninsured persons identified as disadvantaged by medical practitioners (see below).

Basic Fund Benefit (35% / \$10 table)

3. As a condition of registration, private funds will be required to offer a basic medical benefit table which, together with the Commonwealth benefit, will cover 75% of the Schedule fee for each medical service with a maximum patient payment of \$10 for any one service where the Schedule fee is charged. This means that any person who is currently privately insured and any levy payer who elects to take out private insurance from 1 November 1978 will be able to retain his or her present medical benefits cover.

Pensioner Health Benefit Card Holders (85% / \$5)

4. Pensioners with Pensioner Health Benefit entitlements and the dependants of such pensioners will continue to be eligible to receive medical benefits from the Government at 85% of the Schedule fee for each medical service with a maximum patient payment of \$5 for any one service where the Schedule fee is charged. The benefit will be paid as a Commonwealth benefit.

5. The existing bulk-billing facility for these persons will continue to be available provided the patient is not privately insured. Claims for services after 1 November 1978 are to be processed by the Department of Health.

Bulk Billing for Disadvantaged Persons (75% flat)

6. Bulk billing arrangements will be available in respect of persons identified by medical practitioners as disadvantaged (provided the patient is not privately insured).

7. Medical practitioners will be able to bulk bill the Commonwealth for all services rendered to such persons and will receive 75% of the Schedule fee for each service rendered. However, the medical practitioner must accept the 75% benefit as full payment for the service and will not be permitted to recover any further amount from such patients.

1 NOVEMBER 1978

Payment of Commonwealth Benefits by Private Funds

8. Private funds may enter into an agreement with the Commonwealth to pay Commonwealth medical benefits on behalf of the Government to persons who do not wish to take out private medical insurance. These benefits are:—

- (i) the universal Commonwealth medical benefit (40% / \$20 maximum gap); and
- (ii) the Commonwealth benefit (85% / \$5 maximum gap) payable to persons covered by P.H.B. entitlements, where the doctor does not bulk-bill the Department of Health.

Ready Reckoner

9. A ready reckoner has been prepared showing the level of medical benefits payable from 1 November 1978 under the new medical benefits arrangements.

10. The Ready Reckoner, copy of which is attached, covers the fee and benefit levels for each professional service set out in the Medical Benefits Schedule Book.

Department of Health,
CANBERRA, A.C.T. 2606

* Basic Fund Benefit is the difference between Combined Benefit at 75% / \$10 maximum gap of the Schedule Fee, and Commonwealth Benefit at 40% / \$20 maximum gap of the Schedule Fee.

**COMMONWEALTH OF AUSTRALIA
DEPARTMENT OF HEALTH**

**Medical Benefits Schedule Book
Variation in Benefit Level — 1 July 1978**

1. The Government has approved of a reduction in the medical benefits for all medical services from 85 per cent to 75 per cent of the Schedule fees.

2. The new rate of medical benefits will apply to all services rendered on or after 1 July 1978 and from that date the maximum payment by a patient for each medical service where the Schedule fee is charged will rise from \$5 to \$10.

3. The Schedule fees which have applied since 1 January 1978 have not been varied.

4. As it is not practicable to issue a full reprint of the Medical Benefits Schedule Book at this stage a Ready Reckoner has been prepared to facilitate the determination of the new level of medical benefit and patient gap. The fees and benefits shown on the replacement pages incorporating 1 July 1978 amendments to the Schedule are expressed in 1 January 1978 values so that the Ready Reckoner can also be applied to services on those pages.

5. IT SHOULD BE NOTED THAT THIS READY RECKONER APPLIES TO ALL SERVICES LISTED IN THE SCHEDULE.

6. The Ready Reckoner will enable the new benefit for a medical service to be easily determined. For example:—

(a) Item 24 — Standard Consultation — in hours (Page 1 of Book)

Schedule Fee 1 January 1978 = \$8.90 (N.S.W. fee)

Refer first page of Ready Reckoner

Schedule Fee 1 January 1978 — \$8.90

Medical Benefit 1 July 1978 = \$6.70 (75% of Schedule Fee)

Gap = \$2.20

(b) Item 8053 — Hip-arthroplasty (Page 239 — replacement page of Book)

Schedule Fee 1 January 1978 = \$270

Refer last page of Ready Reckoner

Schedule Fee 1 January 1978 — \$270

Medical Benefit 1 July 1978 = \$260 (75% of Schedule Fee)

Gap = \$10.00.

7. For all aggregate items there is no change in the individual components which go to make up the derived fee. However, the formula for determining the benefit is changed, i.e. 75% of the derived fee, or the derived fee less \$10, whichever is the greater. For example:—

In the case of superficial Radiotherapy of two fields, the derived fee in 1 January 1978 Schedule is obtained by adding to the fee for Item 2861, \$12.40 (Page 103) an amount of \$2.40 (Item 2863).

Refer second page of Ready Reckoner.

Schedule Fee 1 January 1978 — \$14.80

Medical Benefit 1 July 1978 = \$11.10

Gap = \$3.70.

Special Arrangements — Transitional Period

8. Where an item refers to a service in which treatment continues over a period of time in excess of one day and the treatment commenced before 1 July 1978 and continues beyond that date, the 1 January 1978 level of benefits would be payable.

9. In the case of the relevant obstetric items, if the confinement took place before 1 July 1978, medical benefit will be payable at the 1 January 1978 level. However, if the confinement takes place after 1 July 1978 the medical benefit will be payable at the new rate (75%).

Pensioner Health Benefits

10. The Government will hold discussions with the Australian Medical Association on the level of medical benefits payable for services to people with Pensioner Health Benefits entitlement. Further advice will be forwarded in this regard.

COMMONWEALTH DEPARTMENT OF HEALTH

Medical Benefits Schedule Book REPLACEMENT PAGES 1 JULY 1978 — AMENDMENTS

As a result of recommendations made by the Medical Benefits Schedule Revision Committee and following consultation with the Australian Medical Association, the Medical Benefits Schedule is being amended from 1 July 1978. The amendments will apply to services rendered on and after that date.

Attached is a set of replacement pages incorporating the amendments, for insertion into Section 2 "Medical Benefits Schedule" of the Medical Benefits Schedule Book. The replacement pages are of a light blue colour and are further identified by the date 1 July 1978 appearing at the bottom left hand corner of each page.

New and amended services have been identified in the Schedule in Section 2 by the following symbols in the margin —

- | | |
|--|---|
| (a) New services | † |
| (b) Description of service amended (item number unchanged) | ‡ |
| (c) Fees amended | + |

While the majority of the amendments are self explanatory, some items require clarification. Accordingly the following notes have been prepared for guidance —

Item 756 — Nerve block with neurolytic agent

Where a diagnostic block with local anaesthetic has been performed at a separate attendance to nerve block with a neurolytic agent, benefit is payable for the former service under Item 755. However, where local anaesthetic block is performed at the same attendance, either for diagnostic purposes or as anaesthesia preparatory to injecting alcohol etc., separate benefit is not attracted under Item 755.

Item 2678 — Intravenous pyelography and limited tomography

Item 2678 covers the circumstances where it is necessary to make only a limited tomographic examination. Where, however, full tomographic examination is required, Item 2676 and Item 2796 (Tomography and report) should be itemised.

Items 2734 and 2736 — Radiography of the Breast

The descriptions of these items have been amended following a recommendation of the Medical Benefits Advisory Committee. The Committee's recommendation was based on the generally accepted view that mammography should not be used as a primary screening procedure in apparently well people and that it should only be performed by specialist radiologists on patients referred specifically for the examination.

To facilitate these requirements the Regulations to the Health Insurance Act have been amended so as to require the referring medical practitioner to complete a Notice of Referral in his own handwriting, indicating that the patient has been referred for mammography in accordance with the requirements of the items.

Item 3722 — Laparotomy and other procedures

The purpose of this new item is to collect under the one heading several operations on abdominal viscera not dissimilar in time and complexity which hitherto were listed individually and which carried varying Schedule fees and benefits.

Where more than one of the procedures included in Item 3722 are performed during the one operation, each procedure may be itemised according to the multiple operation formula except for (with reservations) division of peritoneal adhesions.

1 JULY 1978

Although the division of peritoneal adhesions carries the restriction "where no other listed intra-abdominal procedure is performed", benefits on the multiple operation basis will be attracted under Item 3722 when itemised in association with another intra-abdominal operation where:-

- (i) extensive peritoneal adhesions are encountered;
- (ii) the division of the adhesions is not related solely to the course of the principal procedure (e.g. removal of a retro-caecal appendix or a closely adherent gall-bladder would not qualify);
- (iii) the additional time required is in excess of 45 minutes; and
- (iv) the surgeon provides sufficient details on his account to indicate that the requirements of sub-paragraphs (i), (ii) and (iii) have been met.

Item 5172 — Middle ear, insertion of tube for drainage of (including myringotomy)

This item has been amended to indicate that myringotomy is an essential part of this service and that benefit is not attracted for Item 5162 (myringotomy) as well.

Items 5644 and 5645 — Renal transplant by vascular surgeon and urologist operating together

The Schedule fees and benefits for these items are based on the fact that the two surgeons are operating together, each assisting the other. Therefore additional benefits under Part 9 (Assistance at operations) are not payable.

SPECIAL ARRANGEMENTS (Transitional Period)

Some of the amended items (e.g. 190 and 192) refer to a service or treatment continuing over a period of time in excess of one day. Where the treatment commenced before 1 July 1978 but continued beyond that date the increased benefit will apply.

EXPLANATORY NOTES**

INCREASE IN SCHEDULE FEES AND BENEFITS — 1 JANUARY 1978

1. The Government has approved an increase in medical benefits for all medical services other than pathology services listed in Part 7 of the Medical Benefits Schedule. The new benefits are based on new Schedule fees which will apply from 1 January 1978. The increases were determined by Mr Justice J. T. Ludeke, who was requested by the Government, after consultation with the Australian Medical Association, to determine fees to apply for medical benefits purposes from 1 January 1978.

2. The Schedule fees which have applied since 1 January 1977 will be increased as below:—

SCHEDULE ITEM NUMBERS	PERCENTAGE INCREASE
3-78, 82, 160-164	8.72
85-103	8.53
110-152, 794-839, 886-907, 987-989	8.53
190-383, 6258-6681	5.02
401-790, 908, 977	5.51
844-884, 2950-6253, 6686-8656	3.74
1006-2392	NIL
2430-2940	6.06

3. The new benefits will apply to all medical services rendered on or after 1 January 1978.

4. The new fees and benefits will be implemented by means of a full reprint of the Medical Benefits Schedule Book.

Amendments to the Medical Benefits Schedule — 1 January 1978

5. Several additions, deletions and amendments recommended by the Medical Benefits Schedule Revision Committee have been made in this edition of the Medical Benefits Schedule Book. These adjustments become effective from 1 January 1978 and apply to services rendered on and after that date.

6. New and amended services are identified in the Schedule in Part 2 by the following symbols in the margin —

- | | |
|---|---|
| (a) New services | † |
| (b) Description of service amended (Item number unchanged) | ‡ |
| (c) Major amendment to description of service (Item number changed) | § |
| (d) Fees amended (in addition to general fee increase) | + |

7. While the majority of the amendments are self explanatory, some items require clarification. Accordingly the following notes have been prepared for guidance.

1 JANUARY 1978

Items 748/752 — Major regional or field block.

8. These items have been amended to indicate that cervical plexus does not refer to the nerves surrounding the uterine cervix. Infiltration of these nerves is regarded as being local infiltration not attracting benefits under these items.

Item 6325 — Vagina, partial or complete removal of.

9. Procedures such as excision of upper half of vagina, excision of vaginal vault are covered by this item.

Item 7886 — Removal of buried wire, pin, screw, rod, nail or plate requiring incision under regional or general anaesthesia.

10. This item refers to implanted orthopaedic appliances only. The requirements for payment of benefits are: (1) incision, and (2) general or regional anaesthesia. Removal of protruding pins or wires does not attract benefits nor removal of buried appliances under local infiltration.

11. Benefits are payable for this service during the after-care period of a fracture or operation.

12. Attention is drawn to amendments to previous items and introduction of new items in Part 1 relating to general practitioner attendances at hospitals and nursing homes. A comparison is shown between the former and the current Schedule.

13. Benefits are now payable for both a consultation and a radiotherapy service where rendered on the occasion of the initial referred consultation. Benefits are not payable for supervisory attendances during the course of radiotherapy.

14. Part 8 — Division 17 and Part 8A have been renumbered in this reprint of the Book and Division 17 will be titled Division 16. A conversion table of old to new item numbers is set out below.

COMMONWEALTH DEPARTMENT OF HEALTH

Preface

This Book provides information on the arrangements under which the Medical Benefits Scheme will operate as from 1 January 1978.

Section 1 of this Book contains explanatory notes on changes to the Scheme together with an outline of the arrangements.

The Schedule shows for each service the item number, description of medical service, Schedule fee as at 1 January 1978 (except Part 7 which remains at the 1 August 1977 level) for each State and the amount of benefit. In the case of services which have an associated anaesthetic, the number of relevant anaesthetic units together with the anaesthetic item number is shown.

The Index of the Book is in two sections. Section 3A provides an index to items in Parts 1 to 6, 9 and 10 of the Schedule, while Section 3B provides an index to Part 7 Pathology Services, Part 7A Nuclear Medicine, Part 8 Radiological Services and Part 8A Radiotherapy.

This edition of the Book has been printed for use by medical practitioners, private medical benefit organisations and the Health Insurance Commission.

The maximum benefits payable for "gap" or supplementary insurance by private medical benefits organisations providing such insurance can be calculated by subtracting the appropriate benefits from the Schedule fees shown in the Schedule.

It should be noted that the fees and benefits shown in this edition of the Book are the Schedule fees and benefits in force at 1 January 1978 and apply to medical services on and after that date.

The Book has four sections:—

Section	Content
1	Outline of the Medical Benefits Scheme and Notes for General Guidance of Medical Practitioners Part A — Explanation of Changes Part B — Outline of Medical Benefits Scheme Part C — Compilation and Information on Interpretation of the Medical Benefits Schedule

SECTION 1
PART B
OUTLINE OF THE MEDICAL BENEFITS SCHEME

Health Insurance Levy for Medibank Cover

1. All Australian residents are required to have at least medical benefit cover and minimum hospital benefit cover (i.e. sufficient to cover the cost of accommodation as a hospital patient — as defined in the Health Insurance Act — in the standard ward of a recognised public hospital).
2. Australian residents are subject to a health insurance levy on taxable income for this cover which is provided by Medibank.
3. Medibank cover is provided with exemption from payment of the health insurance levy to persons whose taxable incomes are below certain prescribed limits.
4. Certain Repatriation beneficiaries who are entitled to full free medical and hospital treatment under the Repatriation system and Defence personnel may be eligible for full or partial exemption from payment of the levy.
5. Exemption from payment of the levy also applies to persons who elect not to have Medibank cover but, instead, decide to purchase basic or higher medical benefit cover and basic or higher hospital benefit cover from Medibank (private insurance) or from a registered private health insurance organisation.
6. In circumstances where exemption from the levy is obtained, the eligible dependants of such persons are also exempt from paying the health insurance levy.
7. Where the levy is payable, generally it is collected automatically by instalment deductions from salary or wages in addition to the usual tax instalment deductions. In other cases, such as self employed persons, the levy is added to the income tax payable when income tax assessments are issued to the taxpayer.

Private Health Insurance as an Alternative to Medibank

8. As an alternative to Medibank cover, Australian residents may purchase basic or higher medical benefit cover and basic or higher hospital benefit cover (i.e. covering hospital charges for shared or private room accommodation and treatment by the patient's own doctor in a public hospital or in a private hospital) from one or more registered private health benefit organisations (See paragraph 11). By obtaining such cover and paying contributions to a registered health benefit organisation, those persons opt out of Medibank and, consequently, are exempt from payment of the levy.
9. Private health insurance cover may be obtained by means of payment of contributions to either Medibank (private insurance) which is registered as a health benefit organisation for the purpose of providing private health insurance other than the standard Medibank cover, or a registered private health benefit organisation. The medical benefit and hospital benefit cover provided by Medibank (private insurance) is similar to that provided by other registered health benefit organisations.
10. Persons with standard Medibank cover may, if they wish, purchase additional (supplementary) hospital benefit cover either from Medibank (private insurance) or from a private health benefit organisation in order to obtain higher hospital benefit cover for shared or private room accommodation and treatment by their own doctor in a public hospital or in a private hospital (See paragraph 11). However, this does not provide exemption from the health insurance levy since medical benefit cover would still be provided under the standard Medibank arrangements.
11. In Tasmania, at the present time (October, 1977) patients with complete private insurance who are admitted to standard wards of public general hospitals will be treated as standard ward patients (with care by doctors engaged by the hospital), and a charge will be made. However, patients with hospital only insurance (who are, of course, entitled to standard Medibank benefits) will not be charged when admitted as standard ward patients in public general hospitals. In these circumstances,

references in this Book to "treatment by the patient's own doctor" or similar should, in the case of Tasmania, be read in the context of this paragraph.

Eligibility for Medical Benefits

12. All Australian residents i.e. persons whose permanent place of abode is in Australia, are eligible for medical benefits in accordance with the Health Insurance Act.

13. Medical benefits are payable by Medibank, Medibank (private insurance) or by registered private medical benefit organisations, according to the type of health insurance covering the patient.

14. Medibank medical benefits under the standard Medibank arrangements are generally available only in respect of permanent residents of Australia. To obtain cover for medical expenses, visitors to Australia will need to make special arrangements.

Standard Medibank

15. Persons who are covered under the Standard Medibank arrangement will obtain their medical benefits by claiming on Medibank, unless the doctor has accepted an assignment of benefit for the service and direct bills Medibank for the benefit. Direct billing arrangements for pathology services will only be available in respect of pathology services provided to eligible pensioners and their dependants and will not be available in respect of other patients.

Contributors to Medibank (Private Insurance)

16. Persons who are privately insured for medical benefit purposes with Medibank (private insurance) will claim benefits from Medibank. However, if the doctor has accepted an assignment of benefits from the patient, the doctor will claim the benefit direct from Medibank.

Contributors to Other Registered Private Medical Benefit Organisations

17. Persons who are privately insured for medical benefit purposes with any other private registered medical benefits organisation will claim benefits from that organisation.

Medibank

18. The Health Insurance Commission is responsible for the administration of both Medibank and Medibank (private insurance) and, as such, provides payment of medical benefits for the following categories of persons —

- (a) those whose taxable income is less than the prescribed limits at which the levy applies and who have not purchased basic or higher medical benefit insurance from a registered private medical benefit organisation;
- (b) those who pay the health insurance levy; and
- (c) those who obtain private health insurance cover by means of payment of contributions to Medibank (private insurance).

Medibank Identification

19. The Health Insurance Commission provides eligible persons with appropriate evidence of Medibank health insurance cover. Similar evidence is provided for persons who purchase health insurance cover from Medibank (private insurance). Each person will be allotted a unique Medibank number.

Schedule Fees and Table of Benefits

20. Medical benefits are based on fees determined for each medical service in each State. Fees for the Australian Capital Territory and Northern Territory are the same as for New South Wales and for medical benefit purposes the term New South Wales should be read as including these two territories. The fees to which benefits are related are those applicable in the State where the service was rendered, irrespective of the State of residence of the medical practitioner or the patient. These

fees are shown in the Schedule in Section 2 of this Book. The fee is referred to in these notes as the "Schedule fee".

21. The amount of benefit payable for each medical service in each State has been determined as:—

- (i) 85% of the Schedule fee for that service in the particular State; or
- (ii) the amount of the Schedule fee less \$5.00;

whichever is the greater. Where appropriate, the calculated benefit has been rounded to the nearest higher 5 cents. However, in no circumstances will the benefit payable for any service exceed the amount of the fee actually charged for that service.

22. The basic medical benefit tables operated by the registered private organisations provide the same levels of medical benefits for fund contributors as Medibank provides for its beneficiaries. Medibank medical benefits are the same for levy payers (including those exempt because of income levels, etc.), and for persons who contribute for Medibank private medical insurance.

Professional Services

23. Professional services which attract medical benefits are medical services rendered by or on behalf of a medical practitioner. Medical services which may be rendered "on behalf of" a medical practitioner include pathology and radiology services where portion of the service is performed by a technologist employed by the medical practitioner, or injections given by a nurse under the medical practitioner's personal supervision.

24. Certain other services, such as manipulations performed by physiotherapists, do not qualify for medical benefit even though they may be done on the advice of a medical practitioner.

25. The notes in this book relate to professional services by or on behalf of medical practitioners. Separate books are issued in relation to the payment of benefits for:—

- certain medical services of a dental nature rendered by approved dental practitioners in an operating theatre of a hospital;
- consultations by participating optometrists.

Aggregate Items

26. The Schedule includes a number of items which apply only in conjunction with another specified service listed in the Schedule. These items provide for the application of a fixed loading or factor to the fee and benefit for the service with which they are rendered. Item 2863 — Superficial radiotherapy of two or more fields — is an example.

27. When these particular procedures are rendered in conjunction, the legislation provides for the procedures to be regarded as one service and for a single patient gap to apply. The Schedule fee for the service will be ascertained in accordance with the particular rules shown in the relevant items. Benefit will be calculated at 85% of the appropriate fee, with the proviso that the patient gap will in no case exceed \$5.

28. Examples of the services to which this aggregation principle applies are Items 482, 483, 484, 485, 553, 554, 556, 557, 2732, 2782, 2798, 2863, 2867, 2871, 2877, 2881, 2885, 2889, 2893, 2897, 7483, 7803, 7809, 7817, 7823, 7828, 7834, 7839, 7844 and 7847.

Pathology Services

29. Substantial changes have been made in respect of pathology services as from 1 August 1977. These include a revised Part 7 of the Schedule (with substantial revision of the items and Schedule fees), and the conditions under which the services are eligible for medical benefits.

30. Particular attention is invited to paragraphs 151 et seq in Part C of the Notes, which sets out details of the changes in the provisions relating to pathology services.

Where Medical Benefits are not Payable

31. Medical benefits are not payable in respect of a professional service in the following circumstances —

- (i) where the medical expenses for the service are paid or payable to a recognised (public) hospital;
- (ii) where the doctor who rendered the service was acting on behalf of an organisation prescribed for the purposes of Section 17 of the Health Insurance Act;
- (iii) where the service was rendered on the premises of an organisation prescribed for the purposes of Section 17;
- (iv) where the service was rendered on the premises of an organisation approved for the purposes of a Health Program Grant;
- (v) where the service was rendered to a hospital patient occupying an approved bed in respect of which a supplementary daily bed payment is payable in accordance with Section 34 of the Health Insurance Act. (Section 34 relates to certain private non-profit hospitals which provide comprehensive care and treatment free of charge to hospital patients in approved beds);
- (vi) where the medical expenses for the service are wholly payable by way of compensation or damages under a State or Commonwealth or Territorial law or under a legal claim. (However, where medical expenses are only partly recoverable in such cases, the amount of medical benefit payable will be determined by the medical benefit organisation in the case of an insured contributor and by Medibank in other cases);
- (vii) where the service is a medical examination for the purposes of —
 - life insurance,
 - superannuation or provident account scheme, or
 - admission to membership of a friendly society;
- (viii) where the service was rendered in the course of the carrying out of a mass immunisation.

32. Medical benefits are not payable for services rendered to a "hospital patient". The Health Insurance Act defines "hospital patient" in relation to an approved hospital as —

"an in-patient in respect of whom the hospital provides comprehensive care, including all necessary medical, nursing and diagnostic services and, if they are available at the hospital, dental and paramedical services, by means of its own staff or by other agreed arrangements."

33. Medical benefits are therefore not payable where a recognised hospital provides a hospital in-patient with free standard ward treatment by doctors employed by the hospital on a salaried, sessional or contract basis.

34. Medical benefits are not payable for out-patient services provided by a recognised public hospital. Hospital fund benefits may be payable in particular cases. It should be noted however that charges are raised for pathology services provided in respect of privately-insured out-patients in the A.C.T. by laboratories operated by the Capital Territory Health Commission. Medical benefits are payable for these services in accordance with the direction issued by the Minister under Section 19(2) of the Health Insurance Act.

35. Unless the Minister for Health otherwise directs, medical benefit is not payable in respect of a professional service where —

- (a) the service has been rendered by or on behalf of, or under an arrangement with, the Commonwealth, a State or a local governing body or an authority established by a law of the Commonwealth, a law of a State or a law of an internal Territory;
- (b) the medical expenses were incurred by the employer of the person to whom the service was rendered; or
- (c) the person to whom that service was rendered was employed in an industrial

undertaking and that service was rendered to him for purposes connected with the operation of that undertaking.

36. The amending legislation empowers the Minister for Health to make regulations to preclude the payment of medical benefits for professional services rendered in prescribed circumstances. Such regulations, however, may only be made in accordance with a recommendation made by the Medical Benefits Advisory Committee.

Workers' Compensation, Third Party Insurance, Damages, etc.

37. Where the medical expenses for a professional service are wholly covered by way of compensation or damages under a State or Commonwealth or Territorial law, medical benefit is not payable in respect of that service.

38. Where the medical expenses for a service to a person who is not privately insured are only partly covered by such compensation etc. and the compensation in respect of the service is not less than the medical benefits otherwise payable for the service, no medical benefit is payable in respect of that service. However, where the amount of compensation is less than the medical benefit otherwise payable for the service, medical benefit may be paid up to the amount by which the compensation paid is less than the medical benefit.

39. Where a settlement has been made and the Minister or his delegate considers that the settlement has had regard to any medical expenses incurred or likely to be incurred, the Minister or his delegate may determine that the whole or a specified part of the settlement relates to medical expenses.

40. Where a claim is made for medical benefits and it appears to the Minister or his delegate that the service may be subject to a claim for compensation, damages, etc., the Minister or his delegate may direct that a provisional payment of medical benefit may be made in respect of that service. If the claimant subsequently receives compensation payment in respect of the medical expenses, he will be required to refund all or part of the provisional payment made.

41. The matter of provisional payment to contributors to private medical funds of fund benefits in respect of services which may become subject to compensation or damages is a matter for determination by each medical benefits fund having regard to its rules, policies and procedures.

Limiting Rule

42. In no circumstances will the benefit payable for a professional service exceed the fee charged for the service.

43. The new arrangements also provide that the total benefits payable for any service from all sources, including any additional benefit payable by a medical benefit fund under gap or supplementary insurance arrangements, shall not exceed the Schedule fee for that service in the State in which the service was rendered.

Waiting Periods

44. Generally, a waiting period of two months (including obstetric cases) applies for persons who join a registered private medical benefits fund. Such persons are not eligible for fund benefits for medical services rendered during that first two months after joining the fund.

45. Thus, if a person transfers from Medibank to a registered private health benefits organisation, a waiting period not exceeding two months may be applied in accordance with the organisation's approved rules before fund benefits are payable under the basic tables. Standard Medibank benefits are payable by Medibank in these cases.

Diagnostic Services

46. Where a private doctor provides a medical service (including a diagnostic service) to a private patient in a recognised public hospital and bills the patient for the service, medical benefits are payable.

47. However, where the medical expenses for a service are paid or payable to a recognised public hospital, medical benefits are not payable.

Special Arrangements — Transitional Period

48. Some items refer to a service or treatment continuing over a period of time in excess of one day. Where the service or treatment commenced before 1 January 1978 and continued beyond that date the increased benefit will be payable.

49. For example, in the case of Item 200/207 — “Antenatal care, confinement and postnatal care for nine days” if the confinement took place on or after 24 December 1977, medical benefit will be payable at the 1 January 1978 level.

50. The same principle will apply in respect to similar items which refer to a period of time, e.g. “each week of treatment” where the week commenced before 1 January 1978 and extended beyond that date.

Service of Unusual Length or Complexity

(a) Patients covered by Medibank

51. The fee for any item listed in the Schedule is that which is regarded as being reasonable on average for that service having regard to usual and reasonable variations in the time involved in performing the service on different occasions and to reasonable ranges of complexity and technical difficulty encountered. Section 11 of the Health Insurance Act provides that the medical practitioner or the patient may apply to the Commission for higher benefits by the fixation of a higher fee, where a medical practitioner considers that special consideration is warranted because of the unusual length or complexity of the service in the particular case. The term “unusual length or complexity” in this context refers to instances where these factors significantly exceed those usually encountered for the service listed in the Schedule.

52. Any such application for a higher fee under Section 11 of the Health Insurance Act should be made to the Commission using the normal procedures for making claims on Medibank and supported by a statement by the medical practitioner indicating in detail those unusual features which are the basis for the claim for a higher fee. Where a doctor direct bills Medibank, his statement should be attached to the assignment form. Where the doctor bills the patient, he should advise the patient to forward the statement with the claim form and account to the Commission.

53. To reduce delays and to facilitate consideration of such an application, it is essential that medical practitioners give precise details of those unusual features of length of time, complexity and technical difficulty which might warrant approval of a higher fee. The statement should include:

- the time taken;
- the factors causing the undue length of time taken;
- special difficulties or complexities encountered beyond those which would normally be expected in the procedure;
- other significant factors, such as the general condition of the patient, anaesthetic problems and need for resuscitation.

54. Generally, such applications are referred for consideration by the Medical Benefits Advisory Committee which may determine the payment of a higher benefit by approval of a fee higher than the Schedule fee in the particular case. In reporting on such applications, the Committee may state the principles it followed in fixing the amount of any increased fee and benefit for the service which was the subject of the application.

55. Subsequent applications to which the principles determined by the Committee can be applied, may be dealt with by the Commission in accordance with those principles, without further reference to the Committee.

56. Where the Commission notifies a person of the Commission's decision on such an application, that person may, within one month after receipt of notification of the Commission's decision in the matter of an increased fee appeal to the Minister who will forward that appeal to the Medical Benefits Advisory Committee for

consideration and recommendation. The Minister shall, in accordance with the recommendation of the Committee, either allow or dismiss the appeal and direct the Commission to give effect to the recommendation of the Committee. The Minister will also notify the appellant in writing of the decision regarding the appeal.

(b) Privately Insured Persons

57. Where a doctor considers that special consideration of a higher fee is warranted because of the unusual length or complexity of a service rendered to a patient who is insured with a registered private medical benefits organisation, he should give the patient a statement covering the information indicated in paragraph 61. The doctor should advise the patient to attach the statement to his claim form and account when claiming benefits from his medical benefits fund.

58. Funds may refer such claims to the local Commonwealth Director of Health for consideration. In this event, it is envisaged that the matter would be considered by the Medical Benefits Advisory Committee referred to in paragraph 54 above.

Visitors to Australia

59. Medical benefits are generally available only in respect of permanent residents of Australia. To obtain cover for medical expenses, visitors to Australia will need to make special arrangements.

60. The contribution rates and the conditions under which benefits are available are a matter for arrangement between the visitor and the selected insurer.

Medical Expenses Incurred Overseas

61. Medical benefits are generally payable for medical expenses incurred for medical services rendered outside Australia to permanent residents of Australia. In these circumstances a medical service rendered by a person authorised to practise as a medical practitioner under the law of the place where the medical service was rendered will rank for benefit as if that medical service had been rendered in Australia by a medical practitioner.

62. In such cases, the amount of medical benefit payable will be the amount which would be payable if the medical service had been rendered in New South Wales.

63. However, medical benefits will not be payable for medical services rendered in a country which has a reciprocal agreement with the Australian Government covering the provision of medical and hospital care of Australian visitors to that country. No such reciprocal agreements have yet been entered into by the Australian Government.

Penalties

64. The legislation provides penalties for persons who make false statements either orally or in writing, or issue or present false or misleading documents capable of being used in connection with a claim for benefits.

Methods of Billing Patients

65. The manner in which an eligible person receives the medical benefits to which he is entitled will vary according to the billing arrangements followed by the doctor who rendered the medical service. It will also vary according to whether the patient is a contributor to a private registered medical benefits organisation or whether he is eligible to receive medical benefits from Medibank or from Medibank (private insurance).

66. There are two main methods by which payment can be made to the doctor for medical services rendered, namely —

Billing of the patient (paragraphs 67 to 77)

Direct Billing on Medibank, where the patient is eligible for medical benefits from Medibank (paragraphs 78 to 87)

Billing of the Patient

Itemised Accounts

67. Where the doctor bills the patient for medical services rendered, the patient needs a properly itemised account and receipt to enable him to claim medical benefits from Medibank or from the medical benefits fund of which he is a member. Doctors' accounts should therefore show the following details for each service —

- (a) Name of patient;
- (b) Medical Benefits Schedule Item Number;
- (c) Description of service;
- (d) Date of service;
- (e) The fee for each service;
- (f) Where the account contains the name of more than one doctor (e.g. the account is issued by a group practice), the name of the doctor who rendered the service should be clearly identified;
- (g) In the case of pathology services, the name of the doctor requesting those services and the date on which the request was made.

68. Where the account relates to the administration of an anaesthetic or assistance at an operation, the name of the surgeon who performed the operation and the nature or item number of the operation should also be shown on the account.

69. It will facilitate the payment of medical benefits if doctors in their accounts describe the particular services in the words used in the Medical Benefits Schedule as well as by Schedule Item Number.

70. Payment of medical benefits will also be facilitated if doctors include provider code numbers on their accounts and receipts. In this regard Medibank provides rubber stamps to imprint provider code numbers on existing stationery and offers \$10 towards the cost of having provider codes included on printing plates for account and account/receipt stationery. Enquiries regarding these arrangements should be made to the local State Headquarters of Medibank.

71. Where a doctor wishes to apportion his total fee between the appropriate medical fee and any balance outstanding in respect of services rendered previously, he should ensure that the balance is described in such a way (e.g. Balance of account) that it cannot be mistaken as being a separate medical service. In particular no item number should be shown against the balance.

72. Only one original itemised account should be issued in respect of any one medical service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

Claiming of Benefits

73. The patient, upon receipt of a doctor's account, has two courses open to him for paying the account and receiving benefits.

Paid Accounts

74. Firstly, he may pay the account and subsequently present the account, supporting receipt (and referral notice where applicable) and a covering claim form to the registered private medical benefits fund with which he is insured. The fund will assess and pay to the contributor the benefits to which he is entitled.

75. If the patient is not insured for medical benefit purposes with a registered private medical benefits fund, he should present the relevant documents and covering claim form to Medibank which will assess and pay to the contributor the benefits to which he is entitled.

Unpaid Accounts

76. Alternatively, if the patient is not insured with a private registered medical

benefits fund he may present the unpaid account (and referral notice where applicable) to Medibank with a claim form. In such cases, Medibank will provide the claimant with the appropriate benefits in the form of a cheque payable to the doctor. It will be the patient's responsibility to forward the cheque to the doctor and make arrangements for payment of the balance of the account if any.

77. Where a privately insured person claims medical benefits from his fund in respect of an unpaid account, the payment of benefits will be a matter for determination by the fund in the light of its rules, policies and procedures.

Direct Billing on Medibank

78. Where a patient is eligible to claim medical benefits from Medibank, a doctor may arrange with the patient for the assignment by the patient of the benefit for a service, except in relation to pathology services for other than pensioners (see paragraph 159). The doctor may then claim payment of the benefit for the service directly from Medibank. The doctor may also bill the patient for an amount not exceeding the difference between the benefit and the Schedule fee for the service. (It should be noted that direct billing on Medibank may not be made for a person who is insured with a registered private medical benefits organisation).

79. A claim for assignment of benefit comprises one or more Assignment Forms, which describe the services rendered, attached to a Claim for Assigned Medical Benefits Form which identifies the doctor who rendered the services.

80. Assignment Forms are provided by Medibank to doctors who wish to claim direct for services to patients eligible for medical benefits from Medibank. Different types of Assignment Forms are available to meet the needs of particular doctors or particular types of medical practice e.g. pathologists and radiologists who typically provide a larger number of services for each patient.

Completion and Submission of Claims for Assignment of Benefits

81. When a doctor direct bills on Medibank, the Assignment Forms take the place of the conventional accounts and receipts. It is important therefore that the Assignment Forms should show in respect of each service to each patient the information which is required in patients' accounts as mentioned in paragraphs 67 and 68.

82. Detailed instructions regarding the procedures for completion and submission of assignment claims are included with the Assignment stationery provided by Medibank.

83. The Assignment Form should generally be signed by both the patient and the doctor. The doctor's name should also be shown against the statement "I assign to"

84. The claim form must be signed and dated by the doctor who rendered the services described on the Assignment Forms attached to the claim form.

85. Claim forms together with corresponding Assignment Forms should be forwarded to Medibank in the prepaid envelopes at intervals which suit doctors.

Cheques and Statements for Assignments Claims

86. Assignment of benefit claims are paid by cheque sent by post to the doctor. Cheques and statements in respect of assignment of benefit claims are forwarded in the same envelope. A statement is prepared in respect of each assignment claim to enable the doctor to reconcile the payments made with the amounts claimed. The statement identifies the medical services and shows the amount paid in respect of each service. Where necessary, the statement includes an explanation for any adjustment to the amount claimed.

87. When, for some reason, it is not possible to make an immediate payment of benefit for one or more services included in the claim, this will not delay payment of benefits for other services which are claimed. Any benefits payable for services omitted in these circumstances will automatically be included in future payments.

Direct Billing Stationery Supplies

88. Doctors who wish to direct bill will be supplied with the necessary stationery by the Health Insurance Commission. The address of local State Headquarters offices of the Health Insurance Commission who will provide stationery supplies are contained in Section 4 of this Book.

Eligible Pensioner Patients

89. Special arrangements apply in the case of eligible pensioners and their dependants. For this purpose an eligible pensioner is a pensioner who holds a current Pensioner Health Benefits Card and who is **not** a contributor to a medical benefits fund and a hospital benefits fund of a registered organisation. Pensioner Health Benefit Cards are renewed annually.

90. Doctors providing medical services in Australia have been invited to enter into an undertaking that they will ask eligible pensioners and their dependants whether they wish to assign the medical benefits to the doctor, and that, if the eligible pensioner wishes to so assign the benefits, then the doctor will arrange for the making and acceptance of such an assignment in accordance with the arrangements outlined in paragraphs 78 to 80. Where the medical practitioner and pensioner agree to the assignment of benefits, the benefits will be paid direct to the medical practitioner by Medibank and be accepted by him in full payment of the medical expenses incurred by the pensioner.

91. However, direct billing on Medibank may only be made for services to persons who are eligible for medical benefits under Standard Medibank or Medibank private insurance. Direct billing on Medibank may not be made for a pensioner who is insured with a registered private medical benefits organisation.

92. Where a doctor has given an undertaking to offer direct billing for eligible pensioners, that undertaking only legally applies in the case of eligible pensioners who are not privately insured (i.e. contributors to a medical benefits fund and a hospital benefits fund). In these cases, collection of a patient moiety is not permitted.

93. In the case of **any** pensioner patient who holds a Pensioner Health Benefit Card, however, the Government expects that doctors will not charge any amount in excess of the medical benefits payable even where the pensioner is privately insured.

94. An undertaking given by a doctor under the former arrangements in relation to Medibank will continue in force and will be binding on the doctor until such time as he revokes the undertaking, which he may do at any time by notifying the Minister in writing.

95. The undertaking does not apply in the case of unREFERRED specialist or consultant physician services where higher fees and benefits would apply if the pensioner had been referred. The benefits payable in such cases are related to the lower fees applicable. However, if in such a case the consultant physician or specialist is willing to accept the amount of benefit payable in full payment for his services, he may do so by making an assignment arrangement.

96. Eligible pensioners who are covered by Standard Medibank will be accommodated and treated without charge in recognised public hospitals. The treatment will be provided by doctors employed by the hospital or by private doctors who have entered into a contract arrangement with the hospital. The hospital will be responsible for remunerating the doctors.

97. An eligible pensioner who has basic hospital-only insurance in addition to Standard Medibank, on admission to a recognised public hospital will have a choice of treatment without charge as a hospital patient, or of treatment as a private patient by the doctor of his choice. (See paragraph 11).

98. Where a privately insured eligible pensioner is treated in hospital as a private patient, fees rendered by the attending doctors will attract medical benefits and the fee raised by the hospital will be covered by hospital benefits.

99. It should be noted that, even if a doctor has not entered into an undertaking he may nevertheless arrange for eligible pensioner patients who are not privately

insured to complete Assignment Forms for medical services rendered and he may present such Assignment Forms to Medibank and claim payment of medical benefits in accordance with the procedures in paragraphs 78 to 87.

SECTION 1
PART C
COMPILATION AND INFORMATION ON INTERPRETATION OF MEDICAL
BENEFITS SCHEDULE

COMPILATION OF THE MEDICAL BENEFITS SCHEDULE

100. The professional services have been grouped into Parts 1 to 10 according to the general nature of the services. Within some Parts the services have been further grouped into Divisions according to the particular nature of the services concerned. For example, Part 10 covering operations has been divided into thirteen divisions corresponding generally to the usual classifications of surgical procedures. Certain divisions contain sections under sub-headings, e.g., vascular surgery, operations on the prostate, etc., which allow for suitable grouping of specific services. A Table of Contents appears in the front of Section 2 of this Book.

101. The professional services have been expressed in general terms, even though the name of one or more physicians or surgeons may have become linked, by usage, with a particular procedure. For example, "Bassini's operation" is not listed as such in the Schedule but is covered by "repair of inguinal hernia" in Items 4222/4227.

102. An index to Parts 1 to 6, 9 and 10 of the Schedule appears in Section 3A of this Book (white pages) while an index to Parts 7, 7A, 8 and 8A of the Schedule appears in Section 3B (buff pages).

Medical Benefits

103. The amounts of medical benefit have been based on the Schedule fee for each medical service in each State. (The N.S.W. fees apply for services in the Australian Capital Territory and the Northern Territory). The benefit is equal to 85% of the Schedule fee or the Schedule fee less \$5, whichever is the greater. The 85% benefit thus applies to Schedule fees not exceeding \$33, while for services with a Schedule fee of more than \$33, the benefit is the Schedule fee less \$5. The benefit is shown immediately below the fee for the particular service.

104. In some cases two levels of fees and benefits are shown for the same service with each level being allocated separate item numbers in the Medical Benefits Schedule. The first item (identified by the letter "G") applies to the procedure when rendered by either a general practitioner or by a specialist whose patient has not been referred, and the second (identified by the letter "S") applies in the case where the procedure has been rendered by a recognised specialist in the practice of his specialty where the patient has been referred. It should be noted that a referral is not required in the case of anaesthetic services (Part 3) or radiology services (Part 8). (See paragraph 204).

105. Higher rates of benefit are also provided for consultations by a recognised consultant physician where the patient has been referred by another medical practitioner.

106. Conditions of referral for medical benefits purposes are set out in paragraphs 196 to 205.

Items for Common Groupings of Services

107. A number of items have been included in the Schedule to cover services which are frequently associated and performed as a combined service. In such cases the item representing the combination of services is to be itemised, not the items representing the individual services.

108. Where a combined item is used, separate items should not be shown for any of the individual services included in the combined items, except in cases involving bilateral procedures. For example, Item 5370/5374 covers tonsillectomy and unilateral myringotomy; but tonsillectomy and bilateral myringotomy should be itemised under Items 5370/5374 plus 5162 (x½).

109. Combination items are shown in the appropriate Sections of the Schedule, particularly in respect of obstetrics and operations. Some examples are:—

Number	Service
211/213	Confinement with surgical induction of labour
216/217	Confinement, surgical induction with field block
4370/4375	Sigmoidoscopy with haemorrhoidectomy
5370/5374	Tonsillectomy with operation for abscess of middle ear
5415/5424	Adenoidectomy with operation for abscess of middle ear
6379/6384	Colpoplasty with curette
6483	Curette with colposcopy, cervical biopsy and radical diathermy
6501/6506	Curette with removal of polyp from cervix and diathermy of cervix

MEDICAL SERVICES NOT LISTED IN THE SCHEDULE

110. Instances may arise where a particular medical service rendered by a medical practitioner is not listed in the Schedule. Cases of this nature should be referred to the local Commonwealth Director of Health for consideration.

INTERPRETATION OF THE SCHEDULE

Principles of Interpretation

111. Each professional service listed in the Schedule is a complete medical service in itself. However, it may also form part of a more comprehensive service covered by another item, in which case the benefit provided for the latter service covers the former as well. For example, benefit is not payable for a bronchoscopy (Schedule Item 5605) where a foreign body is removed from the bronchus (Schedule Item 5613) since the bronchoscopy is an integral part of the removal operation.

112. Where a service is rendered partly by one medical practitioner and partly by another, only the one amount of benefit is payable. This may be instanced by the case in which a pathology examination is partly completed by one medical practitioner and finalised by another, the only benefit payable being that for the total examination.

113. Where separate services covered by individual items in the Schedule are rendered by different medical practitioners the individual items apply. For example, if antenatal care is provided by one medical practitioner and the confinement and postnatal care are provided by another medical practitioner, the benefits for the first practitioner's services are payable under Item 190 or 192 while benefits for the latter services are payable under Item 194 or 196. However, where a medical practitioner who has provided antenatal care for a patient finds it necessary to call in a specialist during the confinement, benefit is payable under Item 200 as well as under Item 198.

114. Medical benefits are not generally payable in respect of professional services rendered by a medical practitioner to his dependants or his partners or their dependants. However, benefits are not necessarily excluded in all such cases. Each individual case has to be examined having regard to the particular circumstances which apply.

115. There are some services which are not listed in the Schedule because they are regarded as forming part of a normal consultation. Some of these services are identified in the index to this Book, e.g.:—

- Amputation stump, trimming of
- Colostomy, lavage of
- Ear, Syringe of
- Hypodermic intramuscular or intravenous injections
- Proctoscopy
- Resuturing of surgical wounds (excluding repair of burst abdomen)
- Trimming of ileostomy.

Consultation and Procedures Rendered at the One Attendance

116. Where there are rendered, during the course of a single attendance, a consultation (under Part 1 of the Medical Benefits Schedule) and another medical service (under any other Part of the Schedule), benefits are payable subject to certain exceptions, for both the consultation and the other service. Examples of items of service in the Medical Benefits Schedule excluded from this rule are:—

- (i) those items the descriptions of which are qualified by the words
 - (a) "Each Attendance . . .," "At an Attendance" or "Attendance at which," e.g., Items 886, 920, 954, *2804, 2806, 2808, 2810, 2812, 2814, 2816, 2818, 2820, 2822, 2824, 2826, 2828, 2830, 2832, 2834, 2836, 2838, 2840, 2864, 2870, 3006, 3012, 3016, 3022, 3027, 3033, 3330, 3332, 3338, 3342, 3346, 4497, 4629, 5229, 5264, 6313, 6816, 6835, 6904, 7068, 7601, 7605, 7694, 7697, 7701, 7706, 7774, 7777, 7781, 7785 — * see para. 117 in relation to radiotherapy;
 - (b) "Including necessary attendances" e.g., Items 827, 829;
 - (c) "Including associated consultation" e.g., Item 888; and
 - (d) "Where a separate account is not rendered for an attendance" e.g., Items 198, 824;
- (ii) those items in Part 2 of the Schedule which cover or include a component for antenatal or postnatal care, e.g., Items 192, 194, 196, 200, 207, 208, 209, 211, 213, 216, 217, 234, 241;
- (iii) those items in the Schedule which provide separate benefit for special services for the treatment of obstetrical complications, e.g., 242, 246, 273; and
- (iv) all items in Parts 3, 5 and 9 of the Schedule.

117. Where a service excluded from this rule is performed in conjunction with a consultation, benefit is payable for either the consultation or the service but not for both. However, in the case of radiotherapy treatment, benefits are payable for both the radiotherapy and an initial referred consultation as from 1 January 1978.

118. In cases where the level of benefit for an attendance depends upon consultation time (i.e., attendances by general practitioners and consultant physicians in psychiatry), the time spent in carrying out a procedure must not be included in the consultation time.

119. Medical practitioners should ensure that a fee for a consultation is charged only when a consultation actually takes place. It is not expected that a consultation fee will be charged on every occasion a procedure is performed.

PART 1 — PROFESSIONAL ATTENDANCES

120. The physical attendance of the medical practitioner upon the patient is necessary before a "consultation" may be regarded as a professional attendance. Telephone or wireless consultations, letters of advice by medical practitioners, counselling of relatives (Note — Items 890 and 893 are not counselling services) or the issue of repeat prescriptions when the patient is not in attendance do not therefore qualify for benefit. Post mortem examinations or the issue of death or cremation certificates do not qualify for benefit.

121. An IN HOURS consultation or visit is a reference to an attendance between 8 a.m. and 8 p.m. on a week day not being a public holiday, or between 8 a.m. and 1 p.m. on a Saturday.

122. An AFTER HOURS consultation or visit is a reference to an attendance on a public holiday, on a Sunday, before 8 a.m. or after 1 p.m. on a Saturday, or at any time other than between 8 a.m. and 8 p.m. on a week day not being a public holiday.

123. To facilitate the payment of claims, medical practitioners are requested to indicate on the patient's account the time at which the service was rendered whenever an "after hours" general practitioner attendance is itemised.

124. The definitions of "standard," "long" and "prolonged" consultations in the

Health Insurance legislation differ from those which the Australian Medical Association has included in its List. Medical practitioners are requested to ensure that when itemising a "standard", "long" or "prolonged" service on a patient's account the service is identified by reference to the appropriate Medical Benefits Schedule item number.

Acupuncture

125. Benefits for acupuncture are payable on an attendance basis. The attendance includes the accompanying consultation and the performance of the acupuncture. Where the benefit is related to a time-tiered structure, only that time where the practitioner is actively engaged in the procedure is counted. Time occupied by electropulsation of the needles in the absence of the practitioner should not enter into the estimation of the duration of the attendance.

PART 2 – OBSTETRICS

General

126. Where the medical practitioner undertakes the antenatal care, confinement and postnatal care, Items 200/207, 208/209, 211/213 or 216/217 are appropriate. Items 190, 192 or 194/196 apply only where the medical practitioner has not provided all three services.

Antenatal Care

127. The following services where rendered during the antenatal period also attract benefits:—

- (a) Items 242, 246 (when the treatment is given in a hospital or nursing home), 250/258, 267, 273 (but not normally before the 24th week of pregnancy), 278, 284, 290, 295, 298 and 354.
- (b) Medical services covered by Parts 3-10 of the Schedule.
- (c) The initial consultation at which pregnancy is diagnosed.
- (d) The first referred consultation by a specialist obstetrician when called in to advise on the pregnancy.
- (e) Treatment of an intercurrent condition not directly related to the pregnancy.

Confinement

128. Benefits for the confinement for which there is a component in Items 194/196, 200/207, 211/213 and 216/217 also cover a low forceps delivery, episiotomy or repair of first or second degree tear when these services are necessary.

129. Mid-cavity forceps or vacuum extraction, breech delivery or management of multiple deliveries attract benefits under Items 208/209.

130. As a rule, 24 weeks would be the period distinguishing a miscarriage from a premature confinement. However, if a live birth has taken place before 24 weeks and the foetus survives for a reasonable period, benefit would be payable under the appropriate confinement item.

131. Where, during the course of a confinement, a general practitioner hands the patient over to a specialist obstetrician, benefits are payable for the appropriate confinement item in addition to Item 198 (i.e., confinement as an independent procedure by a specialist). If, at the time of the confinement but before the general practitioner has undertaken the actual confinement, the specialist is called in for the full management of the confinement, benefits for the general practitioner's services should be assessed under Items 190 or 192 for the antenatal attendances and on a consultation basis for the postnatal attendances.

Postnatal Care —

Schedule Items 194/196, 200/207, 208/209, 211/213, 216/217, 234/241

132. The Schedule fees and benefits payable for those items in Part 2 (Obstetrics) of the Schedule which include the words, "confinement and postnatal care for nine

days," cover all attendances on the mother and the baby during that period, except in the following circumstances:—

- (i) where the medical services rendered are outside those covered by a consultation, e.g., repair of third degree tear, blood transfusion, etc.;
- (ii) where the condition of the mother and/or baby during the nine day postnatal period is such as to require the services of a consultant (e.g., paediatrician, specialist gynaecologist, etc.); and
- (iii) where it is necessary during the postnatal period to treat a condition not directly related to the pregnancy or the confinement or the neonatal condition of the baby.

Other Services

133. Item 242 relates to the treatment of habitual miscarriage by injection of hormones. A case becomes one of habitual miscarriage following two consecutive spontaneous miscarriages or where progesterone deficiency has been proved by hormonal assay of cells obtained from a smear of the lateral vaginal wall.

PART 3 — ADMINISTRATION OF ANAESTHETICS

134. The Health Insurance Act provides that where an anaesthetic is administered to a patient, the premedication of the patient in preparation for anaesthesia is deemed to form part of the administration of the anaesthetic. The administration of an anaesthetic also includes the pre-operative examination of the patient in preparation for that administration except where such examination entails a separate prior attendance on the patient.

135. Each medical service likely to be performed under anaesthesia has been assigned a number of anaesthetic units which reflect the skill and responsibility exercised by the anaesthetist plus the average time taken for each service without regard to the type of anaesthetic agent employed.

136. The Schedule fees for the administration of an anaesthetic in connection with a procedure (when performed by a specialist anaesthetist or by a medical practitioner other than a specialist anaesthetist) have been derived by applying unit values to the number of anaesthetic units assigned to the procedure. Part 3 of the Schedule lists the derived fees and the benefits. The appropriate anaesthetic units and item numbers are also shown below each procedure likely to be performed under anaesthesia.

137. An anaesthetic (other than a dental anaesthetic listed in Division 3 of Part 3) must be administered in connection with another professional service listed in the Schedule (or a prescribed medical service rendered by an approved dentist or dental practitioner) if it is to attract benefit.

138. Except in special circumstances, benefit is not payable for the administration of an anaesthetic listed in Division 1 or 2 of Part 3 of the Schedule unless the anaesthetic is administered by a medical practitioner other than the medical practitioner who renders the medical service in connection with which the anaesthetic is administered.

139. Fees and benefits established for anaesthetic services cover all essential components in the administration of the anaesthetic. Separate benefit may be attracted, however, for complementary services such as central venous pressure and direct arterial pressure reading, estimations of respiratory function by complicated techniques (but not simple techniques covered by Item 921) or intravenous infusion. It should be noted that extra benefit is not payable for electrocardiographic monitoring, provision for which has been made in the value determined for the anaesthetic units.

140. The amount of benefit specified for the administration of an anaesthetic is the benefit payable for that service irrespective of whether one or more than one medical practitioner administers it. However, benefit is provided under Part 5 for the services of one assistant anaesthetist (who must not be either the surgeon or assistant

surgeon) where the Schedule fee for the administration of the anaesthetic is not less than \$116.00.

141. Before benefit will be paid for the administration of an anaesthetic, or for the services of an assistant anaesthetist, the item number, the nature of the operation and the name of the medical practitioner who performed the operation must be shown on the anaesthetist's account.

142. Where a regional nerve block or field block is administered by a medical practitioner other than the practitioner carrying out the operation, the block is assessed as an anaesthetic item according to the advice in paragraph 135. When a block is carried out in cases not associated with a surgical procedure, such as for intractable pain or during labour, the service falls under Part 4.

143. When a regional nerve block or field block covered by an item in Part 4 of the Schedule is administered by a medical practitioner in the course of a surgical procedure undertaken by him, then such a block will attract benefit under the appropriate item in Part 4.

144. It is to be noted that where a procedure is carried out with local infiltration or digital block as the means of anaesthesia, that anaesthesia is considered to be part of the procedure and an additional benefit is therefore not payable.

145. Before an operation is decided on, a surgeon may refer a patient to a specialist anaesthetist for an opinion as to the patient's fitness to undergo anaesthesia. Such an attendance will attract benefit as follows:—

- (i) If, as a result of the consultation, anaesthesia and surgery are proceeded with in the ordinary way, then Item 85 applies;
- (ii) If, as a result of the consultation, surgery is contra-indicated or is postponed for some days or weeks and if the anaesthetist supervises any necessary treatment during the postponement period, such attendances attract benefit either under Item 88, 94, 100 or 103. In such a case, to qualify for the specialist rate of benefit, the patient must present a Notice of Referral by the referring doctor.

146. It may happen that the professional service for which the anaesthetic is administered does not itself attract a benefit because it is part of the after-care of an operation. This does not, however, affect the benefit payable for the anaesthetic. Benefit is payable for the anaesthetic administered in connection with such a surgical procedure (or combination of surgical procedures) even though no benefit is payable for the surgical procedure.

147. Where a general anaesthetic is administered in connection with a confinement, benefit is attracted for the anaesthetic on the basis of 7 anaesthetic units (Item 408 or 514) provided the anaesthetic is administered by a medical practitioner other than the medical practitioner undertaking the confinement.

148. The administration of epidural anaesthesia during labour is covered by Items 748 or 752 in Part 4 of the Schedule whether administered by the medical practitioner undertaking the confinement or by another medical practitioner.

149. As a general rule, where an anaesthetic is administered in connection with a medical service which attracts benefits on a consultation basis, benefit for the administration of the anaesthetic, provided it is administered by a medical practitioner other than the medical practitioner rendering the professional service, is to be determined on the basis of 4 anaesthetic units (Item 405 or 509).

Multiple Anaesthetic Rule

150. The fee for an anaesthetic administered in connection with two or more operations performed on a patient on the one occasion is calculated by the following rule applied to the anaesthetic items for the individual operations:—

- 100% for the item with the greatest anaesthetic fee
- plus 20% for the item with the next greatest anaesthetic fee
- plus 10% for each other item.

The benefit for the anaesthetic is 85% of the amount so calculated or that amount less \$5, whichever is the greater.

- Note: (a) Fees and benefits so calculated which result in a sum which is not a multiple of 5 cents are to be taken to the next higher multiple of 5 cents.
- (b) Where the anaesthetic items for two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
- (c) The multiple anaesthetic rule also applies to combinations of items in Division 3 of Part 3 (dental anaesthetics) with items in Divisions 1 and 2.

PART 7 — PATHOLOGY SERVICES

151. Pathology items listed in Divisions 1 to 8 of Part 7 apply only where the pathology services are rendered by approved pathology practitioners. The pathology items in Division 9 of Part 7 apply where the services are performed by medical practitioners who are not approved pathology practitioners.

Recognised Specialist Pathologists

152. Recognised specialist pathologists (see paragraph 153) must become approved pathology practitioners for services in Divisions 1-8 performed and billed in their own right to be eligible for medical benefits.

153. A recognised specialist in pathology means a medical practitioner recognised for the purposes of the Health Insurance Act as a specialist in pathology (see paragraphs 190 to 195). The principal specialty of pathology includes a number of sectional specialities. Accordingly, a medical practitioner who is recognised as a specialist in a sectional specialty of pathology is recognised as a specialist pathologist for this purpose.

Approved Pathology Practitioner Scheme

154. For pathology services in Divisions 1 to 8 of the revised Part 7 of the Schedule, medical benefits are not payable unless these services are performed by an approved pathology practitioner. Medical practitioners, or persons employing medical practitioners, seeking to become approved pathology practitioners will be required to:

- (i) Complete an undertaking to comply with a Code of Conduct (see paragraph 158) and the other conditions specified in the undertaking.
- (ii) Pay a fee, currently \$10.

155. Where a medical practitioner, or a person employing a medical practitioner, completes an undertaking and pays the prescribed fee, the Minister may approve the practitioner, or the person employing a medical practitioner, as an approved pathology practitioner. The application fee is not refundable if the undertaking is not approved.

156. Forms of undertaking are available from the office of the Commonwealth Director of Health in each State capital city. Enquiries about the Scheme should be directed to the office of the local Commonwealth Director of Health.

157. The following are eligible to be applicants to give an undertaking:

- (i) A medical practitioner (note that recognised specialists in pathology must become approved pathology practitioners in their own right for their patients to be able to obtain medical benefits).
- (ii) A person employing a medical practitioner to perform pathology services.
- (iii) A State, or an authority established under a State or Territory law, which is so specified by the Commonwealth Minister for Health for this purpose.

158. In summary, the common form of undertaking requires that —
- (a) there is no sharing of fees or benefits between practitioners ordering tests and an approved practitioner rendering pathology services;
 - (b) no approved practitioner provides free services, payments or other considerations as incentives to a practitioner ordering tests;
 - (c) the approved practitioner rendering the service should bill the patient direct; he should not bill the practitioner requesting the service;
 - (d) the approved practitioner does not enter into any arrangement whereby multiple services rules built into the structure of the Schedule are knowingly avoided; or
 - (e) the approved practitioner will not render or request excessive services.

Direct Billing

159. Direct billing arrangements (see also paragraphs 78 to 80) for pathology services will only be available in respect of pathology services provided to eligible pensioners and their dependants and will not be available in respect of other patients. However, the direct billing arrangements are still available for services other than pathology services.

160. "Pay doctor cheques" are not to be sent by the private health funds or Medibank direct to medical practitioners or to patients at a doctor's address (even if requested by the patient to do so). Pay doctor cheques should be forwarded to the contributor's normal address.

Pathology Services must be necessary

161. The Health Insurance Act has been amended so that medical benefits are not payable in respect of a pathology service unless a practitioner has determined that the service is reasonably necessary for the adequate medical care of the patient concerned, whether he performs the service or requests another practitioner to perform the pathology tests.

162. Matters which may be referred to a Medical Services Committee of Inquiry for consideration include questions of initiation of unnecessary pathology services by referring practitioners, and breaching of undertakings by approved pathology practitioners as well as the rendering of excessive services.

Conditions relating to medical benefits

163. For the purposes of calculating medical benefits for an item listed in Part 7 which is requested or determined to be necessary on or after 1 August 1977, the following rules apply:

- (1) Divisions 1-8 are applicable only where the service is performed by an approved pathology practitioner.
- (2) Division 9 is applicable only where the service is performed by a medical practitioner who is not an approved pathology practitioner.
Benefit is payable in respect of a pathology item in Division 9 only where the service is determined as being necessary by the medical practitioner rendering the service, or is rendered in response to a request by a member of a group of practitioners to which that practitioner belongs (providing the member making the request was not himself an approved pathology practitioner).
- (3) The "SP" Schedule fee in Divisions 1-8 applies only where:
 - (a) the service was performed by an approved pathology practitioner, who was a recognised specialist pathologist, or by a recognised specialist pathologist employed by an approved pathology practitioner;
 - (b) the approved pathology practitioner has a request in writing (which conforms to the requirements of the regulations under the Health Insurance Act — see paragraphs 169 to 171) from another medical practitioner or a dental practitioner;

- (c) the person in respect of whom the service was rendered, was not at the time of the request a private in-patient or in receipt of an out-patient service at a recognised hospital; and
 - (d) recognised hospital or Government (including university and Government authority) laboratory facilities and/or staff were not used in the performance of the pathology service.
- (4) The "HP" Schedule fee applies to specified items in Division 1-8 where pathology services are rendered to private in-patients of recognised hospitals where recognised hospital or Government laboratory equipment and/or staff is used. (See paragraph 168 for details of prescribed laboratories).
- (5) The "OP" Schedule fee in Divisions 1-8 applies in other circumstances, namely —
- (a) the service was performed by an approved pathology practitioner who is not a recognised specialist pathologist, and he does not employ a recognised specialist pathologist; or
 - (b) the service was performed by an approved pathology practitioner who is, or employs a recognised specialist in pathology but all the conditions of rule 3 above were not met.
- (6) Benefit is not payable in respect of a pathology item in Divisions 1-8 unless the approved pathology practitioner —
- (a) has a request in writing from a medical or dental practitioner for the services requested and records on his account, receipt or direct billing assignment form the following additional details —
 - (i) the name and address* of the requesting practitioner (the practitioner's surname and initials will be satisfactory unless there is more than one practitioner with the same surname and initials at the same address);
 - (ii) the date on which the request was made; and
 - (iii) where the approved pathology practitioner is not a medical practitioner, but employs a medical practitioner, the surname, initials and provider number of the medical practitioner* rendering the service.
- (* It would assist if provider numbers are shown — provider numbers may be obtained by enquiry to the Office of the Commonwealth Department of Health in the nearest State capital city. The requesting doctor's provider number is acceptable in lieu of address).
- or —
- (b) determined that the service was necessary if he is a medical practitioner, or the need was determined by a medical practitioner who is an employee and records the date the service was determined as being necessary on his account, receipt or direct billing assignment form. In practice this requirement would be met by a notation "Determined necessary 25 August" or words or abbreviations to that effect.
- (7) Benefit is not payable in respect of a pathology item in Division 9 unless the medical practitioner who renders the service includes on his account, receipt or direct billing assignment form in addition to the normal particulars of the patient, the services performed and the fee charged —
- (a) the date on which he determined the service was necessary; or
 - (b) (i) the date on which he was requested to render the service by a partner or another member of a group of practitioners, to which he belongs; and
 - (ii) the surname and initials of that medical practitioner (provided that request is not made by a person who is an approved pathology practitioner).

164. An approved pathology practitioner who has been requested to perform one or more pathology services may deem it necessary in the interest of the patient to carry out additional tests to those requested. This situation may be handled in two ways:

- (a) The approved pathology practitioner may arrange with the referring practitioner to forward an amended or a second request. His account will then be issued in the ordinary way and the additional services will attract full benefits at the "SP" rate where the approved pathology practitioner is a recognised specialist.
- (b) He may determine that the services were necessary. In this case his account or receipt for the requested services will observe the requirements of paragraph 163 (6) (a). His account or receipt for the additional services will indicate that he determined the services were necessary and the date the determination was made (paragraph 163 (6) (b)). These services attract benefit at the "OP" rate.

165. For those items where the fee and benefit are related to the number of services performed in relation to the one patient episode, a patient episode is defined as covering:

- (a) services requested by a medical or dental practitioner on the one calendar day although they may be rendered by another approved pathology practitioner on one day or over a number of days; or
- (b) the need for the items is determined on the one calendar day and rendered by the medical practitioner himself on that day or over a number of days.

166. Exemption may be made to the inbuilt multiple services rule under Section 4B3 of the Health Insurance Act in the case of seriously ill patients whose condition requires a series of pathology investigations at various times throughout the day, provided that these services constitute distinct and separate collections and performances. An exemption may be claimed by the initiating practitioner endorsing the request with the notation "S4B3" and the approved pathology practitioner performing the pathology tests endorsing his account similarly and by indicating the times the services were performed. Approval is not automatic. The practitioner may be asked to verify that the patient was seriously ill, that the serial tests were necessary and that they were requested. Exemptions will not apply to any of tests listed under procedural services (Items 1504-1517).

167. Exemption may also be made to the requirement that tests requested to be performed at intervals over a period of days or weeks should be supported by separate individual request forms each time they are rendered. An example is regular prothrombin time estimations. The initial request should be endorsed with the notation "S16A1" and the period for which the request is intended to apply should be stated. The approved pathology practitioner's account should show the original date of the request and the endorsement "S16A2" against the relevant items.

168. The following laboratories have been prescribed for the purposes of payment of medical benefits as outlined in paragraphs 163 (3) (d) and (4):

- (a) Laboratories operated by the Commonwealth (these include Commonwealth health laboratories operated by the Department of Health as well as the laboratories operated by other Departments e.g. the Departments of Defence and Veterans' Affairs conduct laboratories from which pathology services are provided).
- (b) Laboratories operated by a State Government or authority of a State (Laboratories operated or associated with recognised hospitals are also included).
- (c) Laboratories operated by Capital Territory Health Commission.
- (d) Laboratories operated by the following universities —
 - University of N.S.W.
 - University of Sydney
 - University of New England

Monash University
 University of Melbourne
 University of Queensland
 University of Adelaide
 University of Western Australia
 University of Tasmania
 Australian National University

Requests in writing

169. Approved pathology practitioners must hold a request in writing for all services requested by any other practitioner before billing patients. This includes requests from partners and other members of a group practice. Requests in writing are not required for self-determined tests or for items listed in Division 9 of Part 7. The request in writing must show:

1. In the requesting practitioner's own handwriting —
 - “the individual pathology services, or recognised groups of pathology tests of particular organ or physiological function to be rendered” (see Section 3C for list of acceptable terms and abbreviations);
2. the requesting practitioner's signature;
3. the name and address of the requesting practitioner (the practitioner's surname and initials will be satisfactory unless there is more than one practitioner with the same surname and initials at the same address; it is acceptable that the doctor's provider number be shown in lieu of address — the provider number may be obtained by enquiry to the Office of the Commonwealth Department of Health in the nearest State capital city);
4. the name and address of the patient;
5. the date the pathology services were determined to be necessary;
6. that the patient was a private in-patient or out-patient of a recognised hospital where this is the case at the time of the request; and
7. the name and address of the approved pathology practitioner requested to perform the pathology services.

170. There is no official “request in writing” form, and the doctor's own stationery, or pre-printed forms supplied by approved pathology practitioners are acceptable (provided there are no check lists or “tick-a-box” lists of individual or groups of pathology services on the forms). Oral requests must be confirmed by a request in writing (conforming with paragraph 169 above) before an account is issued. A request in writing is required within a partnership or group practice for services in Divisions 1-8 — see also paragraph 172 below for referrals as between approved pathology practitioners.

171. Approved pathology practitioners must retain requests in writing for a period of 18 months and must produce any requests specified if so required by a notice in writing by the Minister.

172. Where an approved pathology practitioner refers some or all services requested to another approved pathology practitioner the following applies —

- (a) where all the services are referred, he forwards the initial request to the second approved pathology practitioner who bills the patient;
- (b) where some of the services are referred, he should issue his own request in writing, which should show in addition to the particulars listed in paragraph 169 above —
 - (i) name and address of the original requesting practitioner;
 - (ii) date of initial request;
- (c) the patient is billed by each approved pathology practitioner for the services he performs.

PART 8 — RADIOLOGY

173. A "Notice of Referral" is not required in the case of services contained in Part 8 of the Schedule to which higher fees apply when rendered by specialist radiologists.

PART 8A — RADIOTHERAPY

174. The level of benefits for radiotherapy depends not only on the number of fields irradiated but also on the frequency of irradiation. In the items related to additional fields, it is to be noted that treatment by rotational therapy is considered to be equivalent to the irradiation of three fields (i.e., irradiation of one field plus two additional fields). For example, each attendance for orthovoltage rotational therapy, at the rate of 3 or more treatments per week would attract benefit under Item 2818 plus twice Item 2820.

PART 9 — ASSISTANCE AT OPERATIONS

175. For an operation (or combination of operations) for which the Schedule fee does not exceed \$142.00 benefits for assistance have been based on a fee of \$28.00. Where the Schedule fee for the operation (or combination of operations) exceeds \$142.00 an assistance fee of one-fifth of the Schedule fee has been determined for benefit purposes.

176. Benefit in respect of assistance at an operation is not payable unless the assistance is rendered by a medical practitioner other than the anaesthetist or assistant anaesthetist.

177. The amount of benefit specified for assistance at an operation is the amount payable whether the assistance is rendered by one or more than one medical practitioner.

PART 10 — OPERATIONS

Multiple Operation Formula

178. The fees for two or more operations, other than amputations, performed on a patient on the one occasion (except as provided in paragraph 180) are calculated by the following rule:—

100 per cent for the item with the greatest Schedule fee, plus 50 per cent for the item with the next greatest Schedule fee, plus 25 per cent for each other item.

- Note:**
- (a) Fees so calculated which result in a sum which is not a multiple of 5 cents are to be taken to the next higher multiple of 5 cents.
 - (b) Where two or more operations performed on the one occasion have Schedule fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.

179. Where fees have been derived by using this formula, the relevant benefit will be calculated on the basis of 85 per cent of the aggregate fee so determined or an amount which is less by \$5.00 than that fee, whichever is the greater. The rounding rule set out in paragraph 178 (a) above applies.

180. This rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient if the medical practitioner who performed the operation did not perform or assist at the other operation or any of the other operations, or administer the anaesthetic. In such cases the fees and benefits as specified in the Schedule apply.

181. Where two medical practitioners operate independently and either performs more than one operation, the method of assessment outlined in paragraph 178 would apply in respect of the services performed by each medical practitioner. For these purposes the term "operation" includes all items in Part 10 (other than Division 2 of that Part) and Items 234 and 241 in Part 2 covering Caesarean section.

182. If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

After-care

183. As a general rule, the fee specified for each of the operations listed in the Schedule contains a component for the consequential after-care customarily provided, unless otherwise indicated.

184. After-care is deemed to include all post-operative treatment rendered by medical practitioners and need not necessarily be limited to treatment given by the surgeon or to treatment given by any one medical practitioner.

185. The amount and duration of after-care consequent on an operation may vary as between patients for the same operation, as well as between different operations which range from minor procedures performed in the medical practitioner's surgery, to major surgery carried out in hospital. As a guide to interpretation, after-care includes all normal post-operative attendances up to the healing of the wound or normal union of a fracture plus the final check or examination, regardless of whether the attendances are at the hospital, rooms, or the patient's home.

186. Attendances which form part of normal after-care, whether at hospitals, rooms, or at the patient's home, should not be shown on the doctor's account. Only those attendances which do not form part of normal after-care, i.e., those services attracting separate medical benefits, should be itemised. When additional services are itemised, the doctor should show against those services on the account the words "not normal after-care".

187. Subject to the approval of the local Commonwealth Director of Health, benefits may be paid for professional services for the treatment of an intercurrent condition or an unusual complication arising from the operation.

188. Some minor operations are merely stages in the treatment of a particular condition. Attendances subsequent to such operations should not be regarded as after-care but rather as a continuation of the treatment of the original condition and attract benefits. Items to which this policy applies are Items 3371, 3379/3384, 4578/4585, 5162, 6816, 6824, 6940 and 7864.

189. The following table shows the period which has been adopted as reasonable for the after-care of fractures:—

Item No.	Treatment of fracture of	After-care Period
7505	Terminal phalanx of finger or thumb	6 weeks
7508/7512	Proximal phalanx of finger or thumb	6 "
7516	Middle phalanx of finger	6 "
7520/7524	One or more metacarpals not involving base of first carpometacarpal joint.....	6 "
7527/7530	First metacarpal involving carpometacarpal joint (Bennett's fracture)	8 "
7533	Carpus (excluding navicular)	6 "
7535/7538	Navicular or carpal scaphoid.....	3 months
7540/7544	Colles' fracture of wrist.....	3 "
7547	Distal end of radius or ulna, involving wrist.....	8 weeks
7550/7552	Radius.....	8 "
7559/7563	Ulna	8 "
7567/7572	Both shafts of forearm	3 months

RECOGNITION AS A SPECIALIST OR CONSULTANT PHYSICIAN

190. Where a medical practitioner is registered as a specialist or consultant physician under State or Territory law, he is also recognised as such, in the appropriate specialty, for the purposes of the Health Insurance Act.

191. In addition, a medical practitioner who:—

- practises as a specialist or consultant physician in a State or Territory which does not have specialist registration laws; or
- practises as a specialist or consultant physician in a State or Territory which has specialist registration laws but who is not registered under those laws:

may be recognised as a specialist or consultant physician for the purposes of the Health Insurance Act.

192. The Minister for Health may request a Specialist Recognition Advisory Committee to advise him whether a medical practitioner should be recognised as a specialist or consultant physician for the purposes of the Health Insurance Act, having regard to his qualifications, his experience and standing in the medical profession and the nature of his practice.

193. There is provision for appeal to a Specialist Recognition Appeal Committee by medical practitioners who have not been granted recognition as specialists or consultant physicians by the Advisory Committee.

194. Where a medical practitioner has been recognised as a specialist or consultant physician for the purposes of the Health Insurance Act, medical benefits are payable at the appropriate higher rate in respect of certain services rendered by him in the practice of the specialty in which he is so recognised, provided (other than in the case of services by specialist anaesthetists or radiologists — see paragraph 204) the patient has been referred in accordance with paragraphs 196 to 204.

195. All enquiries concerning the recognition of specialists and consultant physicians should be directed to the local Commonwealth Director of Health. (The addresses of State Headquarters and Health Benefits and Services Branches of the Department are contained in Section 4.A).

REFERRAL OF PATIENTS TO SPECIALISTS OR CONSULTANT PHYSICIANS

196. For the purpose of payment of medical benefits at the higher rate, referrals are required to be made as follows:—

- (a) to a recognised consultant physician — by another medical practitioner.
- (b) to a recognised specialist —
 - (i) by another medical practitioner; or
 - (ii) by a registered dental practitioner, where the referral arises out of a dental service; or
 - (iii) by a registered optometrist or a registered optician, where the specialist is an ophthalmologist.

197. Benefits are only payable at the consultant physician rate if the referral is made by a medical practitioner. Where a dentist refers a patient to consult a physician benefits are payable at the specialist referred rate only.

198. The referral system involves the use of special forms known as Notices of Referral.

199. The procedure for use of Notices of Referral when a patient is referred by a doctor to a specialist is as follows:—

- When the doctor refers a patient to a specialist, he will complete one of these Notices and hand it to the patient.
- The patient will produce the Notice when he first consults the specialist.
- The specialist will note on his history card for the patient the serial number shown on the Notice.
- Where the specialist has made arrangements with the patient for the assignment of the benefit for the particular service, the Notice should be retained by the specialist and attached to the appropriate "Claim for Assigned Medical Benefits Form". However, where the specialist prefers to bill the patient, the Notice should be returned to the patient. This would usually be done when the specialist issues his account for the first specialist service. This account should show the name of the referring doctor in the usual manner.
- In cases where the Notice has been returned to the patient it should be produced by him with the account for the first specialist service when a claim is made for medical benefits in respect of that service (see also Part B paragraphs 73 to 77).

200. For medical benefits purposes, a Notice of Referral will be acceptable for subsequent services by a specialist or consultant physician only during the following periods, commencing from the date of the patient's first consultation with the specialist or consultant physician:—

- (a) where the patient was referred for "opinion" or "immediate treatment" — three months, and
- (b) where the patient was referred for "continuing management of present condition" — twelve months.

201. The specialist should quote in his accounts for the initial and subsequent services the name of the referring doctor and the serial number of the original Notice (e.g., "Referred by Dr. J. Jones — Notice of Referral No. E05751-26").

202. The procedure outlined above also applies to the referral of patients by medical practitioners to consultant physicians and to referrals by dental practitioners and optometrists/opticians.

203. Except as described in paragraph 204, a Notice of Referral must have been issued by the referring doctor, dental practitioner or optometrist/optician in respect of all services provided by specialists and consultant physicians in order that patients may be eligible for medical benefits at the higher rate. Unless such a Notice has been issued, the referral requirements will be regarded as not having been satisfied and benefits will be paid at the unREFERRED rate.

204. A Notice of Referral is not required in the case of specialist radiologist or anaesthetist services (including Item 85 — Pre-operative examination of a patient in preparation for the administration of an anaesthetic). The higher rate of benefits in these cases is payable provided the services are rendered by a specialist radiologist or anaesthetist. However, for benefits to be payable at the specialist rate for consultations by specialist anaesthetists (other than for a pre-operative examination) a Notice of Referral is required. (See paragraph 145.)

205. A Notice of Referral is not required in the case of a specialist pathologist service in Part 7 of the Schedule. However, for benefits to be payable at the higher rate for such services, the conditions set out in Part 7 of the Schedule must be satisfied and the patient's account must show the name of the practitioner requesting the service(s) and the date on which the request was made. (See paragraphs 151 et seq.)

PART 3 - ANAESTHETICS

NOTE

(1) Where an anaesthetic is administered to a patient the pre-medication of the patient in preparation for anaesthesia is deemed to form part of the administration of the anaesthetic. The administration of an anaesthetic also includes the pre-operative examination of the patient in preparation for that administration except where such examination entails a separate attendance on the patient.

(2) The amount of benefit specified for the administration of an anaesthetic or for assistance in the administration of an anaesthetic is the amount payable whether that service is rendered by one or more than one medical practitioner.

(3) Fees for anaesthetics administered when two or more operations are performed on a patient, on the one occasion are to be calculated by the following rule applied to the listed anaesthetic items for the individual operations:

100 per cent for the item with the greatest anaesthetic fee;
plus 20 per cent for the item with the next greatest anaesthetic fee;
plus 10 per cent for each other item.

For convenience in assessing anaesthetic services, items 82 and 85 have been repeated in this Part.

PART 7 – PATHOLOGY SERVICES

NOTE (This note should be read in conjunction with paragraphs 151 to 172 of Section 1 of this Book – Notes for General Guidance of Medical Practitioners)

For the purposes of calculating medical benefits for an item listed in Part 7 which is requested or determined to be necessary on or after 1 November 1977, the following rules apply:

- (1) Divisions 1-8 are applicable only where the service is performed by an approved pathology practitioner.
- (2) Division 9 is applicable only where the service is performed by a medical practitioner who is not an approved pathology practitioner.
Benefit is payable in respect of a pathology item in Division 9 only where the service is determined as being necessary by the medical practitioner rendering the service, or is rendered in response to a request by a member of a group of practitioners to which that practitioner belongs (providing the member making the request was not himself an approved pathology practitioner).
- (3) The "SP" Schedule fee in Divisions 1-8 applies only where:
 - (a) the service was performed by an approved pathology practitioner, who was a recognised specialist pathologist, or by a recognised specialist pathologist employed by an approved pathology practitioner;
 - (b) the approved pathology practitioner has a request in writing (which conforms to the requirements of the regulations under the Health Insurance Act – see paragraph 169 to 171) from another medical practitioner or a dental practitioner.
 - (c) the person in respect of whom the service was rendered, was not at the time of the request a private inpatient or in receipt of an outpatient service at a recognised hospital; and
 - (d) recognised hospital or Government (including universities and Government authorities) laboratory facilities and/or staff were not used in the performance of the pathology service.
- (4) The "HP" Schedule fee applies to specified items in Divisions 1-8 where pathology services are rendered to private inpatients of recognised hospitals where recognised hospital or Government laboratory equipment and/or staff is used. (See para. 168 for details of prescribed laboratories).
- (5) The "OP" Schedule fee in Divisions 1-8 applies in other circumstances, namely –
 - (a) the service was performed by an approved pathology practitioner who is not a recognised specialist pathologist, and he does not employ a recognised specialist pathologist; or
 - (b) the service was performed by an approved pathology practitioner who is, or employs a recognised specialist in pathology but all the conditions of rule 3 above were not met.
- (6) Benefit is not payable in respect of a pathology item in Divisions 1-8 unless the approved pathology practitioner –
 - (a) has a request in writing from a medical or dental practitioner for the services requested and records on his account, receipt or direct billing assignment form the following additional details –

- (i) the name and address* of the requesting practitioner (the practitioner's surname and initials will be satisfactory unless there is more than one practitioner with the same surname and initials at the same address);
- (ii) the date on which the request was made; and
- (iii) where the approved pathology practitioner is not a medical practitioner, but employs a medical practitioner, the surname, initials and provider number of the medical practitioner* rendering the service.

(* It would assist if provider numbers are shown — provider numbers may be obtained by enquiry to the Office of the Commonwealth Department of Health in the nearest State capital city. The requesting doctor's provider number is acceptable in lieu of address).

or —

- (b) determined that the service was necessary if he is a medical practitioner, or the need was determined by a medical practitioner who is an employee and records the date the service was determined as being necessary on his account, receipt or direct billing assignment form. In practice this requirement would be met by a notation "Determined necessary 25 August" or words or abbreviations to that effect.
- (7) Benefit is not payable in respect of a pathology item in Division 9 unless the medical practitioner who renders the service includes on his account, receipt or direct billing assignment form in addition to the normal particulars of the patient, the services performed and the fee charged —
- (a) the date on which he determined the service was necessary; or
 - (b)
 - (i) the date on which he was requested to render the service by a partner or another member of a group of practitioners, to which he belongs; and
 - (ii) the surname and initials of that medical practitioner (provided that request is not made by a person who is an approved pathology practitioner).
- (8) For those items where the fee and benefit are related to the number of services performed in relation to the one patient episode, a patient episode is defined as covering:
- (a) services requested by a medical or dental practitioner on the one calendar day although they may be rendered by another approved pathology practitioner on one day or over a number of days; or
 - (b) the need for the items is determined on the one calendar day and rendered by the medical practitioner himself on that day or over a number of days.

It should be noted that, while the above rules apply specifically in relation to items listed in Part 7 of the Schedule, payment of medical benefits in respect of such services is also subject to the general rules governing the circumstances in which medical benefits are not payable as set out in Section 1 of this Book.

DIVISION 2 - CHEMISTRY OF BODY FLUIDS AND TISSUES

NOTE:

(i) The estimation of any substance specified in any item in this Division performed on a multichannel analyser system must be itemised under Items 1301-1312.

(ii) Items 1301-1312 refer to estimations performed by any means, i.e. on a multichannel analyser system or by any other method. If, in the one episode, some tests are performed on a multichannel analyser and some by other methods, the total number of tests undertaken, irrespective of method, is the relevant factor in allotting the appropriate item.

Estimation BY ANY METHOD of - Albumin; Alkaline phosphatase; ALT; AST; Bicarbonate; Bilirubin (direct); Bilirubin (indirect); Calcium; Chloride; Cholesterol; CK; Creatinine; GGTP; Globulin; Glucose; HBD; LD; Phosphate; Potassium; Protein (total); Sodium; Triglycerides; Urate; Urea

Estimation of a substance referred to in any other item in this Division where the estimation is performed on a multichannel analyser

DIVISION 9 — 17 SPECIFIED SIMPLE BASIC PATHOLOGY TESTS								
INTRODUCTION								
<p><i>The following items cover the 17 specified simple basic pathology tests a practitioner may perform in respect of patients of his own practice, including patients of his partners or other members of a group, if the practitioner is not an approved pathology provider. The Schedule fees in most cases correspond to the "O.P." rates in the preceding eight Divisions, except that the items for haemoglobin estimation, determinations of erythrocyte sedimentation rate and microscopical examination of urine concentrate do not require referral by another medical practitioner for the services to be eligible for medical benefits, and the Schedule fees for the items are based on lower relative value units. The items below for the basic blood tests are differently structured in respect of multiple tests to the corresponding items in Division 1</i></p>

retropharyngeal, incision with drainage of	3379/3384
scrotum, drainage of	6216
small, incision with drainage of, not requiring a general anaesthetic	3371
subperiosteal	(see osteomyelitis)
subphrenic, drainage of	3750
urethral, drainage of	6170

Service	Item
Accessory bone, removal of	7853
nipple, removal of	3219-3237
scaphoid, removal of	7853
Achilles tendon or other large tendon	
— operation for lengthening	8262
— plastic repair of	8235/8238
— suture of	8235/8238
— torn, repair of	8235/8238
Acoustic neuroma	5108,5112,7203
Acromial bursitis, manipulation for	7911,7915
Acromion, removal of	8166
Acromionectomy	8166
Acrylic head, fitting of, to femur	8053
prosthesis operation on hip	8053-8069
Acute osteomyelitis operation on sternum, clavicle, rib, ulna, radius, carpus, tibia, fibula, tarsus, mandible or maxilla	4838
Adductor hallucis tendon, transplantation of with osteotomy or osteectomy of phalanx or metatarsal with correction of hallux valgus	8135
Adenoids and/or tonsils, removal of in a person aged less than twelve years with	
— cauterisation or diathermy of any one or more of septum or turbinates or pharynx	5378/5383
— operation for abscess or inflammation of middle ear	5370/5374
Adenoids, removal of	5363-5392,5407/5411
with operation for abscess or inflammation of middle ear	5415/5424
Adenomyoma of uterus, excision of	6561/6563
Adhesions, division of, via laparoscope	6607
labial, separation of	*
peritoneal, separation of, and laparotomy	3958/3962
pharyngeal, division of	5345
preputial, breakdown of	*

bowel	4133
hepatic duct with gallbladder or intestine	3834
ileo-rectal, with total colectomy	4048
nerve	7139
portal, hypertension, vascular	4766
spino-ureteral, spino-peritoneal or spino-pleural of, for hydrocephalus, congenital	8370
Anderson-Hynes operation	5734
Aneurysm, abdominal aortic, excision of and insertion of graft	4791,4794
intracranial, operation for	7265/7274
ligation of great vessels for	4690,7265-7274
major artery, excision of	4798
Angioma, cauterisation or injection of, under general anaesthesia	8458
involving deep tissue, excision and repair of	8470,8472
of skin and subcutaneous tissue or mucous surface, excision and repair of	8462,8466
excision of, and direct repair	8462,8472
Angioplasty, transluminal, including associated radiology	4801
Ankle, dislocation of	7461
fracture of	7657/7662
region, triple arthrodesis of	8116
Anophthalmic orbit, insertion of cartilage or artificial implant	6701
removal of implant from socket	6701
Ano-rectal malformation	
— perineal anoplasty	8406
— rectoplasty	8408
Antenatal care	190,192,200-217
confinement and postnatal care for nine days	
— with mid-cavity forceps or vacuum extraction, breech delivery or management of multiple delivery	208/209
— with surgical induction of labour	211/213
— with surgical induction of labour requiring major regional or field block	216/217
Antepartum haemorrhage	273
Anterior chamber, irrigation of blood from	6871
colporrhaphy	6347/6352

Service	Item
Anterior colporrhaphy	
— and perineorrhaphy	6358/6363
— with posterior colpoperineorrhaphy and amputation of cervix	6367/6373
synechiae, cutting of	6885
Antrobuccal fistula operation	5288
Antrostomy (radical)	5270
with transantral ethmoidectomy	5277
Antrum, drainage of, through tooth socket	5284
intranasal operation on, or removal of foreign body from	5280
maxillary, lavage of	5264
proof puncture and lavage of	5245,5254
removal of foreign body from	5280
Anus, circum-anal suture for prolapse of	4467
dilatation of	4455
(Lord's procedure)	4461
perineal excision of	4216
repair of stricture of	4482
sphincterotomy of	4490
submucosal injection for prolapse of	4473
Aorta, endarterectomy of	4705
Aortic aneurysm, ruptured	4791-4794
Aorto-femoral or aorto-iliac bifurcate graft	4744
Apparatus, distracting, with internal fixation, removal of	8217
without internal fixation, removal of	8214
Appendiceal abscess, drainage of	4087/4093
Appendectomy (Appendectomy)	4074-4093
— (Incidental)	4084
Appendicostomy	3968/3970
Appendix, operations on	4074-4093
ruptured, drainage of	4087/4093
Apron, abdominal, lipectomy for	3308
Arachnoidal cyst, congenital, operation for	8376
Arm, amputation through or disarticulation of	4979
direct arteriovenous anastomosis of	4817
Arterial anastomosis	4762
graft or by-pass	4754
patch graft	4738
Arteriography, selective coronary, preparation for	7011,7013
Arteriovenous anastomosis of upper or lower limb	4817
fistula, cervical carotid ligation for	7274
dissection and ligation of	4702
repair of	4699
excision of, from major blood vessels	4690
malformation, intracranial, operation for	7265,7270
shunt, declotting of	831
external, insertion of	4808
removal of	4812
Artery, abdominal, endarterectomy of	
anastomosis of by micro-surgical techniques for the	4705
reimplantation of limb or digit or free transfer of tissue	4764
internal carotid, repositioning of	4733
intra-thoracic, endarterectomy of	4705
ligation of, by elective operation	4676,4678
major, of neck or extremity, repair of wound of with restoration of continuity	4693

Service	Item
Artery, major, of trunk, repair of wound of, with restoration of continuity	4696
maxillary, transantral ligation of	5268
of extremities, endarterectomy of	4709
neck, endarterectomy of	4709
removal of embolus from	4778
trunk, removal of embolus from	4784
or arteries, coronary, direct surgery to	7066

conduction	863
impedance	877
with either air conduction or air and bone conduction	879
Auditory canal, external, reconstruction of for congenital atresia	8612
removal of foreign body from	5062
meatus, external, removal of exostoses in	5072
internal, exploration of	5122
Augmentation mammoplasty, prosthetic	8530
Aural polyp, removal of	5066
Austin Moore arthroplasty of hip	8053
Avulsion, epiphysis	7844
penis, repair of	6194
phrenic	6978
Axilla, lymph glands of, excision of	3634,3638
Axillary artery, ligation of	4690
hyperidrosis, wedge excision for	3314
vessel, ligation of	4690
involving gradual occlusion by mechanical device	4715

Service	Item
B	
Back, manipulation of, under general anaesthesia	7919/7923
Baker's cyst, excision of	3217
Ballistocardiography	913
Band, encircling silicone, removal of from detached retina	6906
rubber, ligation of haemorrhoids	4521
Bands, lateral pharyngeal, removal of	5431
Bankhart operation (arthroplasty of shoulder joint)	8017
Bartholin's abscess, incision of	6284
cyst, excision of	6274/6277
or gland, marsupialisation or cautery destruction of	6278/6280
Basal cell carcinoma, uncomplicated, removal of	3219-3237
Bassini's operation	4222/4227
Bat ear or similar deformity, correction of	8608
Bennett's fracture	7527/7530
Bicornuate uterus, plastic reconstruction for	6570
Bifurcate graft	4744
Bilateral iliac, osteotomy of	8203
Bile duct, common, operations on	3815-3841
excision and reconstruction of	3841
reconstruction of	3834
Biliary atresia, congenital, dissection of bile duct with reconstruction	3831
exploratory laparotomy	3739/3745
reconstruction of bile duct	3834
system, operations on	3789-3841
Biopsy, adrenal gland	5630
aspiration of bone marrow	3160
of lymph gland, deep tissue or organ	3148
bladder tumour, by cystoscopy	5868
bone marrow, by aspiration	3160
open approach	3157
percutaneous approach	3158
bronchus	5611
(burr-hole) of sternum	3157
cervix	3135/3142
cone, of cervix	6418/6424
and curettage of uterus	6428/6434

larynx	5524
liver, percutaneous	3752
lymph gland, muscle or other deep tissue or organ	3135/3142
needle, of prostate	6030
oesophagus	5480
ovarian by laparoscopy	6607
prostate, endoscopic, with or without cystoscopy	6027
perineal	6022
punch, of synovial membrane or pleura	3163
puncture, sternum	3157
rectum, full thickness	4380
renal	5726
scalene node	3168
skin or mucous membrane	3130
sternum, puncture	3157
suction	3130

Service	Item
Biopsy, testis	6218
via laparoscope	6607
with cervical exploration of mediastinum	6992
direct examination of larynx	5524
gastroscopy or duodenoscopy	3855
intubation of small bowel	4099
Birth mark, congenital, removal of, other than by radiotherapy	8458-8472
Bladder, aspiration of, by needle	5964
catheterisation of — where no other procedure is performed	5840
(closed), operations on	5840-5888
cystostomy or cystotomy	5897/5901
diverticulum of, excision or obliteration of	5929
ectopic — 'turning-in' operation	8414
enlargement of, using intestine	5981
evacuation of clot from, by cystoscopy	5845
excision of	5891/5894,5905
neck closure, including repair of epispadias	6135
contracted, congenital, wedge excision or perurethral resection of	8410
contracture, operation for	5916
resection, endoscopic, with cystoscopy	5881
(open), operations on	5891-5935
prolapse of (gynaecological), repair of	6347-6373
repair of rupture of	5891/5894
with complete or partial uterectomy	5747
suprapubic stab cystotomy	5903
tumour of, biopsy of, with cystoscopy	5868
diathermy or resection of, with cystoscopy	5871,5875
suprapubic diathermy of	5919
washout test of	839
Blepharoplasty	8588,8590
Block, field or major regional, required with surgical induction of labor and antenatal care confinement and postnatal care for nine days	216/217
regional nerve or field, initial	748
subsequent	752
Blocking, nerve, with alcohol or other agent following localisation by electrical stimulator	7072
Blood collection of, for pathology test	907,956
transfusion	949
compatibility testing	980,982
dye — dilution indicator test	952
pressure recording by intravascular cannula	770
transfusion	902,904,940-947
intrauterine foetal, including necessary amniocentesis	947
vessels in nose, cautery to during episode of epistaxis	5230
Bone, accessory, removal of	7853
carpal, replacement of by silicone or other implant including any necessary tendon transfers	8003
graft to femur	7975
humerus	7983
radius and ulna	7985
radius or ulna	7993
scaphoid	7999
spine	7934-7969

Service	Item
Bone, graft to spine	
postero-lateral fusion	7945
with laminectomy and posterior interbody fusion	7967-7969
tibia	7977
(not covered by any other item)	8001
with calcaneal osteotomy	8330
lunate, excision of	8190
marrow, aspiration biopsy of	3160
nasal, fracture of	7701-7715
operation on, for chronic osteomyelitis	4856
sesamoid, removal of	7853
tumour, innocent, excision of	3425
Bowel, anastomosis of	4039/4043
mobilisation of	3739/3745
resection of	4039/4043
ruptured, repair or removal of	4149/ 4158,4165
small, intubation	4104
with biopsy	4099
or large, interposition of with oesophagectomy	6988
Brachial endarterectomy	4709
plexus block, initial	748
subsequent	752
exploration of	7175
Brain, abscess of, excision of	7283
Branchial cyst, removal of	3526
fistula, removal of	3530
Breast, amputation of	3647-3702
cyst aspiration of	3366
excision of cyst, fibro adenoma, local lesion or segmental resection	3654/3664
— where frozen section is performed	3668/3673
mammoplasty of	8528-8532
operations on	3647-3702
partial mastectomy involving more than one quarter of breast tissue	3678/3683
prosthesis, removal of	pay under 3120/3124
section of, for biopsy	3135/3142
tumour, removal of	3219/3228
Breathing apparatus, mechanical efficiency of, estimation of	920
oxygen cost of, estimation of	920
Breech delivery, with antenatal care, confinement and postnatal care for nine days	208/209
Broad ligament cyst, excision of	6643/6644, 6648/6649
removal of fatty tumour of	3739/3745
Brodie's abscess, operation for	4864
Bronchial tree, intrathoracic operation on	6999
Bronchoscopy, as an independent procedure	5605
with biopsy or other diagnostic or therapeutic procedure	5611
dilatation of tracheal stricture	5619,5624
Bronchspirometry	918
Bronchus, operations on	5605,5613
removal of foreign body in	5613
Bubonocele operation	4222/4227
Buckling operation for detached retina	6902
Bunion, excision of	3194/3199

Service	Item
Burns, dressing of (not involving grafting)	3006-3039
excision of under G.A. (not involving grafting)	
— more than 10% of body surface	3039
— not more than 10% of body surface	3038
extensive free graft to	8510
free graft to	8509-8511
Burr-hole biopsy of sternum	3157
craniotomy	7186,7192,7208/7212,7287
for intracranial haemorrhage	7208/7212
Bursa, incision of	3189
large, excision of	3208/3213
including olecranon, calcaneum or patella, excision of	3208/3213
semimembranosus, excision of	3217
small, excision of	3194/3199
Bursitis, acromial, manipulation	7911/7915
Burst abdomen, repair of with extrusion of abdominal viscera	4258/4262
By-pass, arterial or venous	4754
crossed, of saphenous vein	4665

Service	Item
C	
Cable shunt, ventricular, for hydrocephalus, congenital	8370
Cadaver, donor nephrectomy	5647
Caecostomy	3996/4000
extra-peritoneal closure of	3976/3981
Caesarean section	234/241
Calcaneal osteotomy	8328
with bone graft	8330
Calcanean bursa, excision of	3208/3213
spur, removal of	8120
Calcaneus, fracture of	7666/7668
valgus, manipulation and plaster under general anaesthesia	8340
under general anaesthesia	8338
Calcium, deposit, removal of, from cuff of shoulder	8009
Calculus, removal of, from bladder	5888
kidney	5691
parotid or salivary gland duct	3468/3472
Skene's duct	6286
sublingual gland duct	3468/3472
with cystotomy	5968
staghorn, nephro or pyelolithotomy for	5699
ureteric, endoscopic removal or manipulation of, with cystoscopy	5885
Caldwell-Luc operation	5270
Caloric test of labyrinth or labyrinths	882
Calve's epiphysitis, plaster for	8446
Canal, external auditory, reconstruction of, for congenital atresia	8612
Canaliculus system lacrimal, reconstruction of	6792
immediate repair of	6796
Cannula, intralymphatic insertion of, for introduction of radio-active material	938
intravascular, blood pressure recording by	770
Cannulisation of thoracic duct	6976
Canthoplasty	6768
Capacity, diffusing, estimation of	920
Capsular ligaments of knee, reconstruction of	8092
Capsule, joint, repair of	8113
Capsulectomy	6861
Capsulotomy	6865
Carbolisation of eye	*
Carbon dioxide output, estimation of	920
Carbuncle, incision with drainage of, requiring a general anaesthetic	3379/3384
Carcinoma	(see tumour)
Cardiac by-pass, whole body perfusion	923
catheterisation	7001-7013
operation	6999
pacemaker, insertion or replacement of	7021, 7023, 7033
rhythm, restoration of, by electrical stimulation	917
Cardiopulmonary by-pass, for direct surgery to coronary artery or arteries	7066
Cardiospasm, Heller's operation for	6999
Carinatum, pectus, limited correction of	6970
radical correction of	6972

*Payable on attendance basis

Service	Item
Carotid artery, endarterectomy of	4705,4709
internal, repositioning of	4733
ligation of, for aneurysm or arteriovenous fistula	7274
involving gradual occlusion by mechanical device	4715
body or carotid body tumour, removal of without anastomosis	4804
with anastomosis	4762
Carpal bone, dislocation of	7426
fracture of, excluding navicular	7533
replacement of, by silicone or other implant including any necessary tendon transfers	8003
scaphoid, fracture of	7535/7538
tunnel syndrome, radical operation for	7178/7182
Carpometacarpal joint, synovectomy of	8290
Carpus on radius and ulna, dislocation of	7430/7432
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteectomy or osteotomy of	8190
of with internal fixation	8193
Cartilage, arytenoid, fixation of	5566
removal of	5568
knee, displaced, reduction of	7911/7915
removal of	8087
tarsal, excision of	6758
Caruncle, urethral, cauterisation of	6290
excision of	6292/6296
Cataract, juvenile, removal of, including subsequent needlings	6859
Catheter, peritoneal insertion and fixation of	833

— suboccipital removal of	7203
— transmastoid, translabyrinthine removal of	5108,5112
Cerebral ventricle, puncture of	7099
Cervical biopsy, colposcopy and radical diathermy, with curettage of uterus	6483
with curettage of uterus	6483
exploration of mediastinum with or without biopsy	6992
Cervical oesophagectomy	3616
oesophagostomy	3597
closure or plastic repair of	3603
plexus block, initial (not including the uterine cervix)	748
subsequent (not including the uterine cervix)	752
rib, removal of	8158
spine, anterior interbody spinal fusion to dislocation of, without fracture	7947,7951 7472
sympathectomy	7376
Cervicectomy, abdominal	3739/3745
Cervix, amputation or repair of	6436/6441
biopsy of	3135/3142
cauterisation of	6411
cone biopsy of	6418/6424
and curettage of uterus	6428/6434
diathermy of	6411
dilatation of	6446
examination of, with Hinselmann colposcope or similar instrument	6415
ionisation of	6411
purse string ligation of for threatened miscarriage	250/258
removal of polyp from	6411
— and cauterisation, ionisation or diathermy of; and curettage of uterus	6501/6506
— purse string ligature of under general anaesthesia	267
repair of	6367/6373,6436/6441
uterine, examination of, with a magnifying colposcope of the Hinselmann type or similar instrument	6415
Chalazion, extirpation of	6754
Charnley arthroplasty of hip	8069
Chemopallidectomy, including burr-hole or other stereotactic procedure	7312 7312
Chemotherapy for keratoses, warts or similar lesions	3330-3346
Chest, funnel, elevation of	6970,6972
pigeon, correction of	6970,6972
wall, closure of after drainage for empyema	3247/3253
Choanal atresia, repair of	8380,8382
Cholangiography pre-operative	3789
Cholecystectomy	3793/3798
with choledochotomy	3820
Cholecystoenterostomy	3831

Service	Item
Cholecystoduodenostomy	3831
Cholecystogastrostomy	3831
Cholecystostomy	3802/3809
Choledochoduodenostomy	3834
Choledochoenterostomy	3834
Choledochogastrostomy	3834
Choledochotomy after previous cholecystectomy	3815
with or without cholecystectomy	3820
Cholera, inoculation against	*
Chondroma, removal of	3219-3253
Chondro-mucosal graft	pay under 8606 + 5217 x ½
Chordee, correction of — hypospadias	6105,6107
Chronic osteomyelitis, operation on scapula, sternum, clavicle, rib, ulna, radius, metacarpus, carpus, phalanx, tibia, fibula, metatarsus, tarsus, mandible or maxilla	4860
Cicatricial flexion contracture of joint, correction of	8294
Ciliary body and/or iris, excision of tumour	6894
Cineplasty for amputation stump	8526
Cingulotomy	7298
Cingulotractotomy	7298
Circum-anal suture for anal prolapse	4467
Circumcision	4319-4345
Cisternal puncture	7089
Clavicle, dislocation of	7410
fracture of	7588/7593
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteectomy of, with internal fixation	8193
or osteotomy of	8190
Cleft lip, Abbe transplant or flap, secondary correction	8632
complete primary repair	8622,8624
revision, secondary correction	8630
incomplete primary repair	8626
partial or incomplete, secondary correction	8628
secondary correction of nostril or nasal tip	8634
palate, complex cleft, partial repair	8652
complete cleft, primary repair	8640
incomplete, secondary repair	8644
lengthening procedure, secondary repair	8648
partial cleft, primary repair	8636
Cleidotomy of foetus	360
Clitoris, amputation of	6299
Closure, extra peritoneal, of colostomy, enterostomy, ileostomy or caecostomy	3976/3981
intra-peritoneal of colostomy or enterostomy	3986
of bladder neck including repair of epispadias	6135
cervical oesophagostomy	3603
cutaneous ureterostomy	5837
urethral fistula	6044
Clot, evacuation of, from bladder by cystoscopy	5845
surgical removal from large vein	4789
small or medium vein	4676
Coccyx, excision of	4606
Cochlear tests	874
Cockett's operation	4662

lip, full thickness wedge	8614
total, of prostate	6017
transtympanic of glomus tumour	5152
vaginal septum for correction of double vagina	6332
wedge, for axillary hyperidrosis	3314
Exenteration of orbit of eye	6713-6718
Exercise tests in association with electrocardiography	914,916
Exomphalos, congenital, operation for	8400
by plastic flap	8402
Exostoses in external auditory meatus, removal of	5072
Exostosis, excision of, large bone	8179/8182

Service	Item
Exostosis, excision of, small bone	8169/8173
Exploration, cervical, of mediastinum with or without biopsy	6992
of kidney with any procedure	5683
middle ear	5166
orbit	6707,6709,6722,6724
testis	6228
Exploratory laparotomy	3713/3718
thoracotomy	6958
Extensor tendon of hand, primary suture of	8227/8230
secondary suture of	8233
tenolysis of	8279
synovectomy of	8292
External arteriovenous shunt, insertion of	4808
removal of	4812
auditory canal, reconstruction of, for congenital atresia	8612
meatus, removal of exostoses in	5072
haemorrhoids or anal tags, removal of	4534
urethral meatotomy	6066
Extirpation of tarsal cyst	6754
Extra digit, amputation of	8430
ligation of pedicle	8428
Extremities, artery of, endarterectomy of	4709
Extremity, or neck, major artery of, repair of wound of, with restoration of continuity	4693
Eye, artificial lens, insertion of	6852
removal of	6857
ball, repair of perforating wound of	6728, 6730, 6736
carbolicisation of	*
dermoid, excision of	8432/ 8434, 8436
enucleation of with or without sphere implant	6688
insertion of integrated implant	6692
extraction of lens	6848
foreign body in, removal of	6740, 6742, 6744, 6747, 6816, 6818
globe of, evisceration of	6697
paracentesis, in relation to	6869
socket, partial reconstruction of	8584
trephining of	6873
Eyelashes, electrolysis epilation of	8456
ingrowing, operation for	8588, 8590
Eyelid, correction of ectropion or entropion	8588
ptosis (unilateral)	8586
grafting for symblepharon	8592
partial reconstruction of, or of socket	8584
plastic operations on	8582
reduction of	8589, 8591
removal of cyst from	6754
repair of, whole thickness	8582, 8618, 8620
tarsorrhaphy	6766

*Payable on attendance basis

F	
Facetectomy, lumbar	8028
Facial nerve, decompression of	5102,5104
palsy, excision of tissue for	pay under 3247/3253
paralysis, plastic operation for	8546,8548
or neck scar, revision under general anaesthesia	8522,8524
Faecal fistula, repair of	4590
Faeces, disimpaction of, under anaesthesia	4602
Fallopian tubes, hydrotubation of	6636,6641
implantation of, into uterus	6631
sterilisation, diathermy by laparoscopy	6611/6612
transection or resection by laparoscopy,	
laparotomy or vaginal route	6611/6612
Family group, psychotherapy	887,888,889
Farnsworth Munsell 100 hue colour discrimination test	*
Fascia, deep, repair of, for herniated muscle	3411/3417
derma-fat, graft, including transplant or muscle flap	8450
mammoplasty	8532
Fasciotomy, plantar (radical)	8320
subcutaneous, Dupuytren's contracture	8296
Fatty tissue, subcutaneous, removal of excess	3219-3253
Feet, incision of pulp space, paronychia or other acute infection of	7864
Femoral endarterectomy	4709
hernia, repair of	4222/4227
vein, removal of thrombus from	4789
vessel, ligation of	4690
involving gradual occlusion by mechanical device	4715
Femur, bone graft to	7975
epiphyseodesis	8310
fitting of acrylic head to	8053
fracture of	7624/7627
fragmentation and rodding in fragilitas ossium	8306
operation on, for acute osteomyelitis	4844
chronic osteomyelitis	4864
osteotomy of, with internal fixation	8201
or osteotomy of	8191
sub-trochanteric, osteotomy of	8206
Fenestration cavity, venous graft to	5131
operation	5127
Fibreoptic colonoscopy (short)	4383
with biopsy	4385
(long)	4388
with biopsy	4389
with removal of one or more polyps	4394
Fibreoscopy, colonic	4383-4394
Fibrinous bands in vitreous body, division of	6885
Fibro-adenoma, excision of from breast	3654-3673
Fibroma, removal of	3219-3253
Fibula, epiphyseodesis	8312
fracture of	7632/7637
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteotomy of, with internal fixation	8193
or osteotomy of	8190

*Payable on attendance basis

Service	Item
Field block, initial	748
required with surgical induction of labour; and antenatal care, confinement and postnatal care for nine days	216/217
subsequent	752
Fifth cranial nerve, avulsion of branch of	7170
Filleting of toe	8185
Filtering and allied operations for glaucoma	6873
Fimbrial cyst, excision of	6643/6644, 6648/6649
Finger, amputation or disarticulation of	4927-4969
of, including metacarpal or part of metacarpal	4965/4969
dislocation of	7435
fracture of	7505-7516
joint, orthopaedic operation on	8022
nail, removal of	7861
plastic reduction for macrodactyly in	8544
repair of divided digital nerve to	7116/7117
tendon sheath of, synovectomy of	8282
terminal phalanx of, operation for acute osteomyelitis	4828
trigger, correction of	8271
Fissure in ano, excision of	4537/4544
Fistula antrobuccal, operation for	5288
arteriovenous, cervical carotid ligation for	7274
dissection and repair of	4699
and ligation of	4702
excision of, from major blood vessels	4690
between genital and urinary or alimentary tracts, repair of	6401
branchial, removal of	3530
cutaneous, salivary gland, repair of	3477
Eck's, operation for	4766
faecal, repair of	4590
in ano, excision of (involving incision of external sphincter)	4568/4573
subcutaneous, excision of	4552/4557
oro-antral, plastic closure of	5288
parotid gland, repair of	3477
sacrococcygeal, excision of	4611/4617
thyroglossal, removal of	3591
tracheo-oesophageal, ligation and division of	8390
urachal, congenital, correction of	8412
urethral, closure of	6044
urethro-rectal	6083
urethro-vaginal	6079
vaginal, excision of	6401
vesical, cutaneous, operation for	5935
vesico-colic	5947
vesico-rectal	5956
vesico-vaginal	5941
Fixation, of testis	6228
mandible for prognathism or retrognathism	8564
uterus	6585/6594
Flap, Abbe, secondary correction for cleft lip	8632
direct, small plastic repair	8490, 8492
indirect, or tubed pedicle,	
— delay, intermediate transfer or detachment of	8496
— formation of	8494
— preparation of site and attachment to site	8498
— spreading of pedicle	8500

Service	Item
Flap, neurovascular island, repair of	8542
osteoplastic and excision of subdural haemorrhage, congenital	8360
pharyngeal	8656
plastic repair, direct, indirect or local, revision of graft	8502
local, single stage	8480,8484
repair, direct, cross arm, abdominal or similar	8485,8486
finger or similar	8490,8492
leg	8487,8488
Flexion, contracture, cicatricial, correction of	8294
Flexor tendon of hand, primary suture of	8219/8222
secondary suture of	8225
synovectomy of	8292
tenolysis of, repair or graft	8275
Floor or roof of orbital cavity, reconstruction of	8552
Fluid, balance, supervision of	*
intravenous or subcutaneous infusion of	927,929
Foetal intrauterine blood transfusion, including amniocentesis	947
Foetus, cleidotomy, craniotomy, decapitation, evisceration	360
intrauterine blood transfusion to	947
retained, manual removal of	362
Foot, amputation or disarticulation,	
— at ankle	5034
— mid tarsal or transmetatarsal	5038
incision of pulp space, paronychia or other acute infection of	7864
tendon of, primary suture of	8241
secondary suture of	8243
triple arthrodesis of	8116
Forceps delivery, administration of anaesthetic in connection with	481,552
Forearm, amputation or disarticulation of	4979
fracture of both shafts	7567/7572
Foreign body, antrum, removal of	5280
bladder, cystoscopic removal of	5864
bronchus, removal of	5613
ear, removal of	5059,5062
intra-ocular, removal of	6740-6747
joint, removal of	(see arthrotomy)
maxillary sinus, removal of	5280
muscle or other deep tissue, removal of	3120/3124
nose, removal of other than by simple probing	5201
oesophagus, removal of	5486
pharynx, removal of	3116
plates, etc., used in treating fractures, removal of	3120/3124
removal of, by urethroscopy	6056
from cornea or sclera, involving deeper layers	6818
subcutaneous, removal of, not otherwise covered	3116
superficial, removal of from cornea or sclera	6816
not otherwise covered	3113
tendon, removal of	3120/3124
trachea, removal of	5601
urethra, removal of	6056
implants for contour reconstruction	8478
Fothergill operation	6367/6373
Fracture, Colles' of wrist	7540/7544
complicated, requiring open operation	7821,7823
compound, requiring open operation	7815,7817

*Payable on attendance basis

Service	Item
Fracture of skull, depressed or comminuted, operation for	7220/7231
or fractures of skull, compound or complicated, operation for	7236-7248
reduction of	7505-7839
simple, not requiring open operation	7505-7798
— involving joint surfaces	7847
requiring open operation	7802,7803,7808,7809
uncomplicated, not requiring open operation	7505-7798
requiring open operation	7802,7803,7808,7809
Fractured larynx, operation for	5545
Fractures, reduction in excess of one reduction	7828-7839
Free grafts, full thickness	8518
split skin, on granulating areas, extensive	8508
including elective dissection	8512,8516
or pinch grafts, on granulating areas, small	8504
to burns	8509-8511
transfer of tissue, anastomosis of artery or vein for, by	
micro-surgical techniques	4764
Freezing, intragastric	968,970
Frenulum, maxillary or tongue tie, repair of in a person not less	
than 2 years of age	3505
Frenum of lip, excision of	3219/3228,3233/3237
Frontal sinus, catheterisation of	5305
intranasal operation on	5301
operations on	5295-5318
radical obliteration of	5318
trephine of	5308
Fronto-ethmoidectomy, radical	5298
Fronto-nasal ethmoidectomy	5295
Frozen section, and biopsy of breast	3647/3652,3668-3702
with excision of cyst, fibro adenoma or other local	
lesion from breast	3668/3673
with segmental resection of breast	3668/3673
Full thickness grafts, free	8518
wedge excision of lip with repair by direct sutures	8614
Fundi, optic, examination after I.V. injection	856
Funnel chest, elevation of	6970,6972
Furuncle, incision with drainage of	3371, 3379/3384
Fused kidney, symphysiotomy for	5679
Fusion, posterior interbody and laminectomy with bone graft to spine	7967,7969
spinal, application of halo for, in the treatment of scoliosis,	
as an independent procedure	7940

Service	Item
G	
Gallbladder, drainage of	3802/3809
excision of	3793/3798
and reconstruction of	3841
other operations on	3820-3831
Ganglion, block, lumbar	7075
excision of	3194/3199
trigeminal, injection of, with alcohol or similar substance	7079
Ganglionectomy and splanchnicectomy	7376
stellate	7376
Gastrectomy, partial, and gastro-jejunostomy	3922
total	3930
radical	3938
Gastric cooling (by lavage with ice-cold water)	*
hypothermia	968,970
lavage in the treatment of ingested poison	974
ulcer, perforated, suture of	3910/3916
Gastro-camera investigation	3846
-duodenostomy	3894/3898
reconstruction of	3900
-enterostomy	3894/3898
reconstruction of	3900
with vagotomy	3889
-jejunostomy and partial gastrectomy	3922
Gastropexy for hiatus hernia	3739/3745
Gastroschisis or exomphalos, operation for	8400
by plastic flap	8402
Gastroscopy	3846
with biopsy	3855
Gastrostomy	3864
for fixation of indwelling oesophageal tube	3870
Genital prolapse, operations for	6347-6373
Genu valgum, manipulation and plaster	
— under general anaesthesia	8348
— with osteoclasis	8350
manipulation under general anaesthesia	8346
Genu varum, manipulation and plaster	
— under general anaesthesia	8348
— with osteoclasis	8350
manipulation under general anaesthesia	8346
Gestation, ectopic, removal of	6553/6557
Gilliam's operation	6585/6594
Girdlestone arthroplasty of hip	8053
Gland, adrenal, biopsy of	5630
removal of	5636
Bartholin's, marsupialisation or cautery destruction of	6278/6280
groin, dissection of	3261/3265
lacrimal, excision of palpebral lobe	6772
lymph, aspiration biopsy of	3148
biopsy of	3135/3142
parathyroid, removal of	3555
parotid, superficial lobectomy or removal of tumour from, with	
exposure of facial nerve	3450
total extirpation of	3437,3444

*Payable on attendance basis

Service	Item
Gland, pelvic, dissection of, with hysterectomy	6536
lymph, excision of (radical)	6308
salivary, duct, dilatation or diathermy of	3465
removal of calculus from	3468/3472
operations on	3437-3477
repair of cutaneous fistula of	3477
sublingual, extirpation of	3459
submandibular, extirpation of	3455
submaxillary, extirpation of	3455
Glands, retroperitoneal, excision of, with orchidectomy	6230
Glaucoma, filtering and allied operations for	6873
iridectomy for	6885
and sclerectomy for	6873
Lagrange's operation for	6873
provocative test for, including water drinking	849
tonography for	844
Globe of eye, evisceration of	6697
and insertion of intrascleral ball or cartilage	6699
Glomus tumour, transmastoid removal of, including mastoidectomy	5158
transtympanic, removal of	5152
Glucose, intravenous infusion of	
— open exposure	929
— percutaneous	927
Goniotomy	6879
Gradual occlusion of vessel by mechanical device for ligation of	
great vessel	4715
Grafenberg's (or Graf) ring, introduction or removal of	6262
Graft, aorta-femoral or aorta-iliac bifurcate	4744
arterial or venous	4738-4754
axillary/subclavian to femoral by-pass	4749
bone, to femur	7975
humerus	7983
radius or ulna	7993
radius and ulna	7985
scaphoid	7999
spine	7934-7969
tibia	7977
other bones	8001
postero-lateral, fusion	7945
with calcaneal osteotomy	8330
laminectomy and posterior interbody fusion	7967,7969
chondro-mucosal	pay under 8606 + 5217 x ½
composite, to nose or ear	8606
conjunctival over cornea	6810
corneal	6828,6832
derma-fat fascia, including transplant or muscle flap	8450
free, split skin, on granulating areas, extensive	8508
free to burns	8509-8511
inlay, insertion and removal of mould	8516
nerve or anastomosis	7139
plastic and reconstructive	(Div 13, Part 10)
revision of, direct, indirect or local flap repair	8502
skin, to orbit	6703
tendon	8257
venous, to fenestration cavity	5131
Grafting and major excision for lymph-oedema	8476

Service	Item
Grafting for symblepharon	8592
tendon, artificial prosthesis for	8259
Grafts, free full thickness	8518
split skin, including elective dissection	8512,8516
or pinch grafts on granulating areas, small	8504
supportive, plastic operations on face	8546-8550
Granulations, pyogenic, cauterisation of	3330-3346
Granuloma, removal of, from eye, surgical excision	6842
cautery of	6835
Gravid uterus, evacuation of the contents of, by curettage or suction	
curettage	6469
Great vessel, intrathoracic operation on	6999
ligation of	4690
involving gradual occlusion of vessel by	
mechanical device	4715
Greater trochanter, transplantation of iliopsoas tendon to	8254
Groin, lymph glands of, excision of	3634,3638
Group psychotherapy	887
— family	887,888,889
Growth, premalignant, in mouth, removal of	3219-3265
Gunderson flap operation	6810
Gynaecological examination under anaesthesia	6258
Gynatresia, vaginal reconstruction for	6327

Service	Item
H	
Habitual miscarriage, treatment of	242
Haemangioma, congenital, cauterisation of, under general anaesthesia	8458
of neck, deep-seated, excision of	8474
Haematoma, aspiration of	3366
incision with drainage of, not requiring a general anaesthetic	3371
large, incision with drainage of, requiring a general anaesthetic	3379/3384
pelvic, drainage of	3739/3745
Haemodialysis, in hospital	818-824
at home	827,829
Haemorrhage, antepartum, treatment of	273
arrest of, requiring general anaesthesia, following	
removal of tonsils or tonsils and adenoids	5396/5401
intracranial, burr-hole craniotomy for	7208/7212
nasal, cryotherapy to nose in treatment of	5233
posterior, arrest of	5196
postpartum, treatment of	374
subdural, congenital, osteoplastic flap and excision of	8360
tap for	8358
Haemorrhoidectomy, radical	4523/4527
Haemorrhoids, cauterisation of	4523/4527
external, or anal tags, removal of	4534
incision of	4509
injection into	4497
ligation of	4523/4527
removal of	4523/4527
rubber band ligation of	4521
Hair, transplants, multiple punch or similar technique	8534-8538
Hallucis tendon, adductor, transplantation of with correction of hallux valgus and osteotomy or osteectomy of phalanx or metatarsal	8135
Hallux rigidus, correction of	8148
valgus, and hammer toe, correction of with subcutaneous tenotomy, one or more tendons	8140/8143
arthroplasty for	8124/8127
correction of	8124/8127
— with osteotomy or osteectomy of phalanx or metatarsal	8131
— and transplantation of adductor hallucis tendon	8135
Halo, application of, for spinal fusion in the treatment of scoliosis	7940
— pelvic (femoral) traction, application and management	
— for a period up to six weeks	7937 + (½) 7940
— for a period beyond six weeks	7942 + (½) 7940
removal of	8214
Hammer toe, correction of	8151/8153
Hand, amputation or disarticulation of	4979
through metacarpals	4972/4976
extensor tendon of, primary suture of	8227/8230
secondary suture of	8233
flexor tendon of, primary suture of	8219/8222
secondary suture of	8225
incision of pulp space, paronychia or other acute infection of	7864
Hare lip	(see cleft lip)

Service	Item
Harrington rods or similar devices, re-exploration for adjustment or removal of	7937
Heart, catheterisation of	7001-7006, 7013
electrical stimulation of	917
intrathoracic operation on	6999
surgery, open	7046-7062
Heller's operation for cardiospasm	6999
Hemi-circumcision, hypospadias, and meatotomy	6098
Hemicolectomy	4046
Hemi-epiphysis, staple arrest of	8316
Hemispherectomy	7304
Hemithyroidectomy	3569
Hepatic duct, reconstruction of	3834
Hernia, diaphragmatic, other than traumatic, abdominal repair of	4241
transthoracic repair of	6997

Hiatus hernia, gastropexy for	3739/3745
repair of	4241
transthoracic repair of	6997
Hindquarter, amputation or disarticulation of	5055
Hinselmann colposcope, examination of uterine cervix with	6415
Hip, amputation or disarticulation at	5051
arthrectomy	8048
arthrodesis	8044
arthroplasty	8053-8069
arthrotomy	8074
congenital dislocation of, manipulation and plaster for	8332
dislocation of	7440/7443
prosthesis, operation on	8053-8069
synovectomy	8048
Hirschsprung's disease, colostomy or enterostomy for	3968/3970
congenital, rectosigmoidectomy for	8398
Home visit by a general practitioner	43-66
Hormone implantation — by cannula	963
incision	960
Humerus, bone graft to	7983
fracture of	7578/7584
fragmentation and rodding in fragilitas ossium	8302
operation on, for acute osteomyelitis	4844
chronic osteomyelitis	4864
osteectomy or osteotomy of	8195,8198
of, with internal fixation	8201
Hummelsheim type of muscle transplant for squint	6930
Hydatid cyst, liver, operation for	3783
lungs, enucleation of	6982
peritoneum, operation for	3783

Service	Item
Hydatid cyst, viscus, operation for	3783
Hydrocele, infantile	4222/4227
removal of	4269/4273
tapping of	4265
Hydrocephalus, congenital	
— spino-ureteral, spino-peritoneal or spino-pleural anastomosis of, or ventricular cable shunt for	8370
— suboccipital decompression, third ventriculostomy or <i>Torkildsen's</i> operation	8362
— ventriculo-atrial shunt for revision of	8368
Hydrocortisone, multiple injections into extensive keloid under general anaesthesia	3363
Hydrodilatation of the bladder with cystoscopy	5853
Hydrotubation of Fallopian tubes	6636,6641
Hygroma, cystic, removal of	3532
Hymenal redundant tissue, removal of	3219-3253
Hymenectomy	6271
Hyperbaric oxygen therapy	774,777
— in conjunction with anaesthesia	787,790
Hyperemesis gravidarum, treatment of	246
Hyperidrosis, axillary, wedge excision for	3314
Hyperkeratoses, cauterisation of	3330-3346
Hypertelorism, correction of	8378
Hypertension, portal, vascular anastomosis for	4766
Hypertrophied tissue, removal of	3219-3253
Hypnotherapy	(see Psychotherapy)
Hypodermic injections	*
Hypophysectomy, trans-sphenoidal	5337,5339
Hypospadias, correction of chordee	6105,6107
meatotomy and hemi-circumcision	6098
secondary correction of	6122
urethral reconstruction for	6110,6114,6118
Hypothenar spaces, drainage of	7868
Hypothermia, gastric	968,970
total body	925
Hysterectomy, abdominal or vaginal, total	6519/6523
with enucleation of ovarian cyst, one or both sides	6532/6533
and dissection of pelvic glands	6536
other than vaginal, subtotal	6513/6517
total, with curettage of uterus	6528/6530
radical, without gland dissection	6542
vaginal, with removal of uterine adnexae	6544
Hysteroscopy	6451
Hysterotomy	6508

*Payable on attendance basis

Service	Item
Ileo-rectal anastomosis with total colectomy	4048
Ileostomy, extra peritoneal closure of	3976/3981
with proctocolectomy	4052
Iliac, bilateral osteotomy of	8203
lymph glands, radical dissection of, and orchidectomy	4299
vein, removal of thrombus from	4789
vessel, ligation of	4690
involving gradual occlusion of vessel by mechanical device	4715
Iliopsoas tendon, transplantation of, to greater trochanter	8254
Ilium, Souttar's stripping of	8318
Immunisation against diphtheria, etc.	*
Implant, insertion or removal from eye socket	6701
of progesterone	960,963
Implants, foreign, for contour reconstruction	8478
Implantation, Fallopian tubes into uterus	6631
hormone, by cannula	963
incision	960
living tissue, by cannula	963
incision	960
plastic, of penis	6208
Incidental appendicectomy	4084
Incision of peritonsillar abscess (quinsy)	5445
Incisional hernia, repair of	4258/4262
Incontinence, male urinary, correction of	6157
of urine, congenital — plastic operation to sphincter urethropexy for (Marshall-Marchetti operation)	8420
stress, sling operation for	5977
stress, sling operation for	6406
Indicator test, blood dye — dilution	952
Indirect flap or tubed pedicle,	
— delay, intermediate transfer or detachment of	8496
— formation of	8494
— preparation of site and attachment to site	8498
— spreading of pedicle	8500
repair, revision of graft	8502
Induction and management of second trimester labour	274/275
of artificial pneumothorax	6946
labour, surgical	354
with amnioscopy	284
requiring major regional or field block; and antenatal care, confinement and postnatal care for nine days	216/217
with antenatal care, confinement and postnatal care for nine days	211/213
Indwelling extended subcutaneous tube or tubes, operation for lymphoedema by	3643
oesophageal tube, gastrostomy for fixation of	3870
Infantile, hydrocele	4222/4227
Infection, intracranial, drainage of	7287
Inferior radio ulna joint, synovectomy of	8290
vena cava, plication of	4721
Infiltration, local, around nerve or in muscle	7068

*Payable on attendance basis

Service	Item
Infiltration, of cranial nerve	7075
sympathetic plexus	7075
Inflammation of middle ear, operation for	5162
— with removal of adenoids	5415/5424
— with removal of tonsils and/or adenoids in a person aged less than twelve years	5370/5374
Infusion, intra-arterial, of substance incorporating a cytotoxic agent, preparation for	934
arteries of neck, thorax or abdomen	4822

simultaneous by compression techniques	4633
varicose veins	4629
Inlay graft, insertion and removal of mould	8516
Innocent bone tumour, excision of	3425
Innominate artery, endarterectomy of	4705
Inoculation against cholera, etc.	*
Insertion, intralymphatic, of needle or cannula for introduction of radioactive material	938
Insufflation, Fallopian tubes as test for patency (Rubin test)	6599
Integumentectomy of limb for malignant melanoma	8476
Interbody fusion, posterior and laminectomy with bone graft to spine	7967,7969
spinal fusion, cervical spine	7947,7951
lumbar or thoracic spine	7957,7961
Internal auditory meatus, exploration of	5122
derangement of knee, orthopaedic operation for	8087
drainage of empyema, not involving resection of rib	6953
Interphalangeal joint, synovectomy of	8283
Interposition of small or large bowel with oesophagectomy	6988
Interscapulothoracic — amputation or disarticulation	4987

*Payable on attendance basis

Service	Item
Intervertebral disc, laminectomy for removal of	7331
lesion, laminectomy for	7336
Intestinal loop, isolated, transplantation of ureter into	5804,5807
obstruction, surgical relief of	3739/3745
plication, Noble type, with enterolysis	3965
Intra-aortic balloon for counterpulsation	
— insertion by arteriotomy, or removal and arterioplasty	4806
— management of	976,977
-arterial infusion, of arteries, neck, thorax or abdomen	4822
a substance incorporating a cytotoxic agent,	
preparation for	934
oxygen injection	4670
-articular injection into joint	8105
-cerebral tumour, craniotomy and removal of	7198
-cranial abscess, excision of	7283
aneurysm, operation for	7265-7274
cyst, drainage of via burr-hole	7192
burr-hole biopsy for	7186
drainage	7287
haemorrhage	7208/7212,7216
infection, drainage of	7287
neurectomy or radical neurectomy	7170
tumour, biopsy or decompression via osteoplastic flap	7194
burr-hole biopsy for	7186
craniotomy and removal of	7198,7203
-lymphatic infusion of a fluid containing a cytotoxic agent	936
insertion of needle or cannula for introduction of	
radio-active material	938
-muscular injections	*
-nasal operation on antrum or removal of foreign body from	5280
frontal sinus or ethmoid sinuses	5301
sphenoidal sinus	5330
-ocular excision of dermoid of eye	8436
foreign body, removal of	6740-6747
procedures, resuturing of wound after	6938
-oral, tumour, radical excision of	3495
-orbital abscess, drainage of	6752
-scleral ball or cartilage, insertion of and evisceration of globe	6699
-synovial and/or aspiration of synovial cavity	8108
-thecal, injection of alcohol or phenol	7081
-thoracic artery, endarterectomy of	4705
operation on heart, lungs, great vessels, bronchial	
tree, oesophagus or mediastinum, or on more than	
one of these organs not otherwise covered	6999
-uterine contraceptive device, introduction or removal of	6262
foetal blood transfusion	
— including amniocentesis	947
-vascular cannula, blood pressure recording by	770
-venous infusion of fluids	927-929
substance incorporating a cytotoxic agent	932
injections	*
regional anaesthesia of limb by retrograde perfusion	760/764
Introduction or removal of intra-uterine contraceptive device	6262
Intubation, small bowel	4104
with biopsy	4099

*Payable on attendance basis

Service	Item
Intussusception, laparotomy and reduction of	4009
resection of	4012
reduction of, by fluid	4003
Inversion of uterus, acute, manipulative correction of	365,368
Inverted nipple, surgical eversion of	3707
Ionisation, cervix	6411
and curettage of uterus	6476/6481
removal of polyp from cervix with curettage of uterus	6501/6506
corneal ulcer	*
zinc of nostrils in the treatment of hay fever	*
Iontophoresis, collection of specimen of sweat by	958
Iridectomy	6885
and sclerectomy, for glaucoma (Lagrange's operation)	6873
following intraocular procedures	6938
Iridencleisis	6873
Iridocyclectomy	6894
Iridotomy	6885
Iris and ciliary body, excision of tumour of	6894
excision of tumour of	6891
light coagulation of	6889
Ischio-rectal abscess, incision of	4578/4585

Jaw, dislocation of	7397,7406
fracture of	7718-7757
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
reconstructive operations on	8554-8578
Jejuno-ileal by-pass	pay under 3894/3898 x 1½
Joint, aspiration of	8105
cicatricial flexion contracture of, correction of	8294
dislocation of	7397,7406
congenital	8332
epiphysitis, plaster for	8446,8448
internal fixation	8113
intra-articular injection into	8105
large, arthrectomy	8036
arthrodesis	8036
arthroplasty	8036
arthrotomy	8040
operations on	8009-8113
other than spine, manipulation of, under general anaesthesia	7911/7915
repair of capsule	8113
ligament	8113
sacro-iliac, arthrodesis	8032
small, arthrectomy	8022
arthrodesis	8022
arthroplasty	8022
arthrotomy	8026
spinal, dislocation involving fracture	7774-7798
zygapophyseal, arthrectomy of	8028
Jugular vessel, ligation of	4690
involving gradual occlusion by mechanical device	4715
Juvenile cataract, removal of, including subsequent needlings	6859

Service	Item
K	
Keller's operation to toe	8124/8127
Kelly type operation, repair of stress incontinence	6347/6352 + (1/2) 6389
Keloid, excision of	3219/3253
extensive, multiple injections of hydrocortisone under general anaesthesia	3363
Keratotomy, partial — corneal scars	6820
Keratoplasty	6828,6832
Keratosis, treatment of by electrosurgical destruction, chemotherapy or surgical removal	3330-3346
obturator, surgical removal of, from external auditory meatus	5068
warts or similar lesions, surgical removal	3330-3346
Kidney, dialysis, at home	827,829

AND curettage of uterus, with or without dilatation	6379/6384
Mandible, condylectomy	8570
dislocations of	7397,7406
fractures of	7739-7757
hemi-mandibular reconstruction with bone graft	8568
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteectomy or osteotomy of, for congenital malformation	8574
resection of	8556
segmental, for tumours	8560
section — fixation for prognathism or retrognathism, plastic	8564
Mandibular, temporo-, meniscectomy	7902
Manipulation and plaster for congenital dislocation of hip joint (other than spine), under general anaesthesia	8332
paediatric	7911/7915
spine under general anaesthesia	8332-8356
ureteric calculus — endoscopic	7919/7923
without anaesthesia	5885
	*
Manipulative correction of acute inversion of uterus	365,368
Manometric oesophageal motility test	966
Marrow, bone, aspiration biopsy of	3160
Marshall-Marchetti operation for urethropexy	5977
Marsupialisation of Bartholin's cyst or gland	6278/6280
Mastectomy, partial, involving more than one-quarter of breast tissue	3678/3683
radical	3702
simple	3647/3652
extended	3698
Master's test	914
Mastoid cavity, obliteration of	5091
portion, decompression of facial nerve	5102
Mastoidectomy, cortical	5087
myringoplasty and ossicular chain reconstruction	5100

*Payable on attendance basis

Service	Item
Mastoidectomy, radical or modified radical	5095
— and myringoplasty	5098
with transmastoid removal of glomus tumour	5158
Maxilla, fractures of	7718-7734
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteectomy or osteotomy for congenital malformation	8578
resection of	8554
Maxillary antrum, lavage of	5264
proof puncture and lavage of	5245-5254
(sinuses), operations on	5270-5288
artery, transantral ligation of	5268
frenulum or tongue tie, repair of, in a person aged not less than two years	3505
sinus, drainage of, through tooth socket	5284
McBride's operation for hallux valgus	8124/8127
McKee-Farrer arthroplasty of hip	8069
Meatotomy and hemi-circumcision, hypospadias	6098
for pinhole urinary meatus, congenital	8416
ureteric, with cystoscopy	5878
urinary	6066
Meatus, external auditory, removal of exostoses in	5072
internal auditory, exploration of	5122
surgical removal of keratosis obturans from	5068
pinhole urinary, dilatation of	6036
congenital, meatotomy of	8416
urinary, meatotomy of	6066
Mechanical efficiency of breathing apparatus, estimation of	920
Meckel's diverticulum, removal of	4027/4032
Medial meniscus, removal of	8087
palpebral ligament, ruptured, re-attachment of	6932
Median bar, endoscopic resection of, with or without cystoscopy	6010
Mediastinal abscess, drainage of	6990
Mediastinum, cervical exploration of, with or without biopsy	6992
intrathoracic operation on	6999
Meibomian cyst, extirpation of	6754
Melanoma, excision of	3219-3289
Melano-plasty	8550
Membrane, tympanic, micro-inspection of	5186
Membranes, artificial rupture of	354
evacuation of (products of conception)	362
manual removal of	362
mucous, biopsy of	3130
excision of fold of	3219-3237
synovial, or pleura punch biopsy of	3163
Meningeal haemorrhage, middle, operations for	7208/7212,7216
Menisectomy of knee	8087
temporo-mandibular	7902
Meniscus, medial, removal of	8087
Mesenteric cysts, removal of, as an independent procedure	3783
Metacarpo-phalangeal joint of thumb, dislocation	7436
synovectomy of	8283
Metacarpus, amputation through	4972/4976
fractures of	7520-7530
operation on, for acute osteomyelitis	4832
chronic osteomyelitis	4860

Service	Item
Metacarpus, osteectomy of, with internal fixation	8187
or osteotomy of	8185
Metatarsal, osteotomy or osteectomy of with correction of hallux valgus	8131
Metatarsus, amputation or disarticulation of	5024/5029
fracture of	7673/7677
operation on, for acute osteomyelitis	4832
chronic osteomyelitis	4860
osteectomy of, with internal fixation	8187
or osteotomy of	8185
varus, manipulation	8342
and plaster	8344
Microlaryngoscopy	5534
with removal of tumour	5540
Micro-surgical techniques	
— anastomosis of artery or vein for reimplantation of limb or digit or free transfer of tissue	4764
— distal extremity or digit, repair of	4695
— graft to artery or vein	4756
— nerve, cutaneous, primary suture of	7112
divided digital to thumb or finger	
—primary repair	7120
—secondary repair	7121
—nerve trunk, primary suture	7129
secondary suture	7138
Mid-cavity forceps delivery, with antenatal care, confinement and postnatal care for nine days	208/209
Middle ear, exploration of	5166
insertion of tube for drainage of	5172
operation for abscess or inflammation of	5162
— with removal of adenoids	5415/5424
— with removal of tonsils and/or adenoids in a person aged less than twelve years	5370/5374
Midtarsal amputation of foot	5038
Miles' operation	4202
Milroy's disease	8422,8424
Miscarriage, habitual, treatment of	242
incomplete, curettage for	6460/6464
threatened, purse string ligation of cervix for	250/258
treatment of	246
Mitral stenosis, valvectomy for	6999
Mobilisation, bowel	3739/3745
stapes	5143
Mole, desiccation by diathermy	3330-3346
evacuation by manual removal	362
Moschowitz operation	6396
Motility test, manometric, of oesophagus	966
Mucous membrane, biopsy of	3130
repair of recent wound of	3046-3101
Multiple delivery, management of, with antenatal care, confinement and postnatal care for nine days	208/209
punch hair transplants, or similar technique	8534-8538
simultaneous injections by continuous compression	
techniques for varicose veins	4633
Muscle, activity sampling (electromyography)	815
biopsy of	3135/3142
excision of, extensive	3395/3399

Service	Item
Muscle, excision of, limited	3389/3391
extra-ocular, torn repair of	6934
eye, myotomy of	6922-6928
local infiltration in	7068
or other deep tissue, removal of foreign body from	3120/3124
pubo-rectalis, division of	4594
ruptured, repair of, not associated with external wound	3401/ 3404,3407
transplant (Hummelsheim type, etc) for squint	6930
Myelomeningocele, congenital — excision of sac	8442
extensive, requiring formal repair with skin flaps	
or Z plasty	8444
Myocardial electrodes and permanent pacemaker, insertion or	
replacement of, by thoracotomy	7021
Myomectomy	6561/6563
Myotomy of ocular muscles	6922-6928
Myringoplasty	5075,5078
and ossicular chain reconstruction	5085
mastoidectomy	5098
mastoidectomy and ossicular chain reconstruction	5100
Myringotomy	5162

Service	Item
N	
Naevus, excision of	3219-3237
Nail bed, excision of, ingrowing toenail	7872/7878
digital, removal of	7861
orthopaedic, removal of, requiring incision under regional or general anaesthesia	7886
Smith-Petersen, osteosynthesis by	7898
Narcotherapy	*
Nasal bones, fracture of	7701-7715
operation on, for chronic osteomyelitis	4856
cavity and/or post nasal space, examination of under general anaesthesia as an independent procedure	5192
fronto-, ethmoidectomy	5295
haemorrhage, cryotherapy to nose in the treatment of	5233
posterior, arrest of	5196
polyp or polypi (requiring admission to hospital), removal of	5210/5214
(simple), removal of	5205
septum, septoplasty or submucous resection of	5217
— with cauterisation or diathermy of any one or more of septum or turbinates or pharynx	5221
— with turbinectomy or dislocation of turbinate	5225
space, post, direct examination of, with biopsy	5348
tip, secondary correction of, for cleft lip	8634
Naso-lacrimal duct, probing for obstruction of	6799
Nasopharyngeal tumour, operation for removal of, involving hard palate	5351
Navicular bone, fracture of	7535/7538
Neck, artery of, endarterectomy of	4709
deep-seated haemangioma of, excision of	8474
or extremity, major artery of, repair of wound of with restoration of continuity	4693
facial scar, revision under general anaesthesia	8522,8524
lymph glands of, excision of	3618,3622
Needle biopsy of prostate	6030
intralymphatic insertion of, for introduction of radio-active material	938
Needling of cataract	6865
Neonatal alimentary obstruction, laparotomy for	8394
Neoplasms, bladder, diathermy of	5919
Nephrectomy	5651,5654/5661,5665
donor (cadaver)	5647
Nephrolithotomy	5691,5694,5699
Nephropexy, as an independent procedure	5721
Nephrostomy	5715
Nephro-ureterectomy	5669
complete, with bladder repair	5675
Nerve block, regional, initial	748
subsequent	752
blocking with alcohol or other agent following localisation by electrical stimulator	7072
conduction times, estimation of (electromyography)	812
cutaneous or digital, primary suture of	7106/7111
(other than digital nerve) primary suture of, by micro surgical techniques	7112
decompression of, facial	5104

* Payable on attendance basis

Service	Item
Nerve divided digital, to thumb or finger, repair of	7116-7121
exploration of	7178/7182
facial, excision of tissue for palsy	pay under 3247/3253
fifth cranial, avulsion of branch of	7170
graft or anastomosis of	7139
local infiltration around, with alcohol, procaine or similar preparation	7068
peripheral, removal of tumour from	7148/7152,7156
transposition of	7143
trigeminal, primary branch of, injection with alcohol	7079
trunk, primary suture of, by micro surgical techniques	7124,7129
secondary suture of, by micro surgical techniques	7132,7138
Neurectomy, intracranial or radical	7170
periarterial	7165
peripheral nerve	7148/7152,7156
transantral Vidian	5333
Neurolysis by open operation	7178/7182
Neuroma, acoustic, removal of	5108/5112
Neurotomy of deep peripheral nerve	7156
superficial peripheral nerve, including multiple percutaneous neurotomy of posterior division of spinal nerves	7148/7152
Neurovascular island flap	8542
Nipple, inverted, surgical eversion of	3707
removal of accessory	3219-3253
Noble type intestinal plication with enterolysis	3965
Node, lymph, biopsy of	3135/3142
scalene, biopsy	3168
Nodes, lymph, infusion of with cytotoxic agent	936
pelvic, excision of	6308
Nodule, electrosurgical destruction or chemotherapy of	3330-3346
vocal cord, removal of, not covered by Item 5721	5530
Non-magnetic intraocular foreign body, removal of	6742,6747
Non gravid uterus, suction curettage of	6460/6464
Nose, composite graft to	8606
cryotherapy to, in the treatment of nasal haemorrhage	5233
dermoid of, congenital, excision of, intranasal extension	8440
foreign body in, removal of, other than by simple probing	5201
fractures of	7701-7715
operations on	5201-5241
plastic operations on	8594-8606
superficial dermoid of, congenital, excision of	8438
Nostril, secondary correction of, for cleft lip	8634

Service	Item
O	
Obstruction, lacrimal passages, probing or dilatation	6799
Obturans, keratosis, surgical removal of, from external auditory meatus	5068
Ocular muscle, torn, repair of	6934
Oesophageal motility test, manometric	966
tube, indwelling, gastrostomy for fixation of	3870
Oesophagectomy	
— cervical, with tracheostomy and oesophagostomy, with or without plastic reconstruction	3616
— with direct anastomosis	6986
interposition of small or large bowel	6988
stomach transposition	6986
Oesophagoscopy	5464
— with biopsy	5480
— with insertion of prosthesis	5474
Oesophagostomy, cervical	3597
closure or plastic repair of	3603
Oesophagus, correction of atresia of	6984
dilatation of	5470,5474,5490
intrathoracic operation on	6999
radical correction of congenital stenosis of	8388
removal of foreign body in	5486
Olecranon, excision of bursa of	3208/3213
fracture of	7559/7563
Oophorectomy, not associated with hysterectomy	6643/6644,6648/6649
Opaque medium, introduction of, into bladder by cystoscopy	5851
Operations, assistance at	2950,2955
for excision of congenital abnormalities	8428-8444
Operative cholangiography, pancreatogram or choledochoscopy	3789
Ophthalmological examination under general anaesthesia	6686
Optic fundi examination of, following intravenous dye injection	856
nerve meninges, incision of	pay under 6718
Orbit, anophthalmic insertion of cartilage or artificial implant	6701
of eye, exenteration of	6713,6715,6718
exploration of	6707,6709,6722,6724
skin graft to	6703
Orbital cavity, reconstruction of floor or roof of	8552
dermoid, congenital, excision of	8436
implant, enucleation of eye	6688
evisceration of eye and insertion of intrascleral ball or cartilage	6699
integrated, with enucleation of eye	6692
Orbitotomy, anterior	6709
lateral	6707
Orchidectomy, and complete excision of spermatic cord	4296
radical dissection of iliac lymph glands	4299
simple	4288/4293
with excision of retroperitoneal glands or seminal vesicles	6230
Orchidopexy	4307,4313
Orchidoplasty	6233
Oro-antral fistula, plastic closure of	5288
Orthopaedic operations	7853-8330
pin or wire, insertion of	7883
removal of	3113-3124

Service	Item
Orthopaedic plates, removal of	3120/3124
Os calcis, fracture of	7666/7668
talus, fracture of	7666/7668
Ossicular chain reconstruction	5081
— and myringoplasty	5085
— myringoplasty and mastoidectomy	5100
Osteectomy of carpus	8190
clavicle	8190
femur	8198
fibula	8190
humerus	8195
mandible, plastic, for congenital malformation	8574
maxilla, plastic, for congenital malformation	8578
metacarpal	8185
metatarsal	8185
pelvic bone	8198
phalanx	8185
or metatarsal with correction of hallux valgus	8131
radius	8190
rib	8190
scapula (other than acromion)	8190
tarsus	8190
tibia	8195
ulna	8190
vertebral bodies	8209
or osteotomy of phalanx or metatarsal and transplantation of adductor hallucis tendon for correction of hallux valgus	8135
Osteoclasia with manipulation and plaster for genu varum or genu valgum	8350
Osteomyelitis, acute, operation	
— for, metacarpus, metatarsus or phalanx other than terminal	4832
— on humerus or femur	4844
skull	4848
spine or pelvic bone	4853
sternum, clavicle, rib, ulna, radius, carpus, tibia, fibula, tarsus, mandible or maxilla	4838
terminal phalanx of finger or toe	4828
chronic operation	
— on combination of bones	4874,4877
humerus or femur	4864
nasal bones	4856
scapula, sternum, clavicle, rib, ulna, radius, metacarpus, carpus, phalanx, tibia, fibula, metatarsus, tarsus, mandible or maxilla	4860
skull	4870
spine or pelvic bone	4867
skull, craniectomy for	7291
Osteosynthesis by Smith-Petersen nail	7898
Osteotomy and distraction for lengthening of limb	8211
calcaneal	8328
with bone graft	8330
carpus	8190
with internal fixation	8193
clavicle	8190

Service	Item
Osteotomy clavicle with internal fixation	8193
femur	8198
with internal fixation	8201
fibula	8190
with internal fixation	8193
humerus	8195
with internal fixation	8201
mandible, plastic, for congenital malformation	8574
maxilla, plastic, for congenital malformation	8578
metacarpal	8185
with internal fixation	8187
metatarsal	8185
with internal fixation	8187
of bilateral iliac	8203
or osteectomy of phalanx or metatarsal and transplantation of adductor hallucis tendon for correction of hallux valgus	8135
pelvic bone	8198
with internal fixation	8201
phalanx	8185
or metatarsal with correction of hallux valgus	8131
phalanx, with internal fixation	8187
radius	8190
with internal fixation	8193
rib	8190
with internal fixation	8193
scapula (other than acromion)	8190
with internal fixation	8193
sub-trochanteric, of femur	8206
tarsus	8190
with internal fixation	8193
tibia	8195
with internal fixation	8201
ulna	8190
with internal fixation	8193
Otitis media, acute, operation for	5162
Ovarian biopsy by laparoscopy	6607
cyst, enucleation of, with abdominal hysterectomy	6532/6533
excision of	6643/6644,6648/6649
puncture of, via laparoscope	6607
Ovaries, prolapse, operation for	3739/3745
Ovary, repositioning	3739/3745
Oxygen consumption, estimation of	920
cost of breathing, estimation of	920
injection, intra-arterial	4670
therapy, hyperbaric	774,777
— in conjunction with anaesthesia	787,790
Oxytocin drip	927,929

Service	Item
P	
Pacemaker, permanent insertion or replacement of	7033
— and myocardial electrodes by thoracotomy	7021
— and permanent transvenous electrodes	7023
Pacemaking electrode, temporary insertion	7042
Packing for postpartum haemorrhage	374
Paediatric operations and procedures	8332-8448
Palate, cleft, complete, primary repair	8640
lengthening procedure, secondary repair	8648
partial, primary repair	8636
secondary repair	8644
complex cleft, partial repair	8652
Palmar middle spaces, drainage of	7868
Palpebral ligament, medial, ruptured, re-attachment of	6932
lobe of lacrimal gland, excision of	6772
Pancreas, drainage of	4124/4130
partial excision of	4109
Pancreatectomy, total	4118
Pancreatic cyst, anastomosis to stomach or duodenum	8578
juice, collection of	4104
Pancreatico-duodenectomy (Whipple's operation)	4115
Pancreatocholangiography, endoscopic	3860
Panendoscopy, upper gastrointestinal tract	3857
with biopsy	3858
urogenital tract	6061
Panhysterectomy	6519/6523,6536
Pannus, treatment of, by cautery of conjunctiva	6835
Papilloma, bladder, transurethral resection of, with cystoscopy	5871,5875
larynx, removal of	5530
removal of	3219-3265
Papules, electrosurgical destruction or chemotherapy of	3330-3346
Paracentesis abdominis	4197
in relation to eye	6869
of pericardium	6942
tympnum	5162
or aspiration, or both, of thoracic cavity	6940
Paralysis, facial, plastic operation for	8546,8548
spastic — manipulation and plaster	8356
Paraphimosis, reduction of	4351
Parathyroid glands, removal of	3555
tumour, removal of	3547
Paratyphoid, inoculation against	*
Paravertebral block, initial	748
subsequent	752
Paronychia, incision of	7864
Parotid duct, diathermy of	3465
dilatation of	3465
removal of calculus from	3468/3472
repair of	pay under 6796
using micro-surgical techniques	pay under 6796 x 1½
transplantation of into conjunctival sac	6790
fistula, repair of	3477
gland, superficial lobectomy or removal of tumour from	3450
total extirpation of	3437,3444
Parovarian cyst, excision of	6643/6644,6648/6649

*Payable on attendance basis

Service	Item
Partial amputation of penis	6179
cleft palate, primary repair	8636
excision of scrotum	6212
keratectomy — corneal scars	6820
mastectomy involving more than one quarter of the breast tissue	3678/3683
or complete ureterectomy, with bladder repair	5747
urethrectomy for removal of tumour	6077
Passage of urethral sounds as an independent procedure	6036
Patella, dislocation of	7457
displaced, fixation of	8100
excision of	8095/8097
fracture of	7641/7643
recurrent dislocation of, operation for	8100
Patellar bursa, excision of	3208/3213
Patency of Fallopian tubes, Rubin test for	6599
Patent ductus arteriosus, operation for, congenital	7050
Pectus carinatum, correction of	6970,6972
excavatum, correction of	6970,6972
Pedicle, tubed, or indirect flap,

partial, of eyelid or socket	8584
socket, eye, contracted	6705
vaginal, in congenital absence or gynatresia	6327
Reconstructive cranioplasty	7251
Recording, blood pressure, by intravascular cannula	770
Rectal biopsy, full thickness	4380
fistula	5956,6083
ischio-, abscess, incision of	4578/4585
polyp, removal of	4434/4442
prolapse, reduction of	*
tumour, resection or diathermy of, with sigmoidoscopy	4365
Rectocele, repair of	6347-6373
Rectoplasty, ano-rectal malformation	8408
Rectosigmoidectomy for Hirschsprung's disease, congenital	8398
Recto-vaginal fistula	6401
Rectum, anterior resection of	4068
perineal, excision of	4216
prolapsed, paediatric, injection into	4427
radical operation for prolapse of	4407,4413
stricture of, plastic operation for	3739/3745
suction biopsy of	3130
villous tumour of	4397
Recurrent dislocation of patella of knee, operation for	8100
hernia, repair of	4258/4262
Reduction, dislocation	7397-7483

* Payable on attendance basis

Service	Item
Reduction, fracture	7505-7839
in excess of one reduction	7828-7839
intussusception by fluid	4003
with laparotomy	4009
mammoplasty	8528
of volvulus, with laparotomy	4020/4021
paraphimosis under anaesthesia	4351
plastic, for macrodactyly, each finger	8544
ureterplasty bilateral	5836
unilateral	5831
Redundant tissue, removal of	3219-3253
Re-exploration for adjustment or removal of Harrington rods or similar devices	7937
Reflux, vesico-ureteric	5984,5993
Refrigerant, closed circuit circulation of for gastric hypothermia	968,970
Regional anaesthesia, intravenous, of limb by retrograde perfusion	760/764
major, or field block with surgical induction of labour and antenatal care; confinement and postnatal care for a period of nine days	216/217
nerve block, initial	748
subsequent	752
Regitine phentolamine test — for phaeochromocytoma	*
Renal artery, aberrant, operation for	5683
biopsy	5726
cyst, excision of	5724
denervation	5683
dialysis in hospital	818-824
transplant	5642
Resection, mandible	8556
maxilla	8554
nasal septum	5217
of bladder tumours	5871,5875
or diathermy of rectal tumour with sigmoidoscopy	4365
rib with radical operation for empyema	6955
segmental, of breast where frozen section is performed	3668/3673
submucous, of nasal septum	5217
— with cauterisation or diathermy of any one or more of septum, turbinates or pharynx	5221
with turbinectomy or dislocation of turbinate	5225
of turbinates	5241
Respiratory function, estimation of	920,921
Response recording (electromyography)	812
Restoration of cardiac rhythm by electrical stimulation	917
Resuturing of surgical wounds (excluding repair of burst abdomen)	*
wound following intraocular procedures	6938
Retina, cryotherapy to	6908
detached, diathermy or cryotherapy for	6900
light coagulation for	6904
removal of encircling silicone band from	6906
resection or buckling operation for	6902
pre-detachment of, cryotherapy for	6908
Retinal photography	859
Retrobulbar abscess, operation for	6752
injection of alcohol	6918
transillumination	6914

*Payable on attendance basis

Service	Item
Retrognathism, correction of	8564
Retrograde pyelography including cystoscopy with ureteric catheterisation, preparation for	5851
Retroperitoneal abscess, drainage of	4185
glands, excision of, with orchidectomy	6230
tumour, removal of	4173
Retropharyngeal abscess, incision with drainage of	3379/3384
Retropubic prostatectomy	6001
Retroversion, operation for	6585/6594
Revision of facial or neck scar under G.A.	8522,8524
graft, direct, indirect or local flap repair	8502
rhinoplasty, secondary	8602
ventriculo-atrial shunt for hydrocephalus, congenital	8368
Rhinophyma, correction of	8604
Rhinoplasty procedures	8594-8602
Rhizolysis, spinal, with or without laminectomy	7370
Rib, cervical, removal of	8158
fracture of	7601/7605
operation on, for acute osteomyelitis	4838
chronic osteomyelitis	4860
osteectomy of, with internal fixation	8193
or osteotomy of	8190
resection of, with radical operation for empyema	6955
Rodent ulcer, operation for	3219-3253
Rod, removal of, requiring incision under regional or general anaesthesia	7886
Rods, Harrington, or similar devices, re-exploration for adjustment or removal of	7937
Roof or floor of orbital cavity, reconstruction of	8552
Rosen incision — myringoplasty	5075
Round window repair	5147
Rovsing's operation	5683
Rubber band ligation of haemorrhoids	4521
Rubin test for patency of Fallopian tubes	6599
Rupture of bladder, repair of	5891/5894
Ruptured medial palpebral ligament, re-attachment of	6932
muscle, repair of, not associated with external wound	3401/3404,3407
urethra, repair of	6041
viscus (including liver, spleen or bowel) repair or removal of	4149-4165

Service	Item

dilatation with cystoscopy	5845
fistula, closure of	6044,6079,6083
reconstruction for hypospadias	6110-6118
sounds, passage of, as an independent procedure	6036
stricture, cystoscopy and dilatation	5847
dilatation of	6039
plastic repair of	6086-6095
tumour, removal of by urethrectomy	6077
urethroscopy and diathermy	6053
valves, congenital, open removal of	8418
or urethral membrane, endoscopic transurethral or	
perineal resection	6175
transvesical, removal of	5973
Urethrectomy, partial or complete, for removal of tumour	6077
Urethrocele, operation for	6389
Urethrography preparation for	5840
Urethropexy (Marshall-Marchetti operation)	5977
Urethroplasty	6086-6095
Urethroscopy, as an independent procedure	6047
removal of stone or foreign body	6056
with cystoscopy	6061
diathermy of tumour	6053
Urethrotomy (external)	6069
(internal)	6073
perineal (external), as an independent procedure	6069
Urinary, infection — bladder washout test	839
meatotomy	6066
Urinary meatus, pinhole, congenital — meatotomy	8416
tract, X-ray of, preparation for	5851
Urine, incontinence of, congenital — plastic operation to sphincter	8420
Uterine adenomyoma, excision of	6561/6563
adnexae, removal of, with vaginal hysterectomy	6544
lavage — saline flushing	*
tubes, insufflation of, as test for patency (Rubin test)	6599
Uterus, bicornuate, plastic reconstruction for	6570
curettage of	6460/6464
by suction aspiration (menstrual aspiration)	6460/6464
— AND colpoplasty, Donald Fothergill or	
Manchester operation	6379/6384
— AND cone biopsy of cervix	6428/6434
— WITH cauterisation, ionisation or diathermy	
of cervix	6501/6506
— AND total hysterectomy (other than vaginal)	6528/6530
— including curettage for incomplete miscarriage	6460/6464
— with colposcopy, cervical biopsy and radical	
diathermy	6483
gravid, evacuation of the contents of, by curettage or suction	
curettage	6469
implantation of Fallopian tube or tubes into	6631
manipulative correction of acute inversion of	365,368

* Payable on attendance basis

Service	Item
Uterus, suspension or fixation of	6585/6594
Uvula, excision of	5449
Uvulotomy	5449

Service	Item
V	
Vaccinations	*
Vaccines injection of	*
Vacuum extraction with antenatal care, confinement and postnatal care for nine days	208/209
Vagina, artificial formation of	6327
partial or complete removal of	6325
removal of simple tumour of	6321
Vaginal fistula, repair of, or closure of	5941, 6079,6401
hysterectomy or abdominal hysterectomy — total	6519/6523
with removal of uterine adnexae	6544
orifice, plastic repair to enlarge	6336
reconstruction in congenital absence or gynatresia	6327
septum, excision of, for correction of double vagina	6332
vault, suspension of, abdominal approach	6396
Vagotomy, highly selective	3889
with pyloroplasty or gastro-enterostomy	3891
selective	3882
trunkal	3875
with pyloroplasty or gastro-enterostomy	3889
Valgus, calcaneus — manipulation and plaster under general anaesthesia	8340
under general anaesthesia	8338
hallux, and hammer toe, correction of with subcutaneous tenotomy, one or more tendons	8140/8143
correction of	8124/8127
— with osteotomy or osteectomy of phalanx, metacarpal or metatarsal	8131
— with osteotomy or osteectomy of phalanx or metatarsal and transplantation of adductor hallucis tendon	8135
Vallecular cysts, removal of	5456
Valvectomy for mitral stenosis	6999,7046
Valves, heart, operations on	7046,7057
urethral, operation for congenital abnormalities of	8418
transvesical removal of	5973
Valvulotomy for pulmonary stenosis	6999,7050
Varicocele, removal of	4282/4285
Varicose veins, excision of	4637-4649
injection of sclerosing fluid	4629
ligation of	4651-4662
multiple simultaneous injection by continuous compression techniques	4633
Vascular anastomosis for portal hypertension	4766
Vas deferens, operations on	6238-6253
Vasectomy (unilateral or bilateral)	6249/6253
Vasoepidymostomy	6238,6241
Vasoepididymography and vasovesiculography as an independent operative procedure, preparation for by open operation	6246
Vasotomy (unilateral or bilateral)	6249/6253
Vein and/or artery, operations on	4629-4822
anastomosis of by micro-surgical techniques for the reimplantation of limb or digit or free transfer of tissue graft for priapism	4764
	6166

*Payable on attendance basis

Service	Item
Vein saphenous, crossed by-pass	4665
scalp, catheterisation of	899
umbilical, catheterisation of	895
varicose, injection of sclerosing fluid	4629
multiple simultaneous injection by continuous compression techniques	4633
operations for	4637-4662
Vena cava, inferior, plication of	4721
Venesection	902,904,954
Venography	(see Phlebography)
Venous arterio-, shunt, external, insertion of	4808
graft or by-pass	4754
to fenestration cavity	5131
Ventral hernia, repair of	4258/4262
Ventricle, cerebral, puncture of	7099
Ventricular cable shunt for hydrocephalus, congenital	8370
puncture, cerebral	7099
left	7003
Ventriculo-atrial shunt for hydrocephalus, congenital	8366
revision or removal of	8368
jugular shunt, congenital	8364
Ventriculostomy, third, for hydrocephalus, congenital	8362
Vermilionectomy	8616
Version, external	295
internal	298
Vertebral bodies, osteectomy of	8209
body, fracture of	7781/7785,7793,7798
Vesical fistula, cutaneous, operation for	5935
closure of	5941-5956
reflux, operation for	5984,5993
Vesicles, seminal, excision of, with orchidectomy	6230
Vessel, great, ligation of involving gradual occlusion of vessel by mechanical device	4715
Vidian neurectomy, transantral	5333
Vilious tumour of rectum	4397
Viscera, abdominal, operation on, involving laparotomy	3739/3745
multiple ruptured, repair or removal of	4165
Viscus, hydatid cyst of, operation for	3783
ruptured, repair or removal of	4149/4158
Vital capacity, estimation of	921
Vitamin products, injection of	*
Vitrectomy via posterior sclerotomy with removal of vitreous by cutting and suction and replacement by saline, Hartmann's or similar solution	6828
Vitreous body, division of fibrinous bands in	6885
Vocal cord, biopsy of	5524
removal of nodule from	5530
tumour from	5530
Volkman's contracture, operation for	8300
Volume, reserve (expiratory or inspiratory), residual, tidal or total lung, estimation of	921
Volvulus, reduction of, with laparotomy	4020/4021
Vulva, simple tumour of, removal of	6267
Vulvectomy (radical)	6306
(simple)	6302

*Payable on attendance basis

Service	Item
W	
Warts, treatment of by electrosurgical destruction, chemotherapy	
or surgical removal	3330-3346
perineal, diathermy of	3330-3346
plantar, removal of	3320
Washout, antrum	5245-5264
for ingested poison	974
stomach	*
Water, drinking test, for glaucoma, provocative	849
Wedge excision for axillary hyperhidrosis	3314
of contracted bladder neck, congenital	8410
lip, full thickness	8614
resection for ingrowing toenail	7872/7878
Wertheim's operation	6536
Whipples operation, (pancreatico-duodenectomy)	4115
Whooping cough immunisation	*
Williams and Richardsons' operation for suspension of vaginal vault	6396
Window, round, repair of	5147
Wire, buried, removal of, requiring incision under regional	
or general anaesthesia	7886
orthopaedic, insertion of	7883
removal of	3113-3124
Wolfe graft	8518
Wound, deep or extensive contaminated, debridement of, under	
general anaesthesia	3041
recent, repair of by sticking plaster	*
resuturing of, following intraocular procedures	6938
surgical, resuturing of (excluding repair of burst abdomen)	*
traumatic suture of	3046-3101
Wrist, Colles' fracture	7540/7544
fracture of	7540-7547
synovectomy of	8290,8292
Wry neck, operation for	8386

*Payable on attendance basis

Service	Item
X	
Xanthelasma, treatment of Xenon arc photo-coagulation	3219-3253 6904

Service	Item
Z	
Zinc, ionisation of nostrils in the treatment of hay fever	*
Zygapophyseal joints, arthrectomy of	8028
Zygoma, fracture of osteotomy or osteectomy for	7764/7766
	8578

*Payable on attendance basis

SECTION 3B

INDEX TO MEDICAL BENEFITS SCHEDULE

PART 7 — PATHOLOGY SERVICES

PART 7A — NUCLEAR MEDICINE

PART 8 — RADIOLOGICAL SERVICES

PART 8A — RADIOTHERAPY

1 JANUARY 1978

Service	Item
A	
Abdominal X-ray, plain	2699/2703
Acetone, examination of urine for	1536/1537, 1673/1674
Acid, haemolysis test for paroxysmal nocturnal haemoglobinuria	1044-1049
phosphatase, estimation of	1342/1343
Acidity, estimation by pH meter	1319-1323
gastric, by dye test	1327/1328
A.C.T.H. stimulation test (procedural service)	1504/1505
Adhesion test, platelet	1263/1264
Adrenal insufflation and X-ray	2697
preparation for	2900
Adrenaline tolerance test (procedural service)	1504/1505
Agglutination tests (quantitative)	1760-1767
Agglutinins, cold	1202/1203
leucocyte	1159/1160
platelet	1166/1167
Aggregation test, platelet	1242/1243, 1277-1280
Air contrast study with opaque enema	2718
encephalography	2756
preparation for	2880
Albumin, estimation of	1301-1310
examination of urine for	1536/1537, 1673/1674
Alcohol, estimation of	1345/1346
Aldolase, estimation of	1342/1343
Aldosterone, estimation of	Pay under 1475-1485
Alimentary tract, X-ray of	2699-2718
Alkaline phosphatase, estimation of	1301-1310
A.L.T. (Alanine Aminotransferase)	1301-1310
Alveolus, application of moulds of radio-active substances	2862, 2864
Ammonia, estimation of	1345/1346
Amniotic fluid, spectrophotometric analysis	1357/1358
Amylase, estimation of	1342/1343
Angiocardiography, serial, bi-plane direct roll-film method	2748
indirect roll-film method	2750
rapid cassette changing	2744
single plane — direct roll-film method	2746
Angiography, cerebral	2758
percutaneous, preparation for	2882
preparation for by catheter or open exposure	2884
vertebral	2758
Animal inoculation, examination by	1712/1713
Ankle, X-ray of	2524/2528, 2532/2537
Antibiotic agents, assay of	1743/1744
determination of minimum inhibitory concentration	1721-1725
Antibodies, examination of serum for	1121-1130
heterophile, estimation of	1190-1195
tissue, immunofluorescent detection of	1911-1919
Antihaemophilic globulin, assay of	1271/1272
Antistreptolysin O titre test	1843/1844
Aortography	2770
preparation for	2892
Appendix, X-ray of	2714
Arginine infusion test (procedural service)	1504/1505
Arm (elbow to shoulder), X-ray of	2508/2512
Arsenic, estimation of	1345/1346

Service	Item
Arteriography, cerebral	2758
preparation for	2882,2884
peripheral	2766,2776
preparation for	2894,2906
selective, coronary	2751
Arthrography contrast	2788
double contrast	2790
Aspiration, renal cyst with injection of radio-opaque material	2909
A.S.T. (Aspartate aminotransferase)	1301-1310
Australia antigen, detection of	1336/1337
Autogenous vaccines, preparation of	1858/1859

Service	Item
B	
Barbiturates, assay of	1380-1387
Barium meal	2709-2714
oesophagus, stomach and duodenum	2709
— and follow through to colon	2711
— with small bowel series	2711
small bowel series only	2714
Basophilic stippling, examination of blood film by special stains for	1019-1022
Bicarbonate, estimation of	1301-1310
Bile pigments, examination of urine for	1536/1537, 1673/1674
Biliary atresia, X-ray of	2720-2728
Bilirubin, direct and indirect	1301-1310
neo-natal, direct or indirect	1345/1346
Bleeding time	1234-1239
Blood coagulation factor (quantitative)	1271/1272
time	1234-1239
count	1006/1007
culture	1633/1634
examination of urine for	1536/1537, 1673/1674
film examination	1014/1015
by special stains	1019-1032
(Division 9)	2334-2336
gases	1364/1366
grouping ABO and Rh (D antigen)	1080-1090
Duffy system	1101-1108
Kell system	1101-1108
Rh phenotypes	1101-1108
spectroscopic examination of	1215/1216
transfusion intrauterine foetal, control X-ray for	2742
procedures	1080-1167
volume by dye method	1211/1212
B lymphocyte cell count	1987/1988
Body fluids and tissues, chemistry of	1301-1517
assay of an antibiotic or chemotherapeutic agent,	
quantitative	1743/1744
microscopical examination for parasites, cysts or ova	1687/1688
Bone, age study	2614, 2617
marrow examinations	1062-1065
scan of	2499
Bowel, small, barium X-ray of (small bowel series only)	2714
with barium meal examination of stomach	2711
Brain, scan	2451
Breast, X-ray of	2734, 2736
Bromide, estimation of	1342/1343
Bromsulphthalein, estimation of	1342/1343
test (procedural service)	1504/1505
Bronchial secretion, examination for malignant cells	2091/2092
Bronchography	2764
preparation for	2890
Brucellosis, agglutination tests for	1760-1767
BSP (Bromsulphthalein) estimation of	1330/1331

Service	Item
C	
Caeruloplasmin, estimation of	1342/1343
Calcium, estimation of	1301-1310
Calculus, analysis of	1354/1355
salivary, X-ray of	2579
Carbamazepine, assay of	1380-1387
Carbohydrate tolerance test (procedural service)	1504/1505
Carboxyhaemoglobin, quantitative estimation	Pay under 1339/1340
Cardiac examination, including barium swallow	2642/2646
measurements with kymography	2642/2646
Carotene, estimation of	1342/1343
Casoni test	2013/2014
(Division 9)	2382
Catecholamines, estimation of	1364/1366
Cell count, total and differential on body fluids, other than urine	1851/1852
Cerebral angiography, preparation for	
— by catheter or open exposure	2884
— percutaneous	2882
scan	2451
ventriculography	2760
preparation for	2886
Cerebrospinal fluid, examination for malignant cells	2091/2092
Cervical smear, examination for pathological change	2081/2082
Chemistry of body fluids and tissues	1301-1517
Chemopallidectomy, control X-ray for	2560
Chemotherapeutic agent, assay of	1743/1744
determination of	1721-1725
Chest, X-ray of	2625-2638
Chloride, estimation of	1301-1310
Cholangiogram, transhepatic, preparation for	2940
Cholangiography	2722-2728
Cholecystography, including preparation	2720
Choledochography	2722-2728
Cholegram, transhepatic, preparation for	2940
Cholegraphy	
— drip infusion	2728
preparation for	2918
— intravenous	2724
— operative, or post-operative	2722
— percutaneous transhepatic	2726
Cholesterol, estimation of	1301-1310
Cholinesterase, quantitative estimation of	1345/1346
Chorionic gonadotrophin, qualitative estimation of	2272/2273
quantitative estimation of	2285/2286
Chromatography, qualitative (of a substance not specified in any other item)	1330/1331
quantitative (of a substance not specified in any other item)	1368/1370
Chromium, radio-active, for estimation of gastro-intestinal blood loss	2438
Chromosome studies	2148-2174
Cisternal puncture, preparation for radiological procedure	2930
scan	2454
Clavicle, X-ray of	2543/2545
Clot retraction	1234-1239

Service	Item
Coagulation factors	1271/1272
time	1234-1239
Coccyx, X-ray of	2604
Cold agglutinins, qualitative estimation of	1202/1203
quantitative estimation of	1206/1207
Colloidal gold reaction	Pay under 1330/1331
Colon, X-ray of	2711,2716,2718
Colonic washings, examination for malignant cells	2096/2097
Compatibility testing	1112-1116
Complement fixation tests,	1781-1785
on human tissue antibody	1924-1927
fraction, estimation of	1342/1343
Contrast media injection for radiological procedures	2880-2940
X-ray	2744-2794
study, air with opaque enema	2718
Coombs test — direct	1136/1137
— indirect	1112/1116,1144/1145
Coproporphyrin, estimation of	1345/1346
Copper, estimation of	1345/1346
Coronary, selective arteriography	2751
Creatine, estimation of	1342/1343
kinase, estimation of	1301-1310
Creatinine, clearance test (procedural service)	1504/1505
estimation of	1301-1310
Cryoglobulins, qualitative estimation	1319-1323
Cryoproteins, qualitative estimation	1319-1323
Cultural examination for mycobacteria	1622/1623
parasites	1702-1706
of a specimen other than urine	1609-1616
urine	1673-1683
Cyst, renal, aspiration with injection of radio-opaque material	2909
Cystography	2690
Cystourethrography, retrograde	2690
micturating	2694
preparation for	2920
Cytogenetics	2131-2174
Cytological examination for malignancy	2091-2097
pathological change	2081/2082
of vagina for assessment of hormones	2104-2112
sex determination	2131-2142
Cytology	2081-2112

Service	Item
D	
Dacryocystography	2754
preparation for	2888
Delta aminolaevulinic acid, estimation of	1345/1346
Dermatophytes, microscopical examination for	1586-1589
Diazepam, assay of	1392-1398
Dibucaine number, estimation of	1348/1349
Differential cell count	1014/1015
leucocyte count (Division 9)	2334-2336
Digit, X-ray of	2502/2505
Digoxin, assay of	1380-1387
Discography	2752
preparation for	2923
Drip-infusion pyelography	2672
preparation for	2918
Drug assays, qualitative estimations or screening procedures	1376/1378
Duodenal washings, examination for malignant cells	2096/2097
Duodenum, X-ray of	2709,2711

Service	Item
E	
Effective thyroxine ratio	1434-1442
Elbow and arm, X-ray of	2516/2520
X-ray of	2508/2512
Electrophoresis qualitative	1333/1334
quantitative	1360/1362
Elements, unspecified, estimation of	1345/1346
Encephalography	2756
preparation for	2880
Enema, opaque X-ray	2716,2718
Enteric fever, agglutination tests for	1760-1767
Eosinophils (wet preparation or film)	1019-1022
Erythrocyte, autohaemolysis test	1036-1040
count	1006-1011
(Division 9)	2334-2336
fragility test, mechanical	1036-1049
to hypotonic saline	1044-1049
glucose-6-phosphate dehydrogenase	
— qualitative estimation	1036-1040
— quantitative estimation	1044-1049
glutathione deficiencies test	1036-1040
stability test	1044-1049
morphology	1014-1015
paroxysmal nocturnal haemoglobinuria	
— acid haemolysis test	1044-1049
— sugar water test (or similar)	1036-1040
pyruvate kinase	
— qualitative estimation	1036-1040
— quantitative estimation	1044-1049
radio-active uptake survival time	2430
screening test, volume Cr51	2432
sedimentation rate	1006-1011
(Division 9)	2334-2336
Ethosuximide, assay of	1392-1398
Euglobulin lysis time	1267/1268
Euglobulins, qualitative estimation of	1319-1323
Exudate, dark ground illumination microscopical examination for	
trichomonas pallidum	1604/1606
Eye, foreign body in, X-ray for	2730
X-ray of	2583

Service	Item
F	
Facial bones, X-ray of	2573
Factor III availability, platelet	1271/1272
13, test	1251/1252
Faecal fat, estimation of	1364/1366
Faeces or body fluids, microscopical examination for parasites, cysts or ova	1687/1688
Fallopian tubes, X-ray of, using opaque media	2762
— preparation for	2921
Femur (thigh), X-ray of	2524/2528
Fibrin degeneration products, determination of	1263/1264
Fibrinogen titre, determination of	1247/1248
Fibrinogenolysis	1244/1246
Finger, X-ray of	2502/2505
Fistula, injection into, in preparation for radiological procedure	2932
Fistulae, X-ray of	2782
Flocculation tests, including V.D.R.L., Kahn, Kline or similar	1772-1776
Fluorescent serum antibody test	1793-1797
Fluoroscopic examination	2800,2802
screening of chest (lung fields) with X-ray	2630
palate and/or pharynx, with X-ray	2591
Fluoroscopy, alimentary tract and biliary system	2699-2728
Foetal blood transfusion, intrauterine, control X-ray for haemoglobin, examination of blood film for	2742
1028-1032	
Fetoprotein, detection of	1327/1328
Folic acid, estimation of	1345/1346
Foot, X-ray of	2524/2537
Forearm, X-ray of	2508-2512
Foreign body, localisation of and report	2732
X-ray for — eye	2730
oesophagus	2706
other than in eye or oesophagus	2732
Frozen section, immediate, diagnosis of	2048-2057
Fungi, screening for in skin, hair, nails (Division 9)	2369

Service	Item
G	
Gallbladder, X-ray of	2720-2728
Gamma-glutamyl transpeptidase	1301-1310
Gastric acidity by dye test	1327/1328
function test (procedural service)	1504/1505
washings, examination for malignant cells	2096/2097
Gastro-intestinal blood loss estimation	2438
Giemsa stain	1545-1549
Globulin, antihæmophilic, assay of	1271/1272
estimation of	1301-1310
Glucagon tolerance test (procedural service)	1504/1505
Glucose, estimation of	1301-1310
Glucose-6-phosphate dehydrogenase estimation of	1036-1049
Glutathione deficiencies test	1036-1040
stability test	1044-1049
Gold, estimation of	1345/1346
Gonadotrophin releasing hormone, administration of (procedural service)	1516/1517
stimulation test (procedural service)	1511/1512
Graham's test	2720
Gram stain	1545-1549
(Division 9)	2357

Service	Item
H	
Haemagglutination, inhibition tests	1823-1827
tests	1805-1809
Haematocrit estimation	1006-1011
(Division 9)	2334-2336
Haematology	1006-1049
Haemoglobin estimation	1006-1011
(Division 9)	2334-2336
H, examination of blood film for	1019-1022
Haemolysin, examination of serum for blood group	1152-1153
Haemostasis	1234-1263
Hand, wrist and lower forearm, X-ray of	2516/2520
X-ray of	2508/2512
Heart, measurement (X-ray) and kymography	2642/2646
scan	2477
and liver	2476
Heinz bodies, examination of blood film for	1028-1032
Helminths, identification of	1693/1694
Heterophile antibodies, qualitative estimation	1190/1191
quantitative estimation	1194/1195
Hexosamine, estimation of	1342/1343
Hip, X-ray of	2548
Histidine loaded figlu test (procedural service)	1504/1505
Histopathology	2041-2057
examination of frozen section	2048-2057
Hormonal assessment by cytological examination of vagina	2104-2112
immunoassay by radio-active techniques	2446
Hormone assays	1419-1485
using beta emitting labels or by bioassay	1475-1485
gamma emitting labels or any other unspecified technique	1452-1462
Huhner's test	2211/2212
Hydroxybutyric dehydrogenase, estimation of	1301-1310
— methoxy mandelic acid (HMMA), estimation of	1364/1366
— proline, estimation of	1364/1366
5-Hydroxyindole acetic acid, quantitative estimation of	1345/1346
Hyperthyroidism or thyroid cancer, radio-iodine for	2874
Hysterosalpingography	2762
preparation for	2921

Service	Item
Immediate frozen section diagnosis	2048-2057
Immunoelectrophoresis	1877-1885
Immunofluorescent detection of tissue antibodies	
— qualitative	1911-1914
— qualitative and quantitative	1918/1919
Immunoglobulins G, A, M or D quantitative estimation of	1888-1892
E quantitative estimation of	1897/1898
Immunology	1877-2023
Indican, test for	1351/1352
Infertility and pregnancy tests	2201-2286
Inhibitory substances to micro-organisms in body fluids, detection of	1732/1733
Injection, of radio-opaque material into renal cyst with aspiration	2909
opaque or contrast media for radiological procedures	2880-2940
Inlet, thoracic, X-ray of	2634
Insufflation, adrenal and X-ray	2697
with lipiodol	2762
perirenal for radiography, preparation for	2900
X-ray of	2697
Insulin hypoglycaemia stimulation test (procedural service)	1511/1512
Intra-osseous venography, preparation for	2925
— uterine foetal blood transfusion	
— control X-ray for	2742
— venous cholangiography including preparation	2724
Iron and iron-binding capacity, estimation of	1345/1346
examination of blood film for	1028-1032
Isotopes, radio-active, studies	2430-2500

Service	Item
---------	------

J

Joint or long bone scan of

2498

Service	Item
K	
Kahn, flocculation tests	1772-1776
Kaolin clotting time	1234-1239
Kline, flocculation tests	1772-1776
Knee, and wrist, bone age study of X-ray of	2614
Kymography with cardiac measurements (radiological)	2524/2528, 2532/2537 2642/2646

Service	Item
L	
Lactate, estimation of	1342/1343
Laryngography	2784
preparation for	2936
Larynx, X-ray of	2595
Latex flocculation test	1935/1936
Lead, estimation of	1345/1346
Lecithin/sphingomyelin ratio of amniotic fluid	1372/1374
Leg, upper, or lower, X-ray of	2524-2537
Leucocyte agglutinins, detection of	1159/1160
count	1006-1011
(Division 9)	2334-2336
fractionation test	1965/1966
L-dopa stimulation test (procedural service)	1504/1505
Lipase, estimation of	1342/1343
Lipiodol insufflation of Fallopian tubes	2762
Lithium, estimation of	1342/1343
Liver and spleen, scan of	2486
scan	2480
and heart	2476
lungs	2479
Loeffler stain	1545-1549
Long bone or joint, scan of	2498
Lung fields, X-ray of	2625-2630
or lungs, scan of	2474
Lupus erythematosus cells, preparation and examination of film for	1948/1949
Luteinizing hormone	Pay under 1475-1485
Lymphangiography including follow-up radiography	2792
preparation	2934
Lymphocytes cell count	1981/1982
function tests	1995-1998

Service	Item
M	
Macroglobulins, estimation of	1319-1323
Magnesium, estimation of	1342/1343
Malar bones, X-ray of	2573
Malarial or other parasites, examination of blood film for	1028-1032
Mammography	2734,2736
Mandible, X-ray of	2576
Mantoux test	2013/2014
(Division 9)	2374
Mastoids, X-ray of	2560,2566
Maxilla, X-ray of	2573
Meal, opaque, X-ray	2709-2714
Mediastinal scan	2473
Mercury, estimation of	1345/1346
Methotrexate	1392-1398
Methylene blue dye test for toxoplasmosis stain	Pay under 1793/1794 1545-1549
Microbiology	1529-1859
Micro-organisms in body fluids, detection of inhibitory substances pathogenic, identification of	1732/1733 1644-1665
Micturating cysto-urethrography	2694
preparation for	2920
Miniature X-ray of chest	2638
Morphine, assay of	1392-1398
Mucous membrane, cytological examination of	2081/2082
Myelography one region	2773
two regions	2774
three regions	2775

Service	Item
N	
Neo-natal bilirubin, direct and indirect, estimation of	1345/1346
Nephrography	2665-2687
Neutrophil alkaline phosphatase, examination of blood film for function test	1028-1032 1971-1974
Non-pregnancy oestrogens, estimation of	1364/1366
Normalised thyroxine, assay of	1434-1442
Nose, X-ray of	2581

Service	Item
O	
Occult blood, qualitative estimation of	1319-1323
(Division 9)	2362
Oesophageal washings, examination for malignant cells	2096/2097
Oesophagus, X-ray of	2706,2709,2711
Oestriol, urine, estimation of	1345/1346
Oestrogens, non-pregnancy, estimation of	1364/1366
Opaque enema X-ray	2716,2718
meal	2709-2714
media, preparation for radiological procedures using	2880-2940
Orbit, X-ray of	2573
Osmolality, estimation of	1339/1340
Oxalate, estimation of	1345/1346
Oxogenic steroids	1345/1346
Oxosteroids, estimation of	1345/1346
Oxygen saturation (blood gases) estimation of	1364/1366

Service	Item
P	
Palato-pharyngeal studies	2591-2593
Pancreas, scan of	2481
Parasites, cultural examination for	1702-1706
Parathyroid scan	2462
Pathogenic micro-organisms, identification of	1644-1665
Pelvic girdle, X-ray of	2551
Pelvimetry	2740
Pelvis, scan of	2496
X-ray of	2551
Percutaneous cerebral angiography, preparation for	2882
Periodic acid, Schiff reaction (P.A.S.)	1028-1032
Perirenal insufflation for radiography, preparation for	2900
X-ray	2697
Peritoneal fluid, examination for malignant cells	2091/2092
Petrous temporal bones X-ray of	2569
PH, examination of urine for	1536/1537, 1673/1674
Phalanges, X-ray of	2502/2505
Phalanx, X-ray of	2502/2505
Phenolsulphthalein excretion test (procedural service)	1504/1505
Phenytoin, assay of	1380-1387
Phlebography	2768
preparation for	2896
selective, preparation for	2903
Phosphate, estimation of	1301-1310
Pituitary gonadotrophins	Pay under 1475-1485
Placenta, scan of	2491
Placentography	2740
Plain abdominal X-ray	2699/2703
renal X-ray	2665
Plasma, recalcified clotting time	1244/1246
Platelet, adhesion test	1263/1264
agglutinins, detection of	1166/1167
aggregation test (qualitative)	1242/1243
— using adenine dinucleotide phosphate, collagen, 5 hydroxytryptamine, ristocetin	1277-1280
antibodies, detection of	1271/1272
count	1006-1011
factor III availability test	1271/1272
Platelets, qualitative estimation of	1014-1015
Pleura, X-ray of	2625/2627
Pneumoarthrography	2786
preparation for	2912
-encephalography	2756
preparation for	2880
-mediastinum	2794
preparation for, radiological	2938
-peritoneum, preparation for radiography of	2916
PO ₂ and pCO ₂ and pH and oxygen saturation and bicarbonate, estimation of	1364/1366
Porphobilinogen, qualitative estimation of	1319-1323
quantitative estimation of	1345/1346
Porphyrin factors	1345/1346
Porphyryns, qualitative test for	1327/1328
Potassium, estimation of	1301-1310

Service	Item
Pregnancy test	2272/2273
(Division 9)	2346
X-ray	2738,2740
Pregnanediol, estimation of	1364/1366
Pregnanetriol, estimation of	1364/1366
Procainamide, estimation of	1392-1398
Procedural services	1504-1517
Protamine sulphate titration	1263/1264
Protein, specific, assay of	1342/1343
radio-active iodine test	2443
total, estimation of	1301-1310
Prothrombin consumption test	1263/1264
time, estimation of	1234-1239, 1259/1260
Pyelography, drip-infusion	2672
preparation for	2918
intravenous, including preparation for	2676,2681
retrograde	2687
Pyruvate, estimation of	1342/1343
kinase deficiency in erythrocytes	
— qualitative estimation of	1036-1040
— quantitative estimation of	1044-1049

Service	Item
Q	
Qualitative estimation of a substance not specified in any other item	1319-1323
Quantitative estimation of a substance not specified in any other item	1345/1346
Quinidine, assay of	1392-1398

Service	Item
R	
Radio-active B12 absorption test	2448
chromium, for estimation of gastrointestinal blood loss	2438
iodine test, protein bound	2443
mould	2862-2870
sources	
— sealed	2842-2860
— unsealed	2872-2878
thyroid clearance	2434,2441
uptake survival time, erythrocyte	2430
-iodine, for hyperthyroidism or thyroid cancer, by single dose technique	2874
thyroid uptake	2434
urinary, estimation	2441
-isotope studies	2430-2500
therapeutic dose, oral	2872
intracavitary	2878
intravenous	2876
Radiological procedures — examination and report	2502-2802
Radiotherapy, deep or orthovoltage	2818-2828
megavoltage or teletherapy	2830-2840
radio-active — sealed	2842-2870
superficial	2804-2816
Radioallergosorbent tests	1903-1906
Recalcified plasma clotting time	1244/1246
Red cell morphology	1014-1015
Renal cyst, aspiration with injection of radio-opaque material	2909
scan	2484
and differential renal scan	2489
differential	2487
X-ray, plain	2665
Reticulocytes, examination of blood film for	1019-1022
Retrograde pyelography	2687
Retroperitoneal pneumogram	2697
Rib, X-ray of	2650-2662
Rose Waaler test, quantitative	1941/1942

Service	Item
S	
Sacral X-ray	2601-2611
Sacro-iliac joint, X-ray of	2554
Sacrum, and vertebral column, scan of	2495
Salicylate, estimation of	1342/1343
Salivary calculus, X-ray of	2579
Scan bone	2499
brain	2451
cisternal	2454
heart	2477
and liver	2476
joint or long bone	2498
liver	2480
and heart	2476
lungs	2479
spleen	2483
lung or lungs	2474
and liver	2479
mediastinal	2473
pancreas	2481
parathyroid	2462
pelvis	2496
placental	2491
renal	2484
and differential renal scan	2489
differential	2487
skull	2493
spinal cord	2457
spleen	2483
and liver	2486
thyroid	2470
vertebral column and sacrum	2495
Scapula, X-ray of	2539/2541
Schick test	2013/2014
Schilling's test	2448
Semen, analysis	2225-2228
examination	2201-2216
Seminal examination for presence of spermatozoa (Division 9)	2392
Sensitivity testing, body fluids, (other than urine)	1609-1616, 1633/1634
urine	1673/1674
skin	2013-2023
Serial angiocardiology — bi-plane — direct roll-film method	2748
indirect roll-film method	2750
— rapid cassette changing	2744
single plane — direct roll-film method	2746
Serum, examination of, for blood group antibodies	1121-1130
haemolysins	1152-1153
Sex chromatin studies, cytological	2419
determination, cytological, from blood film	2131
Shoulder, X-ray of	2539/2541
Sia test	1319-1323
Sialography	2778
Sickle cells, examination of blood film for	1028-1032
Sinus, injection into, in preparation for radiological procedure	2932

Service	Item
Sinuses, X-ray of	2563
using opaque or contrast media	2782
Skeletal survey	2621
Skin, examination for pathological change	2081/2082
sensitivity testing	2013-2023
Skull, scan of	2493
X-ray of	2560
Small bowel, barium X-ray of (small bowel series only)	2714
with barium meal examination of stomach	2711
Smith-Petersen nail, X-ray of	2557
Sodium, estimation of	1301/1310
Specific gravity, examination of urine for	1536/1537, 1673/1674
Spectrophotometric analysis of amniotic fluid	1339/1340
Spectroscopic examination of blood	1211/1212
Sperm penetrability, tests for	2264/2265
Spermagglutinating and immobilising antibodies, tests for	2247-2250
Spinal cord scan	2457
Spine, functional view of	2611
X-ray of cervical region	2597
lumbar-sacral region	2601
sacroccocygeal region	2604
thoracic region	2599
two regions	2607
three or more regions	2609
Spleen, and liver, scan of	2486
scan	2483
Splenography	2772
preparation for	2898
Sputum, examination for malignant cells	2091/2092
Stain, Gram or similar	1545-1549
special	1556-1567
Stereoscopic examination (X-ray)	2798
Stereotactic procedure control X-ray for	2560
Sternum, X-ray of	2650/2654
Steroid fractions	1364/1366
Steroids, oxogenic, estimation of	1345/1346
Strontium, estimation of	1345/1346
Sudan black positive granules, examination of blood film for	1028-1032
Sugar, examination of urine for	1536/1537, 1673/1674
water tests for paroxysmal nocturnal haemoglobinuria	1036-1040
Sweet's method (localisation of foreign body in eye) — X-ray	2730

Service	Item
T	
Tanned erythrocyte haemagglutination test for tissue antibodies	1955-1958
Teeth, X-ray of	
— full mouth	2589
— single area	2587
Temporomandible joints, X-ray of	2585
Thermography of breasts	2736
Thigh (femur), X-ray of	2524/2528
Thoracic inlet, X-ray of	2634
region, X-ray of	2625-2638
Thoracography	2625/2627
Thorax, X-ray of	2625-2638
Thrombin time, determination of	1244/1246
Thromboplastin generation screening test	1255/1256
time (partial)	1234-1239
Thyroid cancer or hyperthyroidism, therapeutic dose of radio-iodine for,	
by single dose technique	2874
scan	2470
stimulation hormone administration of (procedural service)	1516/1517
stimulation test (procedural service)	1504/1505
uptake test, radio-iodine	2434
Thyrotrophin releasing hormone administration of (procedural service)	1516/1517
stimulation test (procedural service)	1511/1512
Thyroxine, normalised	1434/1435
and (T4) and T3 resin uptake	1441/1442
(T4) or T3 resin uptake	1419/1420
(T4) and T3 resin uptake	1427/1428
Tissue antibodies immunofluorescent detection of	
— qualitative	1911-1914
— qualitative and quantitative	1918/1919
group typing (HLA phenotypes)	2006/2007
Toe, X-ray of	2502/2505
Tolbutamide test (procedural service)	1511/1512
Tomography	2796
Trachea, radiographic examination of	2634
Tract, alimentary, X-ray of	2699-2718
Transfusion, intrauterine foetal blood, control X-ray for	2742
Transketolase, estimation of	1345/1346
Triglycerides, estimation of	1301-1310

Service	Item
V	
Vaginal epithelium, hormonal assessment by cytological examination of smears, examination for pathological change	2104/2105,2111/2112 2081/2082, 2111/2112
Vasoeppidymography	2780
Vasopressin, stimulation test (procedural service)	1504/1505
V.D.R.L. (Venereal Disease Research Laboratory) flocculation tests	1772-1776
Venography, intraosseous, preparation for	2925
Ventriculography, cerebral preparation for	2780 2886
Vertebral angiography column and sacrum, scan of	2758 2495
Vesiculography	2780
Vitamin B12, estimation of	1345/1346
Vitamins, unspecified, estimation of	1345/1346

Service	Item
W	
Wet film, microscopical examination (Division 9)	1529/1530 2352
White cell count	1006-1011
Wrist, and knee, bone age study of bone age study of X-ray of	2614,2617 2617 2508/2512

Service	Item
X	
X-ray image intensification services	2800,2802 2502-2802
Xylose, absorption test (procedural service) estimation of	1504/1505 1342/1343

Service	Item
Z	
Zinc, estimation of	1345/1346
Ziehl Neelsen stain of body fluids	1556/1557

SECTION 3C

List of Acceptable Terms & Abbreviations in Pathology

PART A – Groups of tests which are NOT acceptable.....	3C-1
PART B – Groups of tests which ARE acceptable	3C-1
PART C – Approved abbreviations for common procedural tests	3C-2
PART D – Approved abbreviations for other tests	3C-2–3C-6

A. Groups of tests which are NOT acceptable

Antenatal screen or profile.
 Atherogenic risk screen or profile.
 Basic screen or profile.
 Comprehensive screen or profile.
 Cardiovascular screen or profile.
 Dysproteinaemia screen or profile.
 Executive screen or profile.
 Fatigue screen or profile.
 General screen or profile.
 Hypertension screen or profile.
 Inner ear screen or profile.
 Metabolic screen or profile.
 Obesity screen or profile.
 Ophthalmic screen or profile.
 Renal calculus screen or profile.
 AND similar groupings.

B. Groups of tests which ARE acceptable

Blood Gases — *Items 1364 or 1366 only.*
 Cardiac Enzymes — *includes only tests chosen from Items 1301-1310.*
 Complete Blood Examination (CBE or FBE or FBC) — *includes only Items chosen from 1006-1015.*
 Electrolytes — *includes only tests chosen from Items 1301-1310.*
 Immunoglobulins — *includes only IgG, IgA and IgM.*
 Lipid Studies — *includes only Cholesterol, Triglyceride and Lipid Electrophoresis.*
 Liver Function Studies (LFT) — *includes only tests chosen from Items 1301-1310.*
 Multiple Biochemical Analysis — *includes only tests chosen from Items 1301-1310.*
 Thyroid Hormones — *includes only FTI and/or ETR, with T3 or TSH when indicated.*

NOTE: Medically useful profiles and individual tests from various divisions of Pathology are commonly grouped as renal function studies and antenatal studies etc. When such studies are required the separate acceptable groups or tests need to be separately specified.

C. Approved abbreviations for common procedural tests

Adrenaline Tolerance Test	Adren. T.T.
Arginine Infusion Test	Arg. Inf.
Bromsulphthalein Test	B.S.P.
Carbohydrate Tolerance Test	C.T.T.
Creatinine Clearance Test	Creat. Cl.
Gastric Function Test	Gastric Stim.
Glucagon Stimulation Test	Gluc. Stim.
Glucose Tolerance Test	G.T.T.
Histidine Loaded Figlu Test	Figlu.
Phenosulphthalein Excretion Test	P.S.P. Ex.
T.S.H. Stimulation Test	T.S.H. Stim.
Urea Clearance Test	Urea Cl.
Urea Concentration Test	Urea Conc.
Vasopressin Stimulation Test	Vaso Stim.
Xylose Absorption Test	Xylose Abs.
Tolbutamide Test	Tol. T.T.
Insulin Hypoglycaemic Stimulation Test	Insulin Stim.
Urine Acidification Test	Urine Acid T.

D. Approved abbreviations for other tests

1. HAEMATOLOGY

<i>Name of Test in Schedule</i>	<i>Abbreviation</i>
Haemoglobin Estimation	Hb
Haematocrit, Packed Cell Volume	PCV
Erythrocyte Count	RBC
Leucocyte Count	WBC
Erythrocyte Sedimentation Rate	ESR
Complete Blood Examination	CBE or FBE or FBC
Neutrophil Alkaline Phosphatase	NAP
Foetal Haemoglobin	HbF
Glucose 6 Phosphate Dehydrogenase	G6PD
Pyruvate Kinase	PK

<i>Name of test in schedule</i>	<i>Abbreviation</i>	<i>Other alternatives abbreviations or names not recommended</i>
<i>Coagulation</i>		
Bleeding Time	BT	
Coagulation Time	CT	
Prothrombin Estimation	PT	
Partial Thromboplastin Time	PTTK	
Fibrin Degeneration Products	FDP	
Thromboplastin Generation Test	TGT	
Antihaemophilic Globulin	AHG	
Thrombin Clotting Time	TCT	
2. CHEMICAL PATHOLOGY		
Acidity	pH	
Acid Phosphatase	ACP	<i>Acid Phos, Acid P'ase</i>
Alanine Aminotransferase	ALT	<i>GPT</i>
Albumin	ALB	
Alcohol (Ethanol)	ETOH	
Alkaline Phosphatase	ALP	<i>Alk Phos, Alk P'ase</i>
Amylase	AMS	
Arsenic	As	
Aspartate Aminotransferase	AST	<i>GOT</i>
Bicarbonate	HCO₃	<i>Bicarb</i>
Bilirubins (Conjugated)	BILI.C.	<i>B'rubin direct</i>
Bilirubins (Total)	BILI.T.	<i>B'rubin total</i>
Bromsulphthalein	BSP	
Calcium	Ca	
Carbamazepine	TEGR	<i>Tegretol</i>
Catecholamines	CAT	<i>Adrenalin, nor adrenalin</i>
Chloride	Cl -	
Cholesterol	CHOL	<i>Cholest</i>
Copper	Cu	
Cortisol	CORT	<i>Hydrocortisone</i>
Creatine Kinase	CK	<i>CPK</i>
Creatinine	CREAT	
Delta ALA (δ -aminolevulinic acid)	ALA	
Digoxin	DIG	
Effective Thyroid Ratio	ETR	
Faecal Fat	FFAT	
Folic Acid	Folate	
Free Thyroxine Index	FTI	
Υ -Glutamyltransferase	GGT	<i>GGTP</i>

<i>Name of test in schedule</i>	<i>Abbreviation</i>	<i>Other alternatives abbreviations or names not recommended</i>
CHEMICAL PATHOLOGY (Contd.)		
Globulin	GLOB	
Glucose	GLU
